What's **NEW!** in This Catalog

Many of our customers have been using high quality C.R. Laurence products for years now, and may believe they know all we have to offer. Actually our product line is continually evolving with the addition of **NEW** products. It is our intention to make sure you are happy with the products you have used for years, and at the same time find added opportunities for your business through the use of our newest offerings.

Shown on this page and the next, are just some of the NEW products featured in this AH18 Catalog. Please take a few minutes to review these products. We note page number references for each item so that you may view them in greater detail. And as always, this entire product line can be viewed at crlaurence.com/entrance-systems.

CRL Monolithic and Laminated Tempered "Door Glass"

PAGE 109Z

- Clear Tempered and Low Iron (Starphire®) Glass Types Available
- All Glass Panels Ship Cut and Tempered, Ready to Install
- · Custom Sizes, Fabrication, Drilling, and Edge Work Available
- Proudly Produced in the U.S.A.

CRL-U.S. Aluminum Entice® **Series Entrance System**

PAGES 176Z-179Z

- 1-1/8" (29 mm) Ultra Narrow Vertical Stiles and Mullions With a System Depth of Only 2-1/2" (64 mm)
- Fully Glazed With 1" (25 mm) Insulating Glass
- Thermally Broken Framing and Cladding
- NFRC Rated
- Supports Door Handle Hardware on 1" (25 mm) Insulating Glass
- U-Factors as Low as 0.33

CRL European Hydraulic and Oil Dynamic Bottom **Patch Fittings**

PAGE 211Z

- For 3/8" or 1/2" (10 or 12 mm) Tempered Glass
- Hold-Open and No Hold-Open Models Available
- For Herculite™+ Style Doors

NEW!

CRL Vernon Series Hydraulic 'All-Glass' Hinges

PAGE 233Z

- No Hold-Open Models for Self-Closing Glass Doors From 3/8" to 1/2" (10 to 12 mm) Thick
- · A Great Alternative to Floor Closers and Patch Fittings
- · Adjustable Closing Speed
- Require Cut-Out in the Glass

CRL Glass Bracing Clamps

PAGE 252Z

- · Perfect for Bracing Mall Fronts, Sound Walls, and Partitions
- Made of 316 Grade Stainless Steel
- Do Not Require Holes In the Glass
- For 3/8" to 1/2" (10 to 12 mm) Tempered Glass

Herculite is a registered trademark of PPG Industries, now Vitro

CRL Locking Ladder Pulls

PAGES 280Z-285Z

- · A.D.A. Compliant Latching Models Available
- New Matte Black Finish Stocked in Some Models
- · Custom Sizes and Finishes Available

CRL Laguna Series Slider Kits With Double Top Rollers

NEW!

PAGES 357Z, 359Z, 361Z, and 363Z

- NEW Double Top Rollers for Contemporary Design
- Wall Mount and Glass Mount Systems Available
- 316 Grade Stainless Steel Construction for Durability
- Anti-Lift Design for Added
- All Kits Include Fasteners Needed for Either Flush (Countersunk) or Surface (Straight Hole) Mounting
- For Use With 3/8" or 1/2" (10 or 12 mm) Tempered Glass

CRL490/495 Series Top Hung **Sliding Door Kits**

PAGES 399Z-403Z

- For 5/16" to 1/2" (8 to 12 mm) Tempered Glass
- · Available With or Without "Softbrake" Braking System
- · Kits Available for Wall and Ceiling, or Dropped Ceiling Applications, With or Without Fixed Panels
- Can Accommodate Doors Weighing Up to 330 Pounds (150 kg)
- Clamps are Fully Concealed Inside the Header
- No Notches or Holes Required in the Glass for Installation
- Satin Anodized and Brushed Stainless Anodized Finishes Available

CRL Easy Slide Stacking Partition System

PAGES 449Z-452Z

- 1-1/8" (29 mm) Slim Top and Bottom Rails
- Directional Rollers Guide Glass Panels Effortlessly Every Time
- Panels Simply Stack Away, Creating Large Openings or Clear Space
- System Come in Choice of Brushed Stainless, Polished Stainless, and Satin Anodized Finishes
- Top Track, Corners, and Intersections Available in Satin Anodized or White Powder Coat
- For Use With 3/8" and 1/2" (10 and 12 and mm) Tempered Glass
- Each Unit is Customized per Chosen Parking Configuration

CRL-U.S. Aluminum Mojave Series Advanced Thermal Entrance Systems

NEW!

PAGES 462Z-463Z

- Uses Polyamide Struts and Radiant Energy Barriers for Optimal Thermal Performance
- Meet California Title 24 Requirements Using Both Area Weight Prescriptive and Performance Calculation Approaches
- · Available in Narrow. Medium. and Wide Vertical Stiles
- Compatible With a Wide Range of Standard Architectural Locking and Mounting Hardware
- Ideal for Retrofit Applications
- Accommodate 1" (25 mm) Thick Insulating Glass

CRL Fallbrook Office Partition Systems

NEW!

PAGES 542Z-543Z

- Front Load Dry Glazed System With No **Exposed Fasteners**
- Accommodates 3/8" or 1/2" (10 or 12 mm) Glass Doors, Plus 1-9/16" (40 mm) Wood Doors
- XL Series Accommodates Insulating Glass Fixed Panels of 13/16", 7/8", 15/16", 1" or 1-1/8" (20, 22, 24, 26, or 28 mm) for Noise Reduction
- Available in Satin Anodized or Brushed Nickel Finish
- EPDM Gasket

CRL Clear View Office Partition System

PAGE 544Z

- · A Choice of Pivoting or Sliding Door Options
- Full-Length Door Rails Utilize the Patented Wedge-Lock® Dry Glaze System
- Ideal for Office Fronts, Conference Rooms, Lobbies and Waiting Rooms
- Available in Six Standard Architectural Finishes, With Custom Finishes Available Upon Request
- For Use With 3/8" to 3/4" (10 to 19 mm) Tempered Glass

THE INDUSTRY STANDARD FOR 'ALL-GLASS' **ENTRANCES**

Why piecemeal components when you can have peace of mind sourcing your entire entrance system from a single, trusted manufacturer? CRL 'All-Glass' Entrances provide a complete system solution for Herculite™ + Doors. They feature patented DRS Series Door Rails that provide the utmost in speed and versatility. Complete your entrance with CRL-Jackson® Door Closers. For over 50 years, Jackson has been a premier manufacturer of door hardware for the aluminum and heavy glass door industry, with its original, patented transom closer debuting over 35 years ago. Take advantage of the **shortest lead time** in the industry with CRL Locking Ladder Pulls, or elegantly secure your entrance with iconic CRL-Blumcraft® Panic Devices.

Blumcraft® is the Original Tubular Panic Patented Decades Ago, and Trusted by Leading Temperers and Specifiers Across the Globe.

When Off-the-Shelf Won't Do | Rapid Customization and Advanced Fabrication

When standard products can't satisfy project requirements, C.R. Laurence has the design, engineering, and fabrication expertise to provide custom-engineered product solutions. Backed by the state-of-the-art manufacturing technologies and in-house testing laboratories, we have the ability to design, rapid prototype, test, and precision engineer complex or custom components faster than ever. When you partner with CRL, our manufacturing capabilities become one of your strengths, enabling you to tell more clients 'yes' when your competitors say it can't be done.

Total Package | A Unique Combination of Innovative Products, Expertise, and Service

We're more than a hardware manufacturer, we are the one-stop-shop for glazing professionals. In addition to offering a comprehensive selection of architectural hardware, CRL supplies the largest selection of glass and glazing tools and supplies. All of our products are supported by a team of drafters, hardware consultants, engineers, and CSI, CDT-certified project managers; giving you a unique combination of single-source product solutions and services that enables you to get the job done right and on schedule.

Global Reach, Local Touch | Worldwide Distribution Network

Lead time is critical, and project delays can undermine your reputation and profitability. Our manufacturing and distribution network spans 46 locations, in six countries across three continents—providing you the products you need, when you need them. CRL Service Centers are strategically located in or near major metropolitan areas to serve customers in person. This allows for localized fabrication, stock inventories, and technical support.

CRL 'ALL-GLASS' ENTRANCES

THE NAME YOU TRUST

C.R. Laurence is the industry standard when it comes to glass entrance systems. For decades, architects, glaziers, and the most recognizable brands in the world have continued to place their trust in CRL architectural glazing systems. Whether it be withstanding the 300,000+ daily commuters at NYC's Fulton Center, elegantly and securely displaying historical masterpieces at the Louvre in Paris, or tailor-made solutions customized to the exacting design intent for Apple Park headquarters—CRL glazing systems have cultivated a reputation for delivering performance and aesthetics time and again. This is why you'll find our products in the most iconic buildings and demanding specifications.

Often imitated but never matched, CRL 'All-Glass' Entrance Systems are the preferred choice of architects and glaziers alike. The ease-of-installation, durability, and elegance offered by C.R. Laurence architectural hardware are unmistakable and unparalleled.

CRLAURENCE.COM ONLINE TOOLS

CRL Web Library and Complete Product Index

 Thousands of Pages of Quality Products and Helpful Information are Just Clicks Away, Any Time at Your Convenience

crlaurence.com/web-library

Having Trouble Finding What You're Looking For? Let us know by using our Product Help Feedback Form, accessible anywhere you see this icon.

Complete Product Index

We've combined the thoroughness and familiarity of our Master Catalog product indexes with the speed and convenience of online shopping. Here you will find every product from our exhaustive print catalogs, organized by brand and presented in an easy-to-search platform.

crlaurence.com/product-index

This Catalog Features Three Easy Ways to Find Products Online

Product Number

Throughout the book you'll find product numbers next to products and in product charts (appears as "CAT. NO."). Enter this number into the crlaurence.com search box and click "Search" for instant access to complete product information, pricing, availability, additional finishes/sizes, details, and related items.

door-rails

The bottom left of each page lists unique search keywords to provide quick navigation once you're already at **crlaurence.com**. Type the keyword(s) into the **crlaurence.com** search box and click "**Search**" to be presented with a complete selection of products related to the catalog page you're on.

2 Shortcuts

The top right of each catalog page has a shortcut URL (web address) that relates to the products on the catalog page you're looking at. Simply type the string of text into your web browser's address bar and you'll jump to that specific expanded product offering on **crlaurence.com**.

Every shortcut URL featured in this book is available in an easy-to-navigate alphabetical online directory. Visit **crlaurence.com/shortcuts**.

TIP: Be sure to enter the text exactly as it appears on the page (including any hyphens).

CRL ONLINE SERVICES

CRL Storefronts Online®

Automated Estimating Software

- Designed to Save Glazing Contractors Time and Money
- The Only Comprehensive Software on the Market That Accommodates Both "All-Glass" and Aluminum Framed Systems
- Designed Specifically With the Glazier in Mind, the Easy-to-Use Interface Produces a Complete Quote Package Instantly
- Determines All Materials Required and Optimizes Material Yield Across Your Entire Project
- Produces Glass Sizes, Installation Sheets. Cutting List and Material Fabrication Details
- Generates a Professional Bid Package With Your Company Logo for Presentations to Clients and Architects
- Works on All Computers and Mobile Platforms, Including Tablets
- Generates Everything You Need to Design, Quote, Order, Fabricate, and Install 'All-Glass' Entrances and Building Envelope Systems Faster Than Ever

Also Available from CRL:

- Do you quote and install commercial entrances, storefronts, or curtain walls?
- Do you need assistance with designing safe architectural systems?
- Do you require professional drawings and visual aids for your proposals?
- Do you want to grow your business and expand your technical capabilities?

If YES, then go to crlaurence.com/sfol to attend a webinar and receive your FREE 30-day trial.

Our powerful Storefronts Online® estimating software now includes 'All-Glass' Entrances, U.S. Aluminum Framed Storefronts, Curtain Walls, Office Partitions, and Sliding Systems.

Storefronts Online® is a one-stop-shop that allows you to design and build commercial entrances, storefronts, and curtain walls faster than ever. This innovative program expedites the bidding process, minimizes errors on estimates, and generates accurate quote packages in a matter of clicks, enabling you to quote more jobs in less time. For added savings, our popular 2% online ordering discount is now available on Storefronts Online[®]. When you purchase through Storefronts Online®, the 2% discount will be automatically applied to all qualifying materials.

> This easy-to-learn, easy-to-use software will convert even your newest crew member into an estimating pro. Be among the many benefitting from the capabilities of Storefronts Online®. CRL DRS DOOR RAIL SYSTEM

Our Most Popular 'All-Glass' Entrance System

CRL DRS Dry Glaze Door Rails (Pages 116Z-140Z)

DRS Door Rails feature the patented Wedge-Lock® Glass Securing System,

the fastest way to install or remove a Herculite"+ Door Rail in the industry. Stock Rails are available for will call or shipment from 40+ Service Centers across North America, Europe, and Australia, yielding the industry's fastest lead time.

CRL DRS Dry Glaze Sidelite Rails and U-Channels (Pages 142Z-160Z)

CRL Dry Glaze Sidelite Rails are available in profiles to match our DRS Door Rails, allowing you to maintain a perfect sightline for your 'All-Glass' entrance. CRL also offers a complete line of low profile U-channels for dry glaze or wet glaze installations.

CRL 'All-Glass' Entrance Systems Headers, and Accessories (Pages 161Z-174Z)

CRL offers a full line of stock size and custom Headers to accommodate a wide variety of DRS System applications, including glass mounted, and dropped ceiling installations. DRS Door Rail compatible Locking Hardware and Weatherization Hardware is also available.

CRL Glass-Mounted Handles and Access Control Handles (Pages 253Z-295Z)

A wide selection of Glass-Mounted Pull Handles, Locking Handles, and Access Control Handles are available to complete your 'All-Glass' Entrance System.

Exceptional Products. Exceptional Support.

CRL supports our extensive line of products with dedicated Technical Specialists who work directly with architects, specifiers, hardware consultants, and contractors to assist with hardware selection. CRL offers hardware options in a variety of designs, sizes, materials, and finishes to suit design aesthetics, application performance, and code accessibility/egress requirements. For technical assistance and product support, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. CRL's DRS Door Rail System Features Our Patented Wedge-Lock® Glass Securing System and Our Unique Kwik-Adjust™ Pivot Alignment System

Our patented Wedge-Lock® Glass Securing System is now even better with the Kwik-Adjust™ Pivot Alignment System. The System allows the installer to quickly and easily adjust the lateral alignment of the pivot centers by simply turning a single screw in either the top or bottom rail of the door. All of our 4", 6" and 10" (102, 152 and 254 mm) tall Door Rails, as well as our Patch Rails, utilize both Wedge-Lock® and Kwik-Adjust™ technologies, giving you the most versatile rail system on the market today.

Our standard rail length of 35-3/4" (908 mm) can be used on either 36" (914 mm) wide single door or 72" (1828 mm) wide double door openings, making ordering simple while reducing stocking requirements and shortening lead times.

DRS components are stocked in each of our locations throughout the U.S., Canada, Europe, and Australia. And since we manufacture them ourselves, custom door rails can be fabricated for your every rail need. When it comes to quality and service, CRL is your source for Door Rails.

For additional information, go to **crlaurence.com/door-rails** or contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also e-mail us at **architectural@crlaurence.com**.

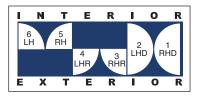

"Industry Standard" for Herculite™+ Style Doors

There are six basic 'all-glass' door styles typically referred to throughout the industry as Herculite™+ Doors. By identifying your basic door style and swing, it will help make clear what your intentions are for the particular project.

- Custom Sizes and Finishes Also Available in as Few as 3 Business Days

How the Wedge-Lock® Glass Securing System Works

The patented Wedge-Lock® Glass Securing System is a totally original concept for securing the glass in the Door Rail. No more fumbling with multiple pieces, trying to align them properly. No more time wasted waiting for cement to dry, or on clean up.

The Wedge-Lock® System works by applying pressure evenly along both sides of the glass. Simply tighten the jaw screws, accessed from the hardware pocket of the rail. The screws then draw down a flat bar. The flat bar in turn pulls down the gripping jaws. This action then forces the jaws toward one another, creating a tremendous amount of force against the glass, holding it securely in place.

The Wedge-Lock® Glass Securing System is so unique that it is covered by U.S. Patents 6,434,905 and 6,912,818 B2, Canadian Patent 2,419,706, and European Patent EP1 404 939 B1.

Wedge-Lock® Laboratory Test

National Technical Systems, a certified laboratory, tested the Wedge-Lock® Door Rail System, subjecting it to temperatures ranging from -10°F to 150°F (-23°C to 65.5°C), with 1000 pounds (454 kg) of tension load applied. No evidence of movement was detected at any temperature. At an ambient temperature of 73°F (22.8°C), in a "Pull to Failure" Test, 6900 pounds (3130 kg) of tension was required before any creep (not failure) was detected.

Wedge-Lock® Door Rails come completely fabricated with the end caps in place, thus making them ready to install right out of the package. Experienced installers can secure our Door Rails in fewer than 10 minutes.

For more information, please go to crlaurence.com/door-rails or contact our Technical Sales Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also e-mail us at architectural@crlaurence.com.

Features of the CRL Wedge-Lock® DRS **Door Rail Kwik-Adjust™ Pivot Alignment System**

European Patent EP1 404 939 B1

ARCHITECTURAL SPECIFICATIONS

DR6K Adjustable

Slide Block

C.R. Laurence is always looking for ways to improve the product we supply our customers. We believe that "good enough" is never enough. We have made an improvement to the Jamb Alignment System in our 4", 6", and 10" (102, 152, and 254 mm) tall Rails. Now with the Kwik-Adjust™ System the turn of only one screw adjusts the door away from or toward the door jamb. NOTE: For jamb alignment in our Low Profile Rails see page 116Z.

To Adjust the Door Rail Away From the Jamb

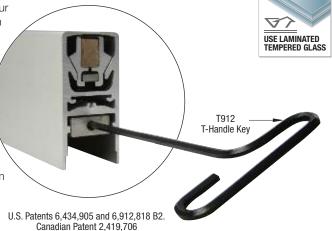

- 1. Remove the End Cap. This will reveal the adjustment screw.
- 2. Insert the T912 T-Handle Key into the screw and turn the screw clockwise to the proper clearance from the jamb. A slight clicking noise may be heard. This sound is caused by our friction retention mechanism that will help prevent the screw from loosening out of alignment.
- 3. Replace the End Cap.

To Adjust the Door Rail Towards the Jamb

- 1. Remove the End Cap. This will reveal the adjustment screw.
- 2. Insert the T912 T-Handle Key into the screw and turn the screw counterclockwise to the proper clearance from the jamb. A slight clicking noise may be heard. This sound is caused by our friction retention mechanism that will help prevent the screw from loosening out of alignment.
- 3. Replace the End Cap.

Centering Adjustment

We have designed our Cat. No. CRL8010AS Overhead Closer Arm and our Cat. No. CRL9040AS Floor Closer Arm to help make the centering adjustment easier. To center the door you just loosen the two Pan Head Phillips Screws holding the arm to the block, then adjust the two hex bolts at the end of each arm to slightly change the angle of the arm as it mounts on the Door Rail. Make sure that both hex bolts are tightened against the inside face of the Door Rail, and the two Pan Head Phillips Screws are tightened to the block when the adjustment is complete. This will secure your adjustments into place.

The low profile of the Adjustable Slide Block allows the arm or pivot blocks to be moved to a position other than the standard American setback of 2-3/4" (70 mm). This means that when you use our Door Rails, we can fabricate them for vertically out-of-square openings.

Door centering is easily achieved by turning the two hex head bolts

The Benefits of Using CRL Wedge-Lock® DRS Door Rails

U.S. Patents 6,434,905 and 6,912,818 B2. Canadian Patent 2,419,706 European Patent EP1 404 939 B1

The CRL Wedge-Lock® Dry Glaze Door Rail System is designed for quick field installation on the glass.

The Wedge-Lock® System allows for door sizing adjustments at the job site, by simply placing the door glass on saw horses and loosening the Wedge-Lock® securing screws.

BENEFIT: No more mixing and pouring messy cement, and having to wait for it to dry.

BENEFIT: Door Rails can be adjusted up, down or at an angle, to provide attractive sight lines in the door opening.

3. The universal Kwik-Adjust™ Alignment System Cat. No. DR6K has a 1/4" (6 mm) jamb adjustment [1/8" (3 mm) in or out]. It is designed to receive our CRL9040AS or CRL8010AS Door Closer Arms, or any standard CRL8010 Series Bottom Pivot without modification.

> **BENEFIT:** This means Wedge-Lock® Door Rails can be used for the top or the bottom of a door, so you reduce the number of SKU's in your stock.

The Wedge-Lock® System also allows for job site glass replacement for broken or damaged glass, without the need to send wet glazed rails back to the fabricator for glass removal and replacement.

BENEFIT: Broken door glass can be easily replaced at the job site in less than 30 minutes.

Wedge-Lock® Door Rails come completely fabricated, with end caps attached, and foam spacer blocks at each end.

BENEFIT: Installation is as easy as slipping the Door Rail over the glass, removing the spacer blocks, aligning the rail to the glass, and then securing it in place by tightening a few Allen Cap Screws. All in less than 10 minutes (for the experienced installer). Our Door Rails With Locks come with the locking unit installed. Keyed Cylinders or Thumbturns are simply screwed into the locking unit through pre-fabricated holes, sold separately see pages 169Z-171Z.

BENEFIT: A key/key or key/thumbturn combination is easily accomplished by choosing the appropriate hardware.

Adjusting the Reveal Between the **Door and Fixed Panel or Jamb**

With our Low Profile Door Rails, installers have the ability to quickly and easily adjust the lateral alignment of the door to the side fixed panel or jamb. NOTE: This adjustment must be done prior to installing lock cylinders/thumbturns.

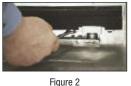

Figure 3

Step 1: Open the door. Using a #1 Phillips screwdriver, remove the door's pivot edge End Cap and slide the Door Rail's side panel until removed from the door (see Figure 1).

Step 2: Place a vacuum cup on the handle edge of the door and position support blocks under the door assembly to prevent the door from dropping during adjustment.

Step 3: Starting with either the top or bottom Door Rail, depending on which end is farthest from alignment, use the enclosed 7/16" Open-End Wrench to loosen the two 1/4" hex head bolts that secure the mounting hardware (see Figure 2).

Step 4: Lift or lower the handle edge of the door to improve the reveal, and adjust blocking to hold the new position.

Step 5: Tighten the two 1/4" hex head bolts that secure the mounting hardware, and if necessary, repeat steps 2 through 4 on the remaining Door Rail.

Step 6: With the door in the open position, slide the Door Rail's side panels into position covering the clamping section of both Door Rails. Re-install the End Caps (see Figure 3).

Threshold (6 mm) (7 mm) (254 mm) Square Shape Full Length Door Rails have been designed to meet requirements mandated under the 1998 Amendments to the ANSI A117.1 Guidelines and Standards for accessibility to buildings and facilities of people with disabilities. This section provides a 10" (254 mm) surface from the floor across the bottom of the door.

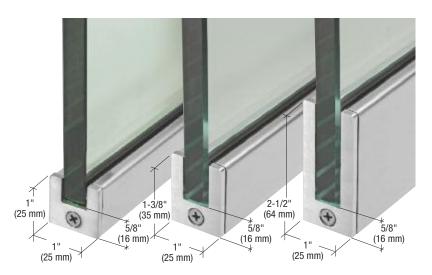

NOTE: For maximum door sizes when using this product, CRL follows GANA Guidelines (see page 114Z).

CRL Slender Profile Dry Glaze Door Rails

For 1/2" (12 mm) Tempered Glass

- Dry Glaze Slender Profile Door Rails Are Only 1" (25 mm) Wide
- Available in Three Heights With or Without a Lock
- In Stock Ready to Ship
- Designed for Interior Use Only
- Custom 1" (25 mm) Slender Profile Vertical Stiles Available on Special Order
- Brushed or Polished Stainless Steel Finishes
- For Herculite[™]+ Style Doors

CRL Slender Profile Door Rails measure only 1" (25 mm) wide and are available in three heights: 1", 1-3/8", and 2-1/2" (25, 35, and 64 mm).

They are all prepped to receive any of the three Slender Profile Rail Pivot Inserts, ordered separately, that allow you to use overhead door closers, floor mounted door closers, or pivots. The 1-3/8" and 2-1/2" (35 and 64 mm) models can be fitted with our 7150 Series Cam Lock for use in display case applications (available in left and right handed models). Other locking options may be available on special order.

All Slender Profile Rails are designed for field installation and are easily adjusted to compensate for unexpected installation issues. Rails feature aluminum construction, clad in 304 grade stainless steel for a durable, lasting finish. **NOTE**: Maximum door size is 42" x 108" (1067 x 2743 mm). Slender Profile Dry Glaze Door Rails are for interior use only. When used with door closers with mechanical stops, a surface mounted stop must be used in the open position.

Ordering Information:

- Compatible Pivots: CRL9040WBP Top Pivot, SP1NT401 Top Pivot, 1NT402 Bottom Pivot, SP1NT403 Bottom Pivot
- End Caps are included with all Slender Profile Door Rails.
- Door Rail length (including End Caps) must be specified when ordering Custom Length Rails.
- When 7150 Series Cam Lock is required, you must choose a left or right handed Door Rail.
- Slender Profile Rails are prepped to receive any of the Slender Profile Door Rail Pivot Inserts shown on the opposite page (sold separately).
- Installation Instructions and Adjustment Wrenches are included.
- For Handles see pages 286Z-295Z.

CRL Sidelite Rails With Top Load Roll-In Gasket

(See Pages 142Z -151Z)

- Six Styles in Up to Eleven Architectural Finishes
- Sidelite Rails Match Door Rails for an Even Sightline
- Models for 3/8", 1/2", 5/8 and 3/4" (10, 12, 16, and 19 mm) Tempered Glass

CRL U-Channels

- A Cost Effective Alternative to Sidelite Rails, Ideal for Longer Runs
- Dry Glaze, or Wet Glaze Options
- Models For 3/8", 1/2", 5/8", and 3/4" (10, 12, 16, and 19 mm) Tempered Glass
- Up to Six Architectural Finishes

 Ready-to-Ship Stock Lengths Up to 240" (6.10 m)

CRL Regular, Shallow, and Wide U-Channels With Top Load Roll-In Gaskets

(See Pages 152Z - 155Z)

- Used as a Narrow Header With Door Rail, Narrow Header With Sidelite Rail, or as a Wide U-Channel for Top and Bottom of Sidelites
- Six Standard Architectural Finishes
- Can Be Surfaced Mounted or Recessed for a Truly 'All-Glass' Look
- Uses Top Load Roll-in-Gasket for 3/8" or 1/2" (10 or 12 mm) and 5/8" or 3/4" (16 or 19 mm) Tempered Glass

CRL Wet/Dry U-Channels

(See Pages 156Z - 157Z)

- Three Standard Heights: 1", 1-1/2", and 2" (25, 38, and 51 mm)
- Glass Can Be Secured With Silicone Sealant or Our Top Load Roll-In Glazing Gaskets
- The Smallest Profile U-Channel for Glazing 3/8" or 1/2" (10 or 12 mm) Tempered Glass

CRL Blumcraft® Header Channels, and Wet Glaze U-Channels

(See Pages 158Z - 159Z)

- For 1/2" or 3/4" (12 or 19 mm) Tempered Glass
- Headers Include a Built-In Glazing Gasket for Easy Glass Installation
- Wet Glaze U-Channels Provide a Small Complementary Profile for Use with Our 1301 Series Doors and Sidelites

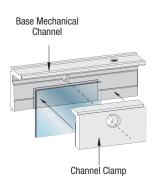

CRL Mechanical Glazing Channels

(See Page 160Z)

- For 3/8", 1/2", and 3/4" (10, 12, and 19 mm) Tempered Glass
- Standard Channel Requires No Holes in the Glass
- Used Where Lift and Drop Applications are Not Possible

CRL 2-5/16" Low Profile Dry **Glaze Tapered Sidelite Rails**

For 3/8" or 1/2" (10 or 12 mm) Tempered Glass

- Low Profile Rails Provide an Even Sightline With Our Low Profile Door Rails
- Reversible Extruded Saddle to Match 1/4" or 3/4" (6 or 19 mm) **Door Clearances**
- Vinyl Provided to Use With 1/2" (12 mm) Glass; Vinyl for 3/8" (10 mm) Glass Ordered Separately
- Ready-to-Ship Models From CRL Inventory
- Matching Door Rails (See Page 116Z-117Z)

These CRL Low Profile Tapered Sidelite Rails measure only 2-5/16" (59 mm) tall by 1-9/16 (40 mm) wide, a perfect match for our Low Profile Door Rails. The included Reversible Saddle allows you to maintain a perfect sightline even when using a 1/2" (13 mm) threshold under the door. Choose from up to seven architectural finishes.

For additional information, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send an e-mail to

architectural@crlaurence.com.

CRL 2-5/16" Low Profile Dry **Glaze Square Sidelite Rails**

For 3/8" or 1/2" (10 or 12 mm) Tempered Glass

- Low Profile Rails Provide an Even Sightline With Our Low Profile Door Rails
- Reversible Extruded Saddle to Match 1/4" or 3/4" (6 or 19 mm) **Door Clearances**
- Vinyl Provided to Use With 1/2" (12 mm) Glass; Vinyl for 3/8" (10 mm) Glass Ordered Separately
- Ready-to-Ship Models From CRL Inventory
- Matching Door Rails (See Pages 118Z-119Z)

These CRL Low Profile Square Sidelite Rails measure only 2-5/16" (59 mm) tall by 1-9/16" (40 mm) wide, a perfect match for our Low Profile Door Rails. The included Reversible Saddle allows you to maintain a perfect sightline even when using a 1/2" (13 mm) threshold under the door. Choose from up to seven architectural finishes.

For additional information, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send an e-mail to

architectural@crlaurence.com.

CRL Shallow U-Channel With Top Load Roll-in Glazing Gasket

- Uses Top Loading Roll-In Glazing Gasket for 3/8" and 1/2" (10 and 12 mm) Glass
- Ideal for Recessed 'All-Glass' Installations
- Ready-to-Ship Models From CRL Inventory
- Six Standard Architectural Finishes
- Custom Finishes and Powder Painting Available
- Custom Lengths Available

CRL Shallow U-Channel can be used for a variety of installations, such as for a sash channel above a header, on walls or floors where either drywall or finished flooring can conceal the channel creating a truly 'All-Glass' look. Stock lengths are sold in 120" (3.05 m) or 240" (6.10 m) lengths.

NOTE: For installations using 1/2" (12 mm) glass, the Roll-In Glazing Gasket is included in the package. If using 3/8" (10 mm) glass, the Roll-In Glazing Gasket must be ordered separately (see below).

SHALLOW U-CHANNEL

CRL Combination Wide U-Channel and Narrow Header

- Channels for 3/8" or 1/2" (10 or 12 mm) and 5/8" or 3/4" (16 and 19 mm) Glass
- Matches the Width of Door and Sidelite Rails
- Accepts Roll-In Glazing Gasket, Top Pivot Block, and Snap-In Filler Strip
- Ready-to-Ship Models From CRL Inventory
- Available in Stock Lengths, Fabricated Headers, or Header With Side Pockets for 'Lift and Drop' Panel Installation

or

This Aluminum Extrusion was developed with three uses in mind: (1) As a U-Channel that would be the same width as our Sidelite Rails and Door Rails; (2) As a Narrow Header that is the same width as our Sidelite Rails and Door Rails, and will accept a Top Free-Swinging Pivot to secure the top of the doors; (3) As an Even Sightline System, accomplished by first securing the fabricated Narrow Header to the top of the opening, then securing the Sidelite Rail to the Narrow Header with the 1/4" (6 mm) Header Saddle. All drilling, tapping, and fabrication can be done at your request during manufacturing to save time while installing.

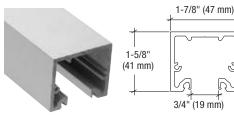

Used as Narrow Header With Sidelite Rail

CRL Wet/Dry Glaze U-Channels

- Three Standard Heights 1", 1-1/2", and 2" (25, 38, and 51 mm)
- Six Standard Architectural Finishes
- Brushed Stainless, Polished Stainless, and Polished Brass Finishes are Available on Special Order
- Available in 120" and 240" (3.05 and 6.10 m) Stock Lengths

USE MONOLITHIC

TEMPERED GLASS

CRL Wet/Dry Glaze U-Channels provide the smallest profile U-Channel for glazing 3/8" or 1/2" (10 or 12 mm) glass. They are available in six standard finishes in both 120" and 240" (3.05 and 6.10 m) stock lengths.

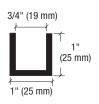

Wet/Dry Glaze U-Channels provide the most economical way to glaze heavy glass. Using a Deep U-Channel on the top and the Shallow U-Channel on the bottom allows for the 'lift and drop' method of glazing. The glass can be secured with silicone sealant or our Top Load Roll-In Glazing Gasket (shown on opposite page).

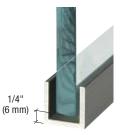

For Cladded U-Channels, custom finishes, or custom lengths, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also e-mail us at architectural@crlaurence.com.

CRL Top Load Roll-In Glazing Gasket

- Roll-In Glazing Gasket for 3/8" and 1/2" (10 and 12 mm) Tempered Glass
- Eliminates the Need for Silicone
- Available in Black or Gray

CRL Roll-In Glazing Gasket provides an easy way of glazing glass. It eliminates using messy silicone sealant and the clean up that follows. Black or gray color material can be used with all finishes of our Wet/Dry U-Channel.

Installation Tip:

We have found that rolling in one side first while wedging the opposite side of the glass with the CRL216 Tapered End Windshield Stick helps prevent the Glazing Gasket from slipping and aids in application of the Gasket on the opposite side of the glass.

CRL Blumcraft® Header Channels

- Channels for 1/2" or 3/4" (12 or 19 mm)
 Tempered Glass
- Accepts Glazing Gaskets, Top Pivots, and Snap-In Filler Strips
- Available in Five Architectural Finishes
- Custom Finishes, Including Oil Rubbed Bronze, are Available on Special Order

End Cap
Easy to install
with Silicone

These CRL Blumcraft® Header Channels are used over fixed glass panels, and as headers for pivoting doors, or a combination of both. A built-in glazing gasket is included for easy glass installation, without requiring sealant.

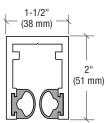

These extruded aluminum channels are available in 120" or 240" (3.05 or 6.10 m) stock lengths in satin anodized, black bronze anodized, brushed or polished stainless steel, and polished brass. Custom lengths and finishes are also available on special order.

For use as a Door Header, or for more information, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700.

You can also e-mail us at architectural@crlaurence.com.

CRL Blumcraft® Wet Glaze U-Channels

- Channels for 1/2" or 3/4" (12 or 19 mm) Tempered Glass
- Available in Five Architectural Finishes
- Custom Finishes, Including Oil Rubbed Bronze, are Available on Special Order
- Easy to Install Matching Finish End Caps (Ordered Separately)

End Cap Easy to install with Silicone

These CRL Blumcraft® Wet Glaze U-Channels provide a small complementary profile for use with our 1301 Series Doors and Sidelites when customers desire to field glaze the fixed panels of an opening. They are available from stock in 120" or 240" (3.05 or 6.10 m) lengths in satin anodized, black bronze anodized, brushed or polished stainless steel, and polished brass.

End Caps are ready to install with silicone sealant. For custom lengths or custom finishes, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also e-mail us at architectural@crlaurence.com.

CRL Mechanical Glazing Channels

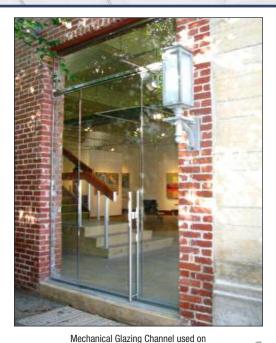

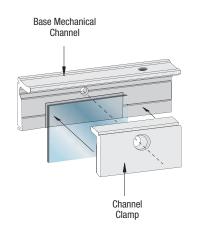

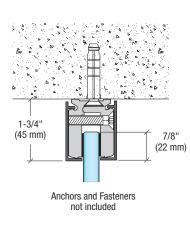

- Dry Glazing System for 3/8", 1/2", and 3/4" (10, 12, and 19 mm) Tempered Glass
- Standard Channel Requires No Holes in the Glass
- Available in Satin Anodized and Brushed Brite Anodized Finishes
- Standard 120" (3.05 m) Lengths

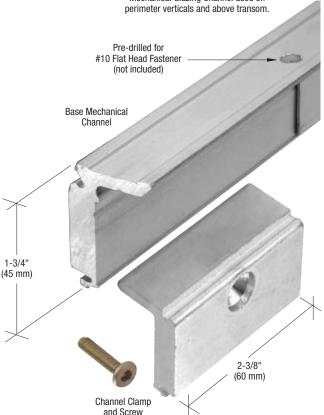

CRL Mechanical Glazing Channel is a dry glazed system that requires no wet silicone glazing. This two-piece front load clamp-on channel provides easier installation and is used where lift and drop applications are not possible. Pre-drilled and tapped holes for Channel Clamps are provided every 11-13/16" (300 mm) on center. No holes are required in the glass. Channel End Caps finish off the ends and are adhered using clear silicone.

Kits include: one Base Channel, ten Channel Clamps with Screws, and two Decorative Snap-On Covers. End Caps are sold separately.

CRL Custom Fabricated Headers

- Available in 4", 4-1/2", and 6" Sizes
- Seven Standard Architectural Finishes: Satin Anodized, Black Powder Coat, Black Bronze Anodized, Polished Stainless, Brushed Stainless, Polished Brass, and Satin Brass
- Custom Finishes Available on Special Order

CRL will fabricate Custom Headers to accept a large variety of door hardware, such as: fixed or walking beam top pivots, door closers, manual or electric strikes, concealed or surface mounted locks, offset pivots, overhead arms, and many other types of accessories. Also, a glazing pocket to secure the top of any sidelite is available. The sidelite glass is secured in the glazing pocket with the provided Roll-In Glazing Gasket, which is available for both 3/8" and 1/2" (10 and 12 mm) glass. Please specify when ordering. Choose from a variety of stock or custom finishes.

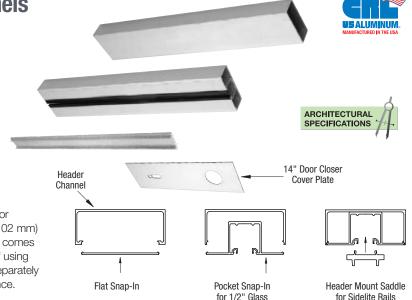

All Custom Headers must be special ordered through our Technical Sales Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also e-mail us at **architectural@crlaurence.com**.

CRL Stock Length Header Channels and Snap-In Inserts

- Available in 1-3/4" x 4" and 1-3/4" x 4-1/2" Sizes
- 120" and 240" (3.05 and 6.10 m) Lengths in Two Architectural Finishes: Satin Anodized and Black Bronze Anodized
- Custom Finishes Available on Special Order
- Ready-to-Ship From CRL Inventory

CRL now carries stock length Header components: Header Channel, Flat Snap-In Cover Plate for Overhead Concealed Door Closer, and Glazing Pocket Snap-In, in both 1-3/4" x 4" (45 x 102 mm) and 1-3/4" x 4-1/2" (45 x 114 mm) sizes. The Pocket Snap-In comes complete with Roll-In Glazing Gasket for 1/2" (12 mm) glass. If using 3/8" (10 mm) glass you must order our GG38 Series Gasket separately (see page 155Z). Contact Technical Sales for ordering assistance.

CRL Floating Headers for Overhead Concealed Door Closers

- For Use With 1/2" (12 mm) Tempered Glass Only
- Ideal for Jobs Where Cutting Into the Floor for a Floor Closer is Not an Option
- Available for Glass-to-Glass or Glass-to-Wall Installations With Overhead Concealed Door Closers or Pivots
- Six Standard Architectural Finishes
- Custom Headers Available on Special Order

These Floating Headers for Overhead Concealed Door Closers allow the mounting of single or double doors off glass sidelites, with a transom above. Stock Floating Headers are for use in 1/2" (12 mm) glass-to-glass installations, and are prepared to accept CRL Overhead Concealed Door Closers and a 1/2" (12 mm) thick glass transom.

Custom Floating Headers cover the rest of the offered configurations, including various glass thicknesses, Headers in custom lengths, glass-to-wall configurations, and Headers prepped for surface mounted magnetic locks, magnetic shear locks, a surface mounted top pivot, a walking beam pivot or an overhead concealed door closer. **NOTE:** If the weight of the transom above the header exceeds 100 lbs. (45.4 kg) the transom will need to be supported from the ceiling to take weight off of the header and prevent bowing. You can use either B5BC Smoke Baffle Channel or PH94 Patch Fittings. Please contact Technical Sales for assistance.

APPLICATION TIP:

For jobs where floor closers are not an option due to special finishes or minimal floor thickness, the CRL Floating Header for Overhead Concealed Door Closers is the ideal solution.

CRL Narrow Floating Header With Walking Beam Top Pivots

- For 1/2" (12 mm) Tempered Glass Only
- Supported by Glass Side Panels
- Creates an Even Sightline When Used With CRL Door Rails
- Stock Single 36" (914 mm) and Double 72" (1829 mm) Headers, With Custom Sizes Available
- Six Standard Architectural Finishes
- Custom Finishes Available on Special Order

USE MONOLITHIC TEMPERED GLASS

Narrow Floating Headers With Walking Beam Top Pivots work with CRL PH20 and PH21 Series Top Door Patch Hardware Fittings, and with all CRL 1/2" (12 mm) Heavy Glass Door Rails. When used with CRL DRS Door Rails you get an even sightline, as the width of the Narrow Header matches the width of the Door Rail. For use with Free-Swinging Bottom Pivots or Floor Closers, Standard Narrow Floating Headers with Walking Beam Top Pivots are fabricated for use in 1/2" (12 mm) glass-to-glass configurations. Custom lengths, glass-to-wall configurations, and Floating Headers for offset pivots are also available.

For more information, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also e-mail us at architectural@crlaurence.com.

APPLICATION TIP:

When trying to show the maximum amount of glass, but still looking for the security of a magnetic shear lock, these CRL Narrow Floating Headers offer that functionality.

STOCK NARROW FLOATING HEADERS:

CRL Custom Floating Headers With Support Fin Brackets

- For 1/2" or 3/4" (12 or 19 mm) Tempered Glass
- Support Fin Brackets Provide Extra Stability in Tall Openings
- Available for Glass-to-Glass or Glass-to-Wall Installations With Overhead Concealed Door Closers or Pivots
- Six Standard Finishes: Satin Anodized, Black Bronze Anodized, Black Powder Coat, Polished Brass, Polished Stainless, and Brushed Stainless
- Custom Finishes Available on Special Order

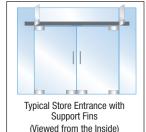

Custom 4" Floating Headers

Custom Narrow Floating Headers

'All-Glass' entrances are increasing in popularity and size. We have developed a means of adding rigidity to these openings using our Floating Header. Fin Supports will reduce the amount of deflection caused by wind or stack load pressure, and impacts.

For more information, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also e-mail us at **architectural@crlaurence.com**.

CRL Blumcraft® B1250 Floating Transom System

- Custom Lengths to Your Specifications
- Suspended by Stainless Steel Rods
- No Holes or Notches in Transom or Sidelites
- For 1/2" or 3/4" (12 or 19 mm) Tempered Glass
- Available in Several Architectural Finishes
- Custom Finishes, Including Oil Rubbed Bronze, Available on Special Order

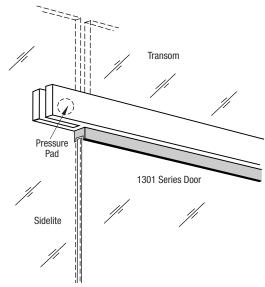

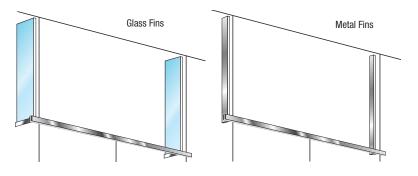

The CRL Blumcraft® B1250 Floating Transom System provides a clean, 'all-glass' look with minimal metal, and requires no holes or notches in the transom or sidelites. The Narrow Header of the B1250 is suspended from the C7500 Series Head Channel by thin stainless steel rods that are concealed in the gaps between the transom and sidelites.

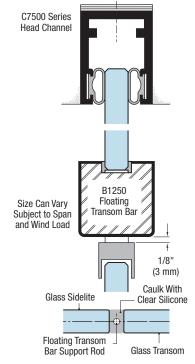

Constructed of solid steel for ultimate strength, the B1250 Header is clad with brushed or polished stainless steel. Custom finishes are available upon request.

The B1250 Floating Transom Bar 'sandwiches' the sidelite glass with concealed pressure pads, giving the system lateral support without any holes in the glass. Transom Bars can be designed to mount to walls or framing, and can also be used with Egress Handles in combination with electric strikes. The system is also available with glass or metal stabilizer fins when wind load conditions are greater than what the standard system can withstand.

CRL Door Rail Floor Locks

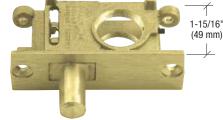

- Solid Brass Construction
- 5/8" (16 mm) Diameter Plunger Bolt
- Four Models Available

CRL Door Rail Floor Locks are available in four models; Standard Mortise, Long Throw Mortise, Standard European, and Low Profile. The 777S Standard Mortise is our default lock on all 4", 6", and 10" (102, 152, and 254 mm) Wedge-Lock® DRS Door Rails. For cases where the standard 11/16" (17 mm) bolt projection is not long enough, we offer the 777SL Long Throw Mortise Lock that has an extended throw at 1-1/16" (27 mm) long. The Standard European model works with our EC3 Series Keyed Cylinders (see page 247Z). Our Low Profile Model is designed to work with our Low Profile DR2 Series Door Rails.

CAT. NO.	DESCRIPTION
777S	Standard Mortise Lock
777SL	Long Throw Mortise Lock
777EC	Standard European Lock
777LP	Low Profile Lock

Minimum order: 1 each. *Cannot be used as direct replacement for 777S. Custom Rail and Lock preparation is required.

CAT. NO. 777S

*CAT. NO. 777SL

CAT. NO. 777LP

CRL Dustproof Keeper Without Mounting Plate

Accepts 5/8" (16 mm)
 Diameter Plunger Bolt

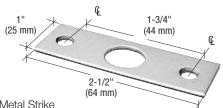

This CRL Dustproof Keeper is intended for use with our AMR205 Patch Lock, 777S, 777SL, 777EC or 777LP Door Rail Floor Locks, Locking Ladder Pulls, or any other lock with a 5/8" (16 mm) plunger type latch bolt. Requires a 1" (25 mm) diameter hole.

CAT. NO.	FINISH
AMR207PS	Polished Chrome
AMR207BR	Polished Brass
AMR207BN	Brushed Nickel

Minimum order: 1 each. Finishes can be combined for quantity pricing.

CRL Strike Plate

Works With Door Rail Floor Lock Bolts

This CRL Metal Strike
Plate will work with our
AMR205 Patch Lock, 777S,
777SL, 777EC or 777LP
Door Rail Floor Locks, or
any other lock with a 5/8"
(16 mm) plunger type latch
bolt. One per package with
two screws.

CRL Small Format Interchangeable Cores (SFIC)

- Works With CRL Wedge-Lock® Door Rails, Locking Ladder Pulls, 4" x 10" and 6" x 10" Center Locks, and CRL Panic and Deadbolt Devices
- 7-Pin Type Core Available in 10 Different Key Configurations
- Master Keying Available on Special Order
- Brushed Nickel Finish
- Mortise or Rim Cylinder Housings Not Included and Must Be Ordered Separately (See Below)

CRL stocks 7-Pin Small Format Interchangeable Cores (SFIC) to provide easy key control among end users on many of our products, as well as on BEST®, FALCON®, Schlage®, etc., interchangeable core systems. CRL 7-Pin Cores are the perfect choice for end users that want key control in SFIC hardware applications. CRL Interchangeable Cores can be easily extracted from their housings via a special 'control key' for easy replacement or re-keying.

CAT. NO.	KEY NUMBER
1C01	1
1C02	2
1C03	3
1C04	4
1C05	5

Minimum order: 1 each. All SFIC Cores can be combined for quantity pricing.

CAT. NO.	KEY NUMBER
1C06	6
1C07	7
1C08	8
1C09	9
1C10	10

Minimum order: 1 each. All SFIC Cores can be combined for quantity pricing.

Ordering Information:

- Each Core comes with one Control Key and two Standard Keys.
- Not compatible with larger 'removable' core systems.
- When used with CRL Low Profile Wedge-Lock® Door Rails an additional DRA256 Series Cylinder Ring must be ordered separately (see page 171Z).

CRL Mortise and Rim Cylinder Housings for Small Format Interchangeable Cores (SFIC)

- Compatible With Any 7-Pin SFIC Type Core
- Available in Five Architectural Finishes
- SFIC Cores Must Be Ordered Separately (See Above)

CRL Mortise Housings for 7-Pin Small Format Interchangeable Cores (SFIC) are used to replace any of our Mortise Keyed Cylinders with an 'interchangeable core' system. Easily convert any of our Door Rails with locks, 4" x 10" (102 x 254 mm) and 6" x 10" (152 x 254 mm) Center Locks, or Panic and Deadbolt Handles to an 'interchangeable' core system. Simply remove the existing mortise cylinder, choose the appropriate cam, and install the new Housing and Core. It's that easy!

CRL Rim Cylinder Housings for 7-Pin Small Format Interchangeable Cores (SFIC) come standard in our Locking Ladder Pulls featuring the interchangeable cylinder core option or can be used wherever these type cylinders are required. SFIC Core must be ordered separately (see above).

BEST is a registered trademark of Stanley Security Solutions, Inc.
FALCON and Schlage are registered trademarks of Schlage Lock Company LLC.

Ordering Information:

- Each Mortise Housing comes with a 1/2" (12 mm) tall cylinder ring and one DRA10CAM (installed), one DRACAM, and one cam for easy conversion when used with our 6" x 10" (152 x 254 mm) Center Locks.
- Not compatible with larger 'removable' core systems.
- When Mortise Housings are used with CRL Low Profile Wedge-Lock® Door Rails an additional DRA256 Series Cylinder Ring must be ordered separately (see page 171Z).
- When Mortise Housings are used with CRL Blumcraft Panic Handles an optional MPH1CR Series Cylinder must be ordered separately (see chart).

CRL Mortise Cylinder Combination Sets

- Choose From Cylinder/Thumbturn, Cylinder/Dummy, or Thumbturn/Dummy Combinations
- Fit All Standard CRL Door Rails With Standard Bottom Rail Lock
- Can Be Used as Replacements for Most Other Manufacturer's Bottom Rail Locks
- Five Architectural Finishes

CRL Mortise Keyed Cylinders, Thumbturns, and Dummy Cylinders are now available in convenient combination sets, which makes ordering for jobs simple. These Mortise Keyed Cylinder Sets provide the ultimate security and functionality for the CRL Wedge-Lock® Door Rail System. Used in conjunction with 777S, 777SL, and 777LP Door Rail Locks, 777SP Series Strike Plates, and AMR208 Series Dustproof Keepers (see page 168Z). Installations and modifications are easy. Can also be used as replacements for most existing 'all-glass' doors.

NOTE: All Cylinders are keyed alike. Randomly Keyed Cylinders are available on special order.

CRL Mortise Cylinders and Thumbturns

- Replacement Cylinders and Thumbturns for All CRL 4" x 10" Center Lock Housings
- Work With Adams Rite[®] MS Type Locks
- Five Architectural Finishes

These CRL Keyed Cylinders and Thumbturns are designed as replacements on all of our standard 4" x 10" (102 x 254 mm) Center Lock Housings. They can also be used as replacements in Adams Rite® MS Type Locks. These are a good item to stock if you regularly work in the repair and maintenance of aluminum storefront doors. NOTE: All Cylinders are keyed alike. Randomly Keyed Cylinders are available on special order.

CRL Weatherstrip Kits for Heavy Glass Doors With Door Rails

- Low Profile Maximizes 'All-Glass' Look
- Reduces Drafts Without **Detracting From** Appearance of Door
- Clear Polycarbonate or Metal Channel for 1/2" (12 mm) Tempered Glass

CRL Weatherstrip Kits for 'all-glass' doors are available to fit doors using our 2-5/16" (59 mm), 4" (102 mm), 6" (152 mm), or 10" (254 mm) Door Rails. The Kits include a 98" (2.49 m) length of either Clear Polycarbonate or Aluminum Extrusion (in choice of finish) with 106" (2.69 m) of Wool Pile Weatherstrip, plus a top and bottom Split End Cap with 2-5/16" and 4" (59 and 102 mm) Rails with a Center Weatherstrip Receptacle Bar. A one piece End Cap is used with 6" or 10" (152 and 254 mm) Rails. All Weatherstrip Kits are easy to install using our Transparent Very Hi-Bond Tape (see page 174Z).

IMPORTANT NOTE: The door glass width will need to be reduced by 1/4" (6 mm) on each side that the Weatherstrip Kits are to be installed on.

CRL Vertical Weatherstile Kits

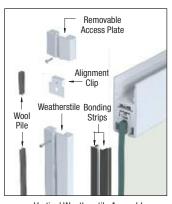

- Kits for 1/2" or 3/4" (12 mm or 19 mm) Tempered Glass Doors
- Reduces Drafts and Protects the Edge of the Glass

CRL Vertical Weatherstile Kits are for use with custom fabricated single or double doors utilizing CRL DRS Rails.

- Works Only With Custom Ordered CRL DRS Wedge-Lock® Door Rails for Both Single and Double Door Applications
- Five Cladded Architectural Finishes

Installation is accomplished with internal Bonding Strips that attach to the glass with Very Hi-Bond Tape for a secure and accurate fit every time. This replaces the traditional glue-on weatherstile that would need time for adhesive to set prior to installation.

CRL Vertical Weatherstile Kits include two 117" (2.97 m) lengths of Weatherstile with Wool Pile Weatherstrip, one 120" (3.05 m) length of black EPDM Filler Strip (for double door applications), four 117" (2.97 m) lengths of Bonding Strips with Very Hi-Bond Tape, four 1-1/2" (38 mm) tall Weatherstripped Removable Access Plates with Alignment Clips, and installation instructions. Custom lengths up to 117" (2.97 m) and custom finishes are available on special order.

CRL Pile Weatherstrip for Door Rails

- Specially Designed to Help Reduce Air and Water Infiltration
- Fits All CRL Door Rails
- Available in Two Finishes

Pile Weatherstrips attach without modifications to the specially designed recess on the inside of the Door Rail using the Very Hi-Bond Tape that is already attached to each piece.

Our Door Rails are designed specifically to receive the Pile Weatherstrips in a way that will not obstruct the standard hardware used in the Door Rails. You can order them to fit stock 35-3/4" (908 mm) Door Rails, or in 144" (3.66 m) stock lengths that can be cut to fit custom door rails.

CW12	3/16" (4.8 mm)	98" (2.49 m)

Minimum order: 1 each. Packing Charge added to orders of fewer than 5 lengths.

CRL Very Hi-Bond Adhesive Tape

- Transparent Acrylic Tape in Choice of Two Widths
- Gains Full Strength Over a 72 Hour Period

CRL Very Hi-Bond Transparent Double-Sided Acrylic Tape is used to attach Pile Weatherstrips to the Door Rail. This Tape possesses a uniform high-tack acrylic adhesive on both surfaces, and will bond to most clean, dry, oil-free substrates. It is non-staining after aged contact, has a solid composition for clean cutting, and is flexible, moldable and compressible, so it can conform to intricate shapes.

Used to replace mechanical fasteners and welds, and wherever a waterproof bond in a wide range of temperature conditions exists. To see our full range of sizes go to crlaurence.com/adhesive-tapes.

CRL Adhesive-Backed Pile Weatherstrip

This CRL Adhesive-Backed Windo-Pile is a water-resistant pile woven with silicone treated polypropylene fibers to resist mold, corrosion, abrasion, and is stabilized against ultraviolet and ozone. The fibers are attached to a polypropylene backing that lasts longer than plastic weatherseals, and has a pressure-sensitive adhesive with a release liner. Especially good for applications on irregular surfaces, helping the weatherstrip conform to surface contours. Helps conserve energy by keeping windows and doors sealed. The color of the pile is light gray.

CAT. NO.	PILE HEIGHT	BACK WIDTH	ROLL LENGTH
A1875C	.200" (5.1 mm)	.187" (4.7 mm)	100' (30.5 m)
A1875B	.200" (5.1 mm)	.187" (4.7 mm)	1100' (335.3 m)
A71320C	.200" (5.1 mm)	.270" (6.8 mm)	100' (30.5 m)
A71320B	.200" (5.1 mm)	.270" (6.8 mm)	700' (213.4 m)

Minimum order: 1 roll. 100 foot rolls can be combined with all other 100 foot rolls of Pile for quantity pricing. Bulk rolls can be combined with all other bulk rolls of Pile for quantity pricing.

CRL Entice® Series Entrance System

- 1-1/8" (29 mm) Ultra Narrow Vertical Stiles and Mullions With a System Depth of Only 2-1/2" (64 mm)
- Fully Glazed With 1" (25 mm) Insulating Glass
- Thermally Broken Framing and Cladding
- Optional 2-5/8" (67 mm) Narrow Stiles for Door Stile Mounted Panic Exit Device Compatibility
- Standard 4" (102 mm) Top and Bottom Rails
- Optional 10" (254 mm) A.D.A. Bottom Rails Available
- Works With Blumcraft® Panic, Deadbolt, and Electronic Egress Handles
- Handle Hardware "Floats" on the Glass Via Specialized Through-Glass Fittings
- Title 24 Compliant
- NFRC Rated

Premium storefronts have one purpose, to entice passersby to enter your business through the expression of success, and persuade them that within the business a higher level of quality can be found.

The CRL-U.S. Aluminum Entice Series Entrance System was created to exceed demanding building code and energy conservation requirements while maintaining an elegant appearance. Entice has very slender vertical lines and the unique ability to support handle hardware on 1" (25 mm) insulating glass with a "floating on air" appearance, making Entice a perfect match for our equally elegant Blumcraft® Access Handles.

- U-Factors as Low as 0.33
- Satisfies ASHRAE 90.1-2016 Air Infiltration Criteria
- Optional High Performance Reduced Sound Transmission Door Seal Kits
- Optional Integrated LED Lighting System
- Complete Entrance System Including, Corners, Thresholds, Wall and Doorway Jambs, Vertical Mullions, and Fixed Lite Rails
- Header Adapter Integrates With **USAL Storefronts and Curtain Walls**

The Entice® System has a depth of only 2-1/2" (64 mm), is clad with finely finished materials of your choice, and does not have break lines where common doors would have removable stops. Entice® has an impressive pedigree, endowed with field-proven CRL-U.S. Aluminum technologies, as well as two patent pending innovations that assure enhanced performance, durability, and reliability.

For additional product information, visit our web site at **usalum.com** or contact U.S. Aluminum Technical Sales at (800) 262-5151 in the U.S. and Canada, or (323) 268-4230 International. Ask for Ext. 5305. You can e-mail us at usalum@crlaurence.com.

CRL Entice® Series Entrance System

• Premium Appearance With Enhanced Performance, Reliability, and Durability

Standard Features:

Door Rails - Patent pending Seal-Loc mechanically clamping seals that eliminate the need for glass stops and makes broken glass replacement simple. Precision mechanism controls clamping force of the E.P.D.M. glazing gasket against the insulating glass, and the door rails are thermally broken. Door rails include the CRL Kwik-Adjust™ Jamb Alignment System and setting blocks that are pre-installed at the factory. Complies with AAMA SFM-1-14 Specifications for Aluminum Storefront and Entrances.

Door Stiles - Patent Pending vertical stiles have very narrow sightlines wrapped with thermally broken cladding. The Very High Bond Tape applied mounting strips install quickly while the integrated clamping system provides controlled holding force against the insulating glass. Clamping force can be released for door rack adjustment via the door rails integrated leveling screw. The stiles have removable covers for access to the Kwik-Adjust™ Jamb Alignment System.

CORNER-LOC® Technology – Precision corner alignment and resistance to torsion is achieved with an interlocking shear block that engages the door rail and stile with a close fit.

Quiet Fin Seals - Meets ASHRAE 90.1 Air Infiltration requirements and provides water management without making undesirable noises.

Narrow Stile Option - Door can be configured with 2-5/8" (67 mm) width stiles to accommodate stile mounted emergency exit devices when two-point locking is desirable.

Now Available With Glass Fins for **Added Versatility and Structural Support**

An upgrade to the Entice® Entrance System, the Clear Fin Series comes equipped with floor-to-ceiling tempered glass support fins that can be applied to entrance heights of up to 14 feet (4.3 m). The Entice® Clear Fin Series features vertical glass fins with a 14" (356 mm) depth and narrow 1-5/8" (41 mm) wide mounts that together enhance the existing all-glass aesthetic. The glass fins are used in place of conventional metal mullions for added structural support. Intermediate horizontal mullions can be utilized to allow integration of multi-panel fixed lites.

BLUMCR

CRL Blumcraft® 1301 Series Entrance Doors and Sidelites

- More Glass, Less Metal
- Fully Glazed With 1/2", 5/8" or 3/4" (12, 16 or 19 mm) Tempered Glass
- Ready to Install, No Assembly Required
- Solid Stainless Steel or Bronze Rail Construction
- Rails as Slim as 3/4" x 3/4" (19 x 19 mm) for 1/2" (12 mm) Glass
- Rails as Slim as 1" x 3/4" (25 x 19 mm) for 5/8" and 3/4" (16 and 19 mm) Glass
- Complete With Egress Handle if Required
- Available With Panic Hardware and Magnetic Locks
- For Herculite[™] + Style Doors

CRL Blumcraft® 1301 Series Entrance Doors are the original. Often imitated but never matched. this system provides the most glass with the least metal of any entrance door system in the industry.

Made from solid stainless steel or bronze and finished in either brushed or polished finishes, as well as oil rubbed bronze. Top Rail sizes do vary based on types of hardware used on the doors. For additional product information, visit our web sites at crl-arch.com and crlaurence.com/blumcraft-doors. You can also send e-mail to architectural@crlaurence.com.

A standard 1301 Series System includes our C7500 Series Head Channel with Adjustable Top Pivot and customized Floor Closer, providing the installer with ample adjustment opportunities. Common 4", 4-1/2", and 6" (102, 114, and 152 mm) Head Channels are also available to meet design requirements.

NOTE:

Maximum door sizes when using this product is 42" W x 108" H (1067 x 2743 mm). CRL follows GANA Guidelines (see page 114Z).

CRL Blumcraft® 1301 Series Entrance Doors and Sidelites

- Compatible With Overhead Door Closers
- For Herculite[™] + Style Doors

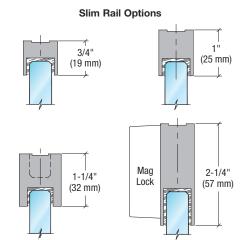

When job conditions do not allow for a floor mounted door closer, the 1301 Series Entrance Door can be configured to work with an overhead concealed door closer. A custom 1" (25 mm) tall Top Rail with Sideload Adaptor and specially designed Bottom Pivot make this application clean and simple, while maintaining the "more glass, less metal" theme.

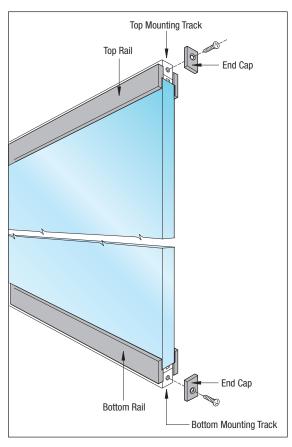

Fully Glazed Matching Sidelites

Fully glazed sidelites are also available with matching top and bottom rails. For those installations that require field glazing of the fixed panels we offer Wet Glaze Channels (see page 159Z).

For additional information contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send us an e-mail at architectural@crlaurence.com.

CRL Blumcraft® 1301 Series Display Case Doors and Sidelites

- Fully Glazed With 3/8" or 1/2" (10 or 12 mm) Laminated or Tempered Glass
- Five Standard Architectural Finishes
- Custom Finishes Available

CRL Blumcraft® 1301 Series Display Case Doors and Sidelites provide the most clear viewable area of any heavy glass display case system available today. Top and bottom rails measure only 1-1/4" x 1-1/4" (32 x 32 mm), and are prepped for pivots and locks.

We offer two systems, the 1301-SM Series With Surface Mounted Pivots, and the 1301-CM Series With Continuous Mounting Bars that house the pivots and locks. Both are available with center pivots.

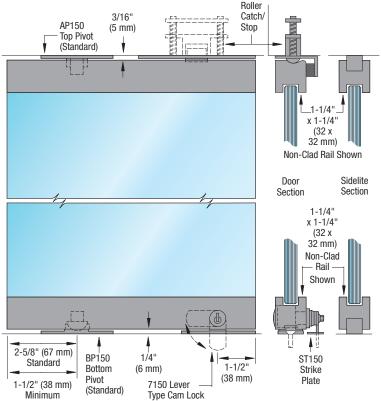

Matching fully glazed sidelites and an optional perimeter trim are available for both systems. 1301 Display Case Doors and Sidelites are available in five standard architectural finishes: satin anodized, black bronze anodized, brushed or polished stainless steel, and polished brass. Powder painted or oil rubbed bronze finishes are available on special order.

1301 Series Display Case Doors and Sidelites are available with 3/8" or 1/2" (10 or 12 mm) glass, either tempered or laminated, in clear, tinted, low-iron, anti-reflective, or specialty glass upon request.

CRL Blumcraft® 1301-SM Series Display Case Doors and Sidelites With Surface Mounted Pivots

- Supplied Fully Glazed
- Surface Mounted Pivots
- Vertical Stiles Available
- Lever Type Cam Lock

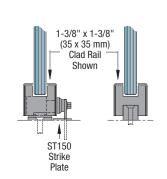

Our 1301-SM Series Display Case Doors and Sidelites are supplied fully glazed with surface mounted pivots and catches for immediate installation into display cases produced by others.

The specially designed surface mount pivots are concealed when the door is in the closed position. An optional Roller Catch/Stop is available for added stability at the top of the door.

1301-SM Doors are also available with offset pivots to allow for less intrusion of the door into the display area.

1301-SM Sidelites come glazed with matching top and bottom rails to maintain a consistent sightline throughout.

CRL Blumcraft® 1301-CM Series Display Case Doors and Sidelites With Continuous Mounting Bars

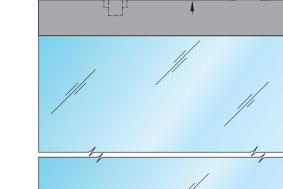

- Supplied Fully Glazed
- Concealed Pivots and Lock for Added Security
- Accepts Standard Mortise Cylinder

1301-CM Series Display Case Doors and Sidelites are supplied fully glazed, and have Continuous Mounting Bars top and bottom to conceal the pivots and locks. The mounting bars are installed into display cases provided by others, and then the doors mount onto the bars. This eliminates the need for special prepping and mortising for the pivots and locks into the display case.

USE MONOLITHIC TEMPERED GLASS

CRL Blumcraft® 150 and 250 Series **Doors and Sidelites**

- Narrow Profile Rails Fully Glazed With 1/2", 5/8" or 3/4" (12, 16 or 19 mm) Tempered Glass
- Vertical Stiles Included on Series 250 Doors
- Six Standard Architectural Finishes
- Custom Finishes Available
- Available With Matching Fully Glazed Sidelites
- Herculite[™] + Style Doors

CRL Blumcraft® 150 and 250 Series Doors and Sidelites are supplied fully glazed with 1/2", 5/8" or 3/4" (12, 16 or 19 mm) tempered glass in clear, tinted or low-iron. Rails and Vertical Stiles (250 Series Only) are bonded to the glass, and can be prepped for a wide variety of door closer and pivot hardware. A bottom rail lock option is available, or the doors can come complete with any of our Egress Handles mounted on the door, ready to install in the opening.

150 and 250 Series Doors have a solid aluminum narrow profile rail design which can be used top or bottom. Available in six standard finishes: satin anodized, black bronze anodized, black powder coat, brushed and polished stainless steel, and polished brass. Custom finishes are available on special order. Maximum door size is 42" wide x 108" (1067 x 2743 mm) tall.

Adjustable pivot blocks are installed in the rails to suit the door closer hardware selected for the project. When overhead door closers are specified, the 150 and 250 Series Doors come with an adjustable pivot arm in the top rail and a heavy-duty bottom pivot designed to work with the narrow profile rails. Similarly, when floor mounted door closers are specified, the Doors come with adjustable heavy-duty top and bottom inserts to accept the floor mounted door closer and top pivot hardware.

Fully glazed sidelites are available to match the 150 and 250 Series Doors. They have rails made from solid aluminum, anodized or clad, just like the doors, creating a uniform look throughout the opening.

For additional product information, visit our web site at crlaurence.com/blumcraft-doors. CRL Blumcraft® 1200 Series Doors

- For Interior Use Only
- Vertical Pivot Tube With Patented Wedge-Lock® Glass Securing System
- Fully Glazed With 1/2" (12 mm) Tempered Glass
- No Top or Bottom Rails
- Accommodates Doors Up to 12 Feet (3.66 m) Tall
- Available in Six Standard **Architectural Finishes**
- Herculite[™]+ Style Doors

With no rails 'top and bottom' the entire weight of incorporated into a variety of different headers to

Heavy-Duty Walking Beam Top Pivot

Heavy-Duty Load-Bearing Cement Case and Closer

5" (127 mm) Diameter Pivot Tube Wedge-Lock® Glass Securing System

the door is transferred through the Pivot Tube to a specially engineered, heavy-duty, load-bearing cement case, independent of the floor mounted door closer. 1200 Series Doors utilize a heavy-duty walking beam pivot at the top of the Pivot Tube that can be create a desired look. Floor mounted door closer functionality is preserved in this uniquely different entrance system.

Options

CRL Blumcraft® 1200 Series Doors can be ordered with a full length rail across the top, bottom, or both top and bottom of the door to allow for the use of optional locking or monitoring hardware. The rail is coped to fit snug against the hinge tube creating an appealing transition from round to square materials.

To create a secure opening, a small patch rail with lock can be added to the bottom of the door. Also, any of our Egress Handles or Locking Ladder Pulls may be added. All hardware comes mounted to the door and is ready for installation into your opening.

Optional Full Bottom Rail with Lock

CRL 'ALL-GLASS' ENTRANCE SYSTEMS MORE CHOICES Criaurence.com/interior-door-hardware

CRL 1202 Series Interior Glass Door System

- Unique Concealed Closer Design Within Vertical Post;
 No Floor Closer Required
- For 3/8" or 1/2" (10 or 12 mm) Monolithic Tempered Glass or 9/16" (13.52 mm) Laminated Tempered Glass
- Double Acting Hold or No Hold Open Options
- Brushed and Polished Stainless, Satin Anodized, Bronze Anodized, Polished Brass, and Custom Finishes Available Upon Request
- Custom Made to Your Specifications
- Door Only, Door With Transom/Wall or Transom/Sidelite Configurations Available
- Optional Top and Bottom Low Profile Rails With or Without Locks
- Three Spring Size Models Available for Doors Up to 172 Pounds (78 kg) Maximum
- Herculite[™] + Style Doors

Our 1202 Series Doors are designed for interior commercial or residential use. The doors are an offshoot of our Wedge-Lock® Door Rail System.

Our engineers developed a unique In-Rail Closing Mechanism which is concealed in the vertical post, eliminating the need for large closers in the floor. The mechanism always returns the door to the closed position, and the closing speed is adjustable.

NOTE: All swinging doors are custom fabricated to your specifications. Maximum door height is 96" (2438 mm). Most orders can be fabricated in five to ten business days at our Los Angeles, California manufacturing facility. Contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. CRL Laguna Series Pivot Door System

- For 3/8" or 1/2" (10 or 12 mm) Tempered Glass
- All 316 Grade Brushed Stainless Steel Construction
- Ideal for Interior Room Applications
- Comes With All Fasteners Needed for Either Flush Mount (Countersunk) or Surface Mount (Straight Hole) Glass Fabrication
- For Herculite[™] + Style Doors

The CRL Laguna Series Pivot Door System can be used with free-swinging doors, or doors controlled by floor mounted door closers. The hardware can be ordered in sets or by individual components.

CRL provides you with all of the Glass Fasteners for either flush mounting, which requires a countersunk hole, or surface mounting, where a straight hole is needed. The Glass Fasteners will accommodate either 3/8" or 1/2" (10 or 12 mm) tempered glass and can be easily secured using the Cat. No. LSSW1 Spanner Head. **NOTE:** Laminated glass cannot be used with this hardware.

Standardized sets allow easy planning and purchasing for a number of basic configurations. Available accessories give you the opportunity to customize the standard sets to accommodate the most imaginative designers.

For additional information, go to crlaurence.com/laguna or contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also e-mail us at architectural@crlaurence.com.

Visit crlaurence.com/laguna for additional individual parts and configuration ideas.

DOOR SYSTEM LIMITATIONS

Maximum Door Weight: 176 Lbs. (80 kg) Maximum Panel Width: 47-1/4" (1.2 m) Maximum Panel Height: 98-1/2" (2.5 m)

CRL Balancer™ Series 'All-Glass' Frameless **Balanced Doors and Frames**

- Available With 4", 6" or 10" (102, 152 or 254 mm) Tall Square Profile Door Rails
- Six Standard Architectural Finishes, With Custom Finishes Available
- Maximum Door Size is 48" Wide x 108" High (1219 x 2743 mm)
- Herculite[™] + Style Doors

CRL 'All-Glass' Frameless Balanced Doors offer all of the performance benefits of a standard Balanced Door without compromising the improved aesthetics offered by 'All-Glass' entrances and storefronts. CRL 'All-Glass' Frameless Balanced Doors come completely glazed with either 1/2" or 3/4" (12 or 19 mm) fully tempered glass, and are available with or without mini vertical stiles. 4" (102 mm) or 6" (152 mm) rails top and bottom are required, with optional 10" (254 mm) bottom rails to meet A.D.A. requirements. Balanced Door packages are available with concealed or exposed vertical tubes, and are 'install ready' when shipped.

For design assistance contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 in Canada, or (323) 588-1281 International, Ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

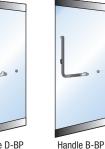

To See Our Complete Line of Balanced Doors, See Pages 458Z-464Z.

CRL Blumcraft® BP100 Series Panic Handles for Balanced Doors

- Specifically Designed for Balanced Doors
- UL. ULC. and ANSI/BHMA Certified
- For 1/2", 5/8" or 3/4" (12, 16 or 19 mm) Tempered Glass
- Custom Finishes Available By Special Order
- Available in Polished and Brushed Stainless, Satin and Polished Brass, and Oil Rubbed Bronze

NOTE: Exterior Fixed Handles shown here can be used in combination with our **BP100 Series Panic** Handle. For additional **Exterior Fixed Handle** options, see page 255Z.

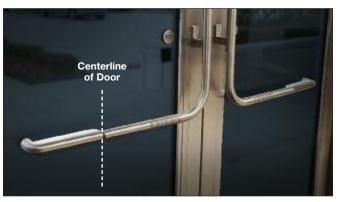

CRL Blumcraft Balanced Door Panic Handles were created to meet the building code requirements for Balanced Doors while maintaining an excellent appearance. The building code states that the push pad shall not extend more than one-half the width of the door measured from the latch side, and this creates an undesirable appearance.

Our BP100 Series has a fixed handle portion that extends toward the hinge side of the door, with a clearly defined push pad handle portion at the latch side of the door. This wider handle has greatly improved

UL and ULC are registered trademarks of UL LLC. Herculite is a registered trademark of PPG Industries, now Vitro

aesthetics over a handle that only spans one-half of the door's width.

Yet another fine example of C.R. Laurence's commitment to meeting building code requirements, while at the same time delivering the beautiful hardware that our architectural customers demand.

For design assistance contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 in Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

CRL Frameless Storefront and Entrance Patch Hardware

- An Excellent Choice for 'All-Glass' Entrances
- Provides Frameless Storefront Appearance for Unobstructed Display of Merchandise
- Allows Combination of Aesthetics and Versatility

- A Complete Selection of Products Including Patch Fittings, Inserts and Pivots, Lever Locks and Latches, Concealed Overhead and Floor Closers, Door Handles, and Many More Accessories
- For Herculite[™] + Style Doors

Seizing That 1-1/2 Seconds of Opportunity...

According to national statistics, the average merchant has only 1-1/2 seconds to attract a passing customer into their business. Through attractive window displays of trendy or proprietary products that fit a business, you increase the odds that the passing customer will enter. Just as important is the presentation, or how the customer is able to view the display unobstructed, without clutter and distraction to detract from the merchandise.

A standard aluminum framed storefront system consists of vertical and horizontal extrusions that distract the eye from the merchandise on display. A storefront system using Patch Hardware has minimal distractions, and creates an almost frameless appearance. The result is customer concentration on the merchandise, not the surrounding glass support system.

C.R. Laurence offers a variety of Patch Hardware to make this state of the art glazing system available to the storefront industry. CRL's commitment to our customers is to carry sufficient inventories of popular stock items, and short lead times for special orders. It is a total program that will allow your entry into the frameless storefront or 'all-glass' entrance market.

For additional information, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

Common **Applications:**

- Mall Fronts
- Retail Outlets
- Hotels
- Arenas and Museums
- Professional Office Buildings
- Restaurants and Clubs

NOTE: For maximum door sizes when using this product, CRL follows GANA . Guidelines (see page 114Z).

CRL Frameless Storefront and Entrance Patch Hardware Popular Herculite™+ Style Door Configurations

For additional information go to crlaurence.com/patch-hardware.

STANDARD HARDWARE/GLASS CLEARANCES:

- CLEARANCES ARE FOR TYPICAL CONDITIONS WITH PLUMB AND SQUARE OPENINGS
- FLOOR CLEARANCE APPLIES FOR MANUAL PIVOT OR FLOOR CLOSER
- ADD FOR THRESHOLD THICKNESS AS REQUIRED

SUPPORT FINS:

and Bottom Pivots

As a general guide, when the height of the transom, plus the width of the side panel exceeds a total of 47" (1200 mm), a Support Fin is needed. This will cope with loads imposed on the assembly by the action of the door, or doors, and external wind loads. The Support Fins will be securely fixed to a suitably rigid structure at the top of the assembly.

Floor Closers

NOTE: For maximum door sizes when using this product, CRL follows GANA Guidelines (see page 114Z).

Door Stops can be set for the doors to only open in or out. You can also make it so one door opens in and the other door opens out. The Connector can be used on one lite or two lite transoms, and with the stops removed can be used as a Connector only. When used as Connector only, it is suggested that you turn the fitting around so the notches in the Cover Plates face up, and are not visible.

CRL Patch Connector

- For 3/8" or 1/2" (10 or 12 mm) Tempered Glass
- For Herculite[™] + Style Doors

Specifications:

For Use With:

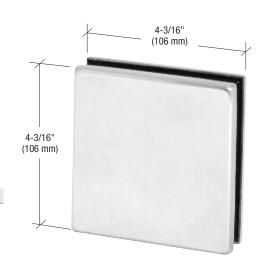

3/8 or 1/2" (10 or 12 mm) Tempered Glass **Glass Fabrication Required:**

Four 3/4" (19 mm) Diameter Holes.

Template available at crlaurence.com.

CAT. NO.	FINISH
PH80A	Satin Anodized
PH80BR	Polished Brass
PH80SB	Satin Brass
PH80BS	Brushed Stainless
PH80PS	Polished Stainless

Minimum order: 1 each. All Patch Fittings can be combined for quantity pricing.

This Patch Connector is used for joining a two lite glass junction. It should be pre-determined that the junction has enough structural strength, and does not require a support fin.

CRL Adjustable Free-Swinging Bottom Pivot

- Flat and Square Tapered Styles Available
- Provides 1/4" (6 mm) Height Adjustment
- 220 Pound (100 kg) Capacity

We offer two styles of Adjustable Free-Swinging Bottom Pivots; our Cat. No. 1NT404 "MAB" Type Square Tapered Spindle, and our Cat. No. 1NT406 Flat Tapered Spindle. Both provide 1/4" (6 mm) height adjustment and require a single 7/8" to 1" (22 to 25 mm) diameter hole for mounting. The "MAB" Type works exclusively with our PH10D and PH11D Bottom Door Patch Fittings. The Flat Tapered Type works with many of our Bottom Door Patch Fittings and Door Rails. Minimum order is one each.

MORE CHOICES criaurence.com/interior-door-hinges

CRL Vernon Series Hydraulic | 'All-Glass' Hinges

- NEW!
- No Hold Open Models for Self-Closing Glass Doors From 3/8" to 1/2" (10 to 12 mm) Thick
- A Great Alternative to Floor Closers and Patch Fittings
- Wall Mount Hinges Offered in Two Back Plate Styles

The Vernon Hinge represents the evolution and the synthesis between automatic mechanical hinges and hydraulic door closers. The Vernon allows you to design a self-closing door without the need of a floor-mounted or overhead closing device. This gives you the advantage of being able to install an 'all-glass' door in an existing opening without the need for extensive retrofitting of hardware into the floor.

Properly mounted, two Vernon Hinges will support a 3/8" to 1/2" (10 to 12 mm) thick tempered glass door up to 39" (1 m) in width and weighing up to 220 pounds (100 kg). A control valve lets you adjust the hinge to the desired closing speed. It's also ambidextrous, with positive stops at 0 and 90 degrees, giving you even more design freedom.

The Vernon Hinge features an aluminum body in distinct configurations for Wall Mount and Glass-to-Glass applications. Vernon has been subjected to strict testing (over 1 million cycles), assuring long lasting service.

Glass Thickness Range:

3/8" to 1/2" (10 to 12 mm)

Material: Aluminum

Hinge Swings:

90 Degrees Inwards and Outwards (Except H8260BT Model, Which Swings One Way Only)

Closing Type:

Automatic Closing From 0 to 80 Degrees

Special Feature:

Adjustable Closing Speed

Glass Fabrication Required:

Template available at crlaurence.com.

Includes:

Snap-In Molded Gaskets for 3/8" (10 mm) and 1/2" (12 mm) Glass; Hex Screws

Maximum Capacities Using Two Hinges:

Door Width: 39" (1 m);

Door Weight: 220 pounds (100 kg)

Do not exceed either width or weight.

Do not use more than two hinges on one door.

USE MONOLITHIC TEMPERED GLASS

- Adjustable Closing Speed
- Aluminum Body in Your Choice of Three Finishes: Brite Chrome, Brushed Satin, and Satin Anodized
- Require Cut-Out in the Glass

Wall Mount Hinges

No Hold Open Hinges swing in and out a full 90 degrees. Closing speed can be adjusted. For doors up to 39" (1 m) wide. Maximum weight per two hinges is 220 pounds (100 kg).

CRL Atlas Series Wall Mount Hinge

- Accept 5/16", 3/8", and 1/2" (8, 10, and 12 mm) Tempered Glass
- Ideal for Large Interior Doors
- Self-Centering Function

- Hold Open at 90 Degrees
- Simple Closed Position Adjustment for Double Door or Inline **Panel Applications**
- Available in Brushed Nickel, Brass, Chrome, and Oil Rubbed Bronze Finishes, as Well as Custom Finishes
- Both Spring Tension and Closing Position are Easy to Adjust

This innovative CRL Atlas Series 'All-Glass' Door Hinge gives you the best of two worlds; minimal hardware and self-centering action, all wrapped up in a stylish, heavy-duty Hinge. Two of these double-acting Hinges will allow you to create 'all-glass' doors weighing up to 140 pounds (63.5 kg) with a maximum width of 39" (1 m). NOTE: Do not exceed two Hinges per door.

When fully opened, the CRL Atlas Series 'All-Glass' Door Hinge will hold open at 90 degrees. These Hinges offer easy to set custom closed positioning. The solid brass construction and stainless steel components make the CRL Atlas Series 'All-Glass' Door Hinge a natural for any location that may involve excess moisture.

Glass Thickness Range:

5/16", 3/8", and 1/2" (8, 10, and 12 mm)

Material: Solid Brass

Hinge Swings: 90 Degrees Inwards and Outwards Closing Type: Self-Centering From 0 to 50 Degrees

and Precise Closing to 0 Degrees

Special Feature: Holds Open at 90 Degrees;

Easy to Set Closed Position

Glass Fabrication Required:

Template available at crlaurence.com.

Includes:

Gaskets, Phillips Screws and Allen Screws.

Maximum Capacities Using Two Hinges:

Door Width: 39" (1 m);

Door Weight: 140 pounds (63.5 kg)

Do not exceed either width or weight.

Do not use more than two hinges on one door.

CRL Center Locks and Glass Keepers

- Available in Two Sizes: 4" x 10" and 6" x 10"
- Choose From Three Types: Deadlatch, Long Throw Deadlock, and Hook Throw Deadlock
- For Use With 1/2" (12 mm) Tempered Glass; Custom Sizes for Other Glass Thicknesses Available on Special Order
- Installs Easily With Bolts; No Messy Silicone or Cement Required
- Available in Five Stock Finishes Plus Custom Finishes on Special Order

CRL Center Locks are available in three types:

Deadlatch, Long Throw Deadlock, and Hook Throw

Deadlock. A variety of pull handles and latch-operating
devices (Thumbturns, Keyed Cylinders, Lever Handles, and

Paddle Handles) are available to accommodate different requirements.

We carry stock units for immediate shipment, and can fabricate custom units that
can be shipped within one week. CRL offers easy-to-use Quote/Order Forms that
takes you through all the required information needed to produce your Custom
Center Lock. The Forms can be faxed or e-mailed to you, or accessed at

crlaurence.com/entrance-systems.

CRL 4" x 10" Center Locks With Deadlatch

- For Use With 1/2" (12 mm) Tempered Glass
- Installs Easily With Bolts;
 No Silicone or Cement Required
- Available in Five Stock Finishes
- Custom Sizes for Other Glass Thicknesses and Custom Finishes Can Be Special Ordered

CRL 4" x 10" (102 x 254 mm)
Center Locks With Deadlatch come with a Deadlatch that can be dogged in the open position, an 8" (203 mm) Back-to-Back "D" Handle, a Thumbturn on the inside, and a Keyed Cylinder on the outside. The dogging feature is engaged by simply pushing both deadlatch bolts fully into the open position, then engaging the dogging clips by turning either the Keyed Cylinder or Thumbturn until the clips snap in place. Glass cut-out template available at **crlaurence.com**.

CRL Custom 4" x 10" Center Locks With Deadlatches

4" X 10" Custom Center Locks with Deadlatches are available with many options. You have a choice of Actuating Mechanisms, Keyed Cylinder or Thumbturn, Handle and Crossbar (see below for selection). These locks have a dogging feature that is engaged by simply pushing both deadlatch bolts fully into the open position, then engaging the dogging clips by turning either the Keyed Cylinder or Thumbturn until the clips snap in place. Available in four stock finishes for 1/2" (12 mm) or 3/8" (10 mm) heavy glass doors. Strike Plates or Glass Keepers must be ordered separately (see pages 237Z-238Z). Glass Keepers with Electric Strikes are shown on page 237Z. To simplify ordering we have an Easy-to-Use

Ordering Menu available at crlaurence.com/center-locks.

CRL 6" x 10" Center **Locks With Deadlatch**

- Five Different Lock Functions Available: Office, Entrance, Passage, Storeroom, and Classroom
- For 1/2" (12 mm) Tempered Glass; Custom Units for Other Glass Thicknesses on Special Order
- Available in Five Stock Finishes
- Simple Installation Without the Mess of Cement or Silicone
- Jamb Mount Strike Plates Available (See Page 242Z)

6" x 10" (152 x 254 mm) Center Locks with Deadlatch offer the most diversity in lock function and security. Available in five attractive finishes for 1/2" (12 mm) heavy glass doors. The operation of the lock varies with the lock function. A simple cut-out in the glass is all that is required. Glass cut-out template is available at crlaurence.com. No messy cement or silicone required for installing. Center Locks are available left and right handed (see reference diagram below).

CRL 6" x 10" Office Center Lock

With an "Office Lock" the Latchbolt is operated by lever on either side (except when outside lever is locked by rocker in faceplate) or by a key outside. Auxiliary Latchbolt deadlocks the main Latchbolt to prevent jimmying of lock. Turning inside lever will always retract the locking mechanism and allow exiting.

Minimum order: 1 each. All Center Locks and Keepers can be combined for quantity pricing

CRL 6" x 10" Push Button **Center Locks and Glass Keepers**

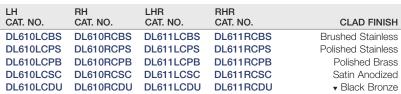

CRL Push Button Center Lock and Glass Keeper assemblies require no electrical connections so the mounting is exactly the same as our other 6" x 10" (152 x 254 mm) Center Locks. On the exterior side of the door is a Keypad with five vertical push buttons, numbered in sequential order from top to bottom. On the interior side there is a lever, which operates the Latchbolt at all times.

The lock complies with A.D.A. standards and is ideal for high frequency use in hospitals, entrances to commercial and industrial buildings, apartments, condominiums, schools, etc.

The Center Lock Glass Keeper (sold separately), is specially machined to accept the strike from the Push Button Lock. If a Center Lock Glass Keeper is not required, a Strike Plate for the jamb is supplied with the Push Button Lock assembly.

CRL Low Profile Center Locks and Glass Keepers

- Small Size Complements Our Low Profile Door Rail Line
- For 3/8" or 1/2" (10 or 12 mm) Tempered Glass
- Available in Five Standard Architectural Finishes
- Custom Finishes and Anti-Microbial Powder Coatings Available
- Simple Installation Without the Mess of Cement or Silicone
- Jamb Mount Strike Plate Provided With Lock
- Uses Our Standard Thumbturns and Keyed Cylinders (See Page 171Z)

Low Profile Center Locks and Glass Keepers offer the diversity of having a secure lock in a small package that complements our Low Profile Door Rails. Available in five standard finishes that match our entire Door Rail line for both 3/8" and 1/2" (10 and 12 mm) heavy glass doors. This Lock is located at a comfortable height above the floor, eliminating the need to bend down to lock or unlock the door. A simple cut-out in the glass is all that is required (template available at **crlaurence.com**). No messy cement or silicone required for installation.

NOTE: When used on a pair of doors, one door must have a rail lock engaging into the floor for maximum security.

CRL Low Profile Center Lock

- Small Size Complements Our Low Profile Door Rail Line
- Uses Our Standard Thumbturns and Keyed Cylinders
- Non-Handed

The 2-3/4" x 5-5/8" (70 x 143 mm) Low Profile Center Lock looks great when used with our Low Profile Door Rails. The sleek housing uses our standard thumbturns and keyed cylinders in any combination (ordered separately, see page 171Z). Fits both 3/8" and 1/2" (10 and 12 mm) thick tempered glass. Includes a 777SP Series Fixed Jamb Strike Plate. For locking to a glass sidelite a Glass Keeper must be ordered separately (see right). Glass cut-out template available at ${\bf crlaurence.com}$.

CRL Deluxe Slip-On Patch Lock for 3/8" or 1/2" Tempered Glass

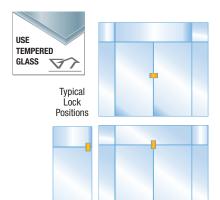

No Glass Fabrication Required

This CRL Deluxe Slip-On Patch Lock slips onto 3/8" or 1/2" (10 or 12 mm) glass and affords ease of installation, removal and security, without the necessity of a permanent patch lock. Lock is accessed from one side only by keyed cylinder. Removal of Lock during business hours provides a visually aesthetic frameless appearance. Easy slip-on feature means no glass fabrication is required. Lock is provided with three keys, keyed randomly. Pre-numbered replacement keys sold separately.

For Use With: 3/8" or 1/2" (10 or 12 mm) Glass Doors Recommended Gap Between Panels: 3/16" (5 mm)

Measures: 4-3/4" (120 mm) Wide x 2-3/4" (70 mm) High

There is no need to put a hole in the glass or have any additional work done. Simply remove the cover plate and slide the double gasketed portion onto the fixed panel. The ribbed rubber lining creates suction, holding the lock firmly to the glass.

Close the second leaf or panel of the door. Put the second piece of the lock on. Make the bolt slide by using the key so that the lock fits perfectly and closes tightly.

With the CRL Deluxe Slip-On Patch Lock you will have absolute safety when locking up. It is extremely easy to install anywhere along the door, even if it's a two or three leaf class door.

DELUXE SLIP-ON PATCH LOCK

CAT. NO.	GLASS THICKNESS	FINISH

CRL Glass Mounted Slip-On Patch Lock for 3/8" or 1/2" Tempered Glass

No Glass Fabrication Required

Includes:

Lock Housing (Brass or Chrome Finish); Three Keys; Gaskets and Instructions

For Use With: 3/8" or 1/2" (10 or 12 mm) Glass Doors Recommended Gap Between Panels: 3/16" (5 mm)

The Glass Mounted Slip-On Patch Lock affords ease of installation, and security without the necessity of a permanent patch lock. This lock can be used as a primary lock, and also in conjunction with a floor lock for extra security. Lock is accessed from one side only by keyed cylinder. Removal of lock during business hours provides a visually aesthetic frameless appearance. Easy slip-on feature means glass fabrication is not required. Lock is provided with three keys. Blank keys are available, and can be cut by a locksmith to match existing keys.

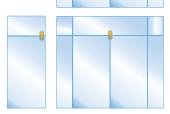

Measures: 5-1/2" (139 mm) Wide x 3-1/4" (82 mm) High

TEMPERED GLASS

USE

Typical Lock Positions

Remove it in the morning, put it back on in moments at night for absolute safety.

There is no need to put a hole in the glass or have any additional work done. Simply remove the cover plate and slide the double gasketed portion onto the fixed panel. The ribbed rubber lining creates suction,holding the lock firmly to the glass.

Close the second leaf or panel of the door. Put the second piece of the lock on. Make the bolt slide by using the key so that the lock fits perfectly and closes tightly.

With the CRL Slip-On Patch Lock you will have absolute safety when locking up. It is extremely easy to install anywhere along the door, even if it's a two or three leaf glass door.

CRL Mall Front Clamps

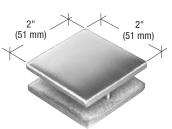

- A Choice of High Tech, Contemporary Designs for Use With 3/8" to 3/4" (10 to 19 mm) Tempered Glass
- Commonly Used in Malls for Joining Vertical Joints of Glass Wall Panels
- Reduces Panel Deflection
- Custom Finishes Available

Mall Front Clamps join vertical glass wall panels and provide rigidity to reduce flexing when pressure is applied. They can also serve as floating indicators to alert pedestrians of a panel's presence in dimly lit areas. Most models of CRL Mall Front Clamps come in polished brass, polished stainless, or brushed stainless finishes, and are designed for use with 3/8" to 1/2" (10 to 12 mm) thick tempered glass. **NOTE**: Only two models will accommodate up to 3/4" (19 mm) thick tempered glass.

CRL 180 Degree Square Clamps

- For 3/8" to 3/4" (10 to 19 mm) Tempered Glass
- 304 Grade Stainless or C260 Brass

Attaches with two flat head Phillips screws (included). Suggested minimum gap between panels is 7/32" (6 mm).

CRL Glass Bracing Clamps

- For 3/8" to 1/2" (10 to 12 mm) Tempered Glass
- Made of 316 Grade Stainless Steel
- Do Not Require Holes in the Glass
- Perfect for Bracing Glass Windscreens, Sound Walls, and Pool Fencing

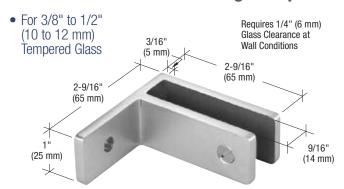

CRL Glass Bracing Clamps are designed to provide extra stability and rigidity for glass panels. There is no need for holes in the glass, simply tighten the nylon tipped set screw and you are done. Compatible with both 3/8" and 1/2" (10 and 12 mm) glass, they are perfect for mall fronts, balustrades, pool fencing, partitions, shower screens, and anywhere you need support without holes in the glass. Made of 316 grade stainless steel, they feature both excellent strength and superior corrosion resistance. Available in brushed or polished stainless finishes.

CRL Blumcraft® Access Control Handles

PAGES 253Z-267Z

- Designer Series Panic Handles
- Panic Handles
- Deadbolt Handles
- Dummy Handles
- Panic Handles for Balanced Doors
- Electronic Egress Control Handles
- Door Stops and Strikes

CRL manufactures a complete line of Access Control Handles for your 'all-glass' door needs. We have Panic Devices, Deadbolt Handles, and Electronic Egress Control Handles in a wide variety of configurations. We can also supply you with Dummy Handles to match these devices, allowing you to maintain the same appearance throughout the project, but without the added costs.

CRL Electronic Locks and Accessories

PAGES 268Z-278Z

- Mortise Mounted Shear Locks
- CRL Electric Strikes
- Mounting Brackets and Key Pads
- Adams Rite® Electric Strikes
- Power Supplies
- Exit Motion Sensor

CRL carries a large selection of Electric Strikes, Magnetic Locks, and Accessories. Models designed for use with single and double 'all-glass' or metal framed doors. They provide superior security while at the same time meeting building fire life safety code requirements. Input voltage is typically 12 or 24V DC, and several architectural finishes are available.

CRL Door Pull Handles and Accessories

PAGES 279Z-300Z

- Straight Style Ladder Pulls
- "D" Shape Ladder Pulls
- "S" Style Ladder Pulls
- Locking Ladder Pulls
- Glass Mounted Ladder Style Pull Handles
- Back-to-Back Pull Handles
- Curved Style Pull Handles
- Crescent Style Pull Handles
- Frameless Sliding Glass Door Pull Handle
- Push and Pull Indicators
- Glass Safety Decals

CRL offers a complete selection of Back-to-Back and Single Sided Pull Handles in a variety of finishes and styles for sliding and swinging entrance doors. Handles are made from aluminum, stainless steel or brass with a wide range of fastening options. Custom Handles for hotels, casinos, storefronts, and more are available on special order to meet your exact requirements.

CRL BLUMCRAFT® ACCESS CONTROL HANDLES MORE CHOICES crlaurence.com/access-handles

CRL Blumcraft® PA100 and PA110 **Series Panic Handles**

- UL, ULC, and ANSI/BHMA Certified*
- For 1/2", 5/8" or 3/4" (12, 16 or 19 mm) Tempered Glass Doors
- Wide Selection of Exterior Fixed Handles
- Models for Aluminum or Wood Doors Available on Special Order
- PA100 Model Can Provide a Solution to Strict A.D.A. Codes.

CRL Blumcraft® manufactures a complete line of Panic Handles designed with the 'all-glass' door in mind. These elegant tubular devices give you maximum viewing area and a contemporary look when used on 1/2", 5/8" or 3/4" (12, 16 or 19 mm) tempered glass doors.

The most popular of these Panics is our PA100 Series. They provide a solution to the strict Americans With Disabilities Act (A.D.A.) Codes that confront every manufacturer and installer of 'all-glass' doors.

The interior portion of the device is a slender 1-1/4" (32 mm) tube stretching across the door and then gently turning upwards to the top of the door, eliminating any interference at the lower half of the door, which must remain clear of obstructions to pass A.D.A. demands.

The operating mechanism is completely concealed within the tube, and retracts a roller latch bolt at the top of the door when pushed gently. Complementing the sleek interior look, we offer a large selection of exterior pull handles that can be as simple as a horizontal handle (Model PA100A) to one that mirrors the interior device (Model PA100D).

All PA100 Series Panic Handles come with a 'dogging' feature that allows you to lock the device in the open position by simply sliding a lever, giving free access during business hours. They also can be used in conjunction with an Electric Strike, allowing for remote keyless entry. For your convenience, Custom Headers are available with all strike hardware installed.

- Available in 304 Grade Polished and Brushed Stainless. 385 Grade Satin and Polished Brass, and Oil Rubbed Bronze
- Custom Finishes Available on Special Order
- Custom Sizes Ship Within One to Two Weeks

When A.D.A. Codes are not a concern, we also offer our PA110 Series Panic Handles. These Panics are of the same sleek design as the PA100 Series, except they stretch across the door and then bend downward to the bottom of the door, latching at the floor or threshold.

They operate just like the PA100 Series Panics, and have the same 'dogging' feature. Strikes are available for either threshold or no threshold applications providing secure, accurate latching every time.

All of our PA100 and PA110 Panic Handles go through rigorous testing before they leave our manufacturing facility, ensuring that a high quality, dependable Panic will serve your customer for years to come.

Most importantly, they are all UL305, ULC-S132-07, and ANSI/BHMA A156.3-2008, Grade 1 Certified*. No other Panic of this type can make this claim, and that puts CRL Blumcraft® Panic Handles a step ahead of all the rest.

For more information on our PA100 and PA110 Series Panic Handles, contact CRL Technical Sales, or visit our web site at crlaurence.com/access-handles.

*ANSI/BHMA Certification does not apply to Oil Rubbed Bronze finish.

The "D" Shape Designer Series of Panic Handles features sharp lines and angles with a smooth round gripping surface. See page 2547 for more information.

Contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

CRL Blumcraft® BP100 Series **Panic Handles for Balanced Doors**

- Specifically Designed for 1/2", 5/8" or 3/4" (12, 16 or 19 mm) Tempered Glass Balanced Doors (See Pages 458Z-464Z)
- UL, ULC, and ANSI/BHMA Certified*
- Custom Finishes Available on Special Order
- Available in 304 Grade Polished and Brushed Stainless. 385 Grade Satin and Polished Brass, and Oil Rubbed Bronze
- Custom Sizes Ship Within One to Two Weeks

CRL Blumcraft® Balanced Door Panic Handles were created to meet the building code requirements for Balanced Doors, while maintaining an excellent appearance. The building code states that the push pad shall not extend more than one-half the width of the door measured from the latch side, and this creates an undesirable appearance.

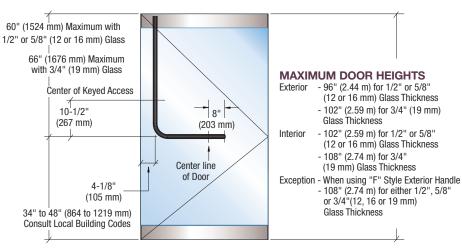

Our BP100 Series has a fixed handle portion that extends toward the hinge side of the door, with a clearly defined push pad handle portion at the latch side of the door. This wider handle has greatly improved aesthetics over a handle that only spans one-half of the door's width.

Yet another fine example of the CRL Blumcraft® commitment to meeting building code requirements, while at the same time delivering the beautiful hardware that our architectural customers demand. *ANSI/BHMA Certification does not apply to Oil Rubbed Bronze finish.

CRL BLUMCRAFT® ACCESS CONTROL HANDLES MORE CHOICES criaurence.com/access-handles

CRL Blumcraft® DB100 and DB110 Series Deadbolt Handles

- Classified by UL to ANSI/BHMA A156.16-1997, Grade 1*
- For 1/2", 5/8" or 3/4" (12, 16 or 19 mm) Tempered Glass Doors
- Wide Selection of Exterior Fixed Handles
- Models for Aluminum or Wood Doors Available on Special Order

CRL Blumcraft® manufactures a complete line of Deadbolt Handles designed to complement our popular line of Panic Handles. They offer easily accessible locking hardware for 'all-glass' doors in an elegant tubular device, while maximizing your viewing area. Our Deadbolt Handles add a contemporary look to any 1/2", 5/8" or 3/4" (12, 16 or 19 mm) tempered glass door.

Like our PA100 Series Panics, our DB100 Series Deadbolt Handles provide a solution to the strict Americans With Disabilities Act (A.D.A.) Codes that confront every manufacturer and installer of 'all-glass' doors.

The interior portion of the device is a slender 1-1/4" (32 mm) tube stretching across the door and then gently turning upwards to the top of the door. This eliminates any interference in the lower half of the door, which must remain clear of obstructions to pass A.D.A. demands.

The locking hardware is completely concealed within the tube. The top deadbolt retracts with just a simple turn of a key or thumbturn conveniently located just above the horizontal portion of the handle. To complement the sleek interior look, we offer a variety of exterior pull handles that can be as simple as a horizontal handle (Model DB100A) or one that mirrors the interior device (Model DB100D).

- Available in 304 Grade Polished and Brushed Stainless, 385 Grade Satin and Polished Brass, and Oil Rubbed Bronze
- Custom Finishes Available on Special Order
- Custom Sizes Ship Within One to Two Weeks

All DB100 Series Deadbolt Handles can be used in conjunction with an Electric Strike, allowing for remote keyless entry. For your convenience, Custom Headers are available with all strike hardware installed.

Where A.D.A. Codes are not a concern, we offer our DB110 Series Deadbolt Handles. These Deadbolts are of the same sleek design as the DB100 Series, except they stretch across the door and then bend downward to the bottom of the door, latching at the floor or threshold.

They operate just like the DB100 Series Deadbolts. Strikes are available for either threshold or no threshold applications, providing secure, accurate engagement of the deadbolt with every closing.

All of our DB100 and DB110 Deadbolt Handles go through rigorous testing before they leave our manufacturing facility, ensuring that a high quality, dependable Deadbolt Handle is installed every time. Most importantly, they are all Classified by UL to ANSI/BHMA A156.16-1997, Grade 1 Standard*.

For more information on DB100 and DB110 Series Deadbolt Handles, contact CRL Technical Sales, or visit our web site at **crlaurence.com/access-handles**.

*ANSI/BHMA Certification does not apply to Oil Rubbed Bronze finish.

The "D" Shape Designer Series of Deadbolt Handles features sharp lines and angles with a smooth round gripping surface. See page 254Z for more information.

CRL Blumcraft® Access Control Handle Size Limitations

Increased Sizes Make Door Assemblies Heavier and More Flexible. Therefore, the Following Should be Considered:

- Windload, Stack Pressure, and Ventilation Loads
- Mounting Conditions of Doors to Building Structure
- Panic Devices, Deadbolt Locks, or Other Hardware

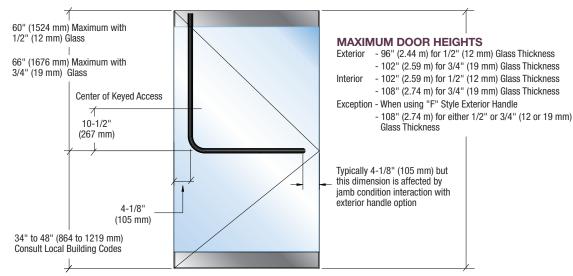

- Overhead or Floor Closer Characteristics
- Heavy Usage and Frequency of Operation
- · Comfortable Feel and Ease of Door Operation

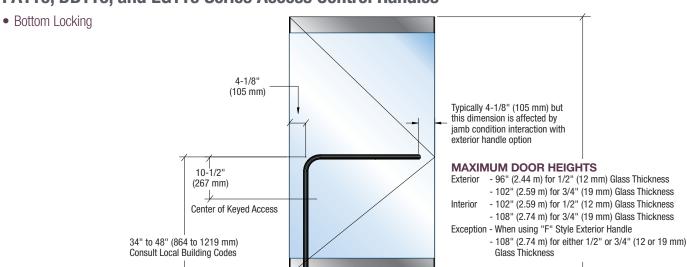

The Architect's Structural Engineer should be consulted so that the door design is correct for the intended use.

CRL Blumcraft® Dummy Handles

- Custom Fabricated to Match All CRL Blumcraft® Panic, Deadbolt or Electronic Egress Control Handle and Exterior Handle Combinations
- For 1/2", 5/8" or 3/4" (12, 16 or 19 mm) Tempered Glass Doors in Interior and Exterior Applications
- Available in 304 Grade Polished and Brushed Stainless: 385 Grade Satin and Polished Brass, and Oil Rubbed Bronze
- Stock Finishes Available for Shipment Within Three to Five Business Days
- Custom Finishes Available on Special Order

When functionality is not required, our Dummy Handles can be made to match any of our Panic, Deadbolt or Electronic Egress Handles, giving you the same appearance throughout your project. C.R. Laurence's experienced Manufacturing Division can also create custom Dummy Handles to meet design demands.

Our Technical Sales Professionals will discuss with you how best to fill your Access Handle needs. Contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

ORDERING OPTIONS

When ordering Dummy Handles you must specify:

- Interior Handle Option (See Page 255Z)
- Exterior Handle Option (See Page 255Z)
- . Handing (as viewed from the exterior side of the door)
- · Rail or Glass Mount
- Glass Thickness
- Finish

NOTE: Models for Aluminum or Wood Doors are available on special order

The "D" Shape Designer Series of Dummy Handles features sharp lines and angles with a smooth round gripping surface. See page 254Z for more information.

Technical Assistance

CRL Technical Sales can be reached Monday through Friday from 6:00 am to 5:00 pm Pacific Time. Phone toll free (800) 421-6144 from anywhere in the U.S., (877) 421-6144 from anywhere in Canada, or (323) 588-1281 International, and ask for Ext. 7700.

You can also send e-mail requests for quotes or product information to architectural@crlaurence.com.

CRL Blumcraft® Aluminum Door Mount Access Control Handles

- For 1-3/4" or 2" (44 or 51 mm) Aluminum Rail and Stile Doors in Interior and Exterior Applications
- Available in Polished and Brushed Stainless, Satin and Polished Brass, and Oil Rubbed Bronze for Shipment Within Five Business Days: Custom Orders Ship Within One to Two Weeks
- Requires a Minimum Door Stile Width of 3" (76 mm)

CRL Blumcraft® offers a complete line of Tubular Access Control Handles for your "fully framed" entrance door projects. We have Panic Handles, Deadbolt Handles, and Electronic Egress Control Handles in a wide variety of configurations. We can also supply you with Dummy Handles to match these devices, allowing you to maintain the same appearance throughout the project. Visit crlaurence.com/access-handles for more information.

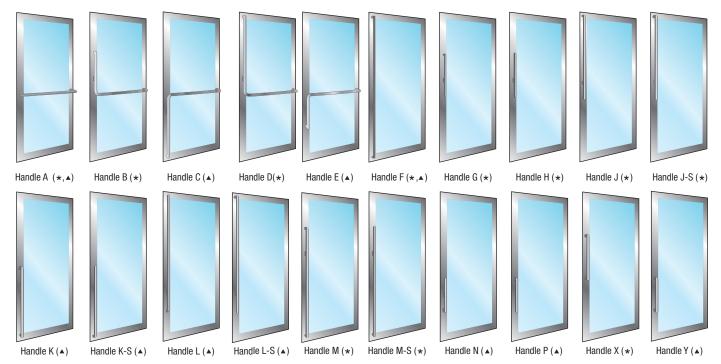

Exterior Handle Combinations for Aluminum Doors With CRL Blumcraft® Panic Handles

(*) Typically Used With 100 Series Handles

(A) Typically Used With 110 Series Handles

NOTE: All Access Control Handles on this page function as health and safety tools, and may only be purchased through CRL Authorized Glass Temperers and Door Manufacturers.

CRL Blumcraft® EG100 and EG110 Series **Electronic Egress Control Handles**

- UL and ULC Recognized Component
- For 1/2", 5/8" or 3/4" (12, 16 or 19 mm) Tempered Glass Doors
- Wide Selection of Exterior Fixed Handles
- Available in 304 Grade Polished and Brushed Stainless, 385 Grade Satin and Polished Brass, and Oil Rubbed Bronze
- Custom Finishes Available on Special Order
- Custom Sizes Ship Within One to Two Weeks
- Models for Aluminum or Wood Doors Available on Special Order

CRL Blumcraft® EG100 Series Electronic Egress Control Handles are a cost-effective method to control access into, and safe exit from, areas that call for security and still maintain the beauty and view of an 'all-glass' door. These elegant tubular devices give you maximum viewing area and a contemporary look when used on 1/2", 5/8" or 3/4" (12, 16 or 19 mm) tempered glass doors.

Like our Panic and Deadbolt Handle Line, these Handles also meet the rigid requirements imposed by the A.D.A. Codes on every manufacturer and installer of 'all-glass' doors.

The interior portion of the device is a slender 1-1/4" (32 mm) tube stretching across the door and then gently turning upwards to the top of the door. This eliminates any interference in the lower half of the door, which must remain clear of obstructions to pass A.D.A. demands.

An electronic switch is completely concealed within the tube and releases a magnetic lock at the top or bottom of the door when gently pushed. To complement the sleek interior look, we offer a variety of exterior pull handles that can be as simple as a horizontal handle (Model EG100A) to one that mirrors the interior device (Model EG100D).

The Magnetic Lock must be ordered separately. Please contact CRL Technical Sales. For your convenience, Custom Headers are available with all lock hardware installed.

IFORNIA DEPARTMENT OF FORESTRY & FIRE PROTECTION OFFICE OF THE STATE FIRE MARSHALL FIRE ENGINEERING - BUILDING MATERIALS LISTING PROGRAM Listing No. 3774-1603:100 U.S. Patent No. 7,347,461

The "D" Shape Designer Series of Egress Handles features sharp lines and angles with a smooth round gripping surface. See page 254Z for more information.

If A.D.A. Codes are not a concern, we also have our EG110 Series Electronic Egress Control Handles. These Handles are of the same sleek design and operation as the EG100 Series, except they stretch across the door and then bend downward to the bottom of the door.

All of our EG100 and EG110 Electronic Egress Control Handles come equipped with surge suppression ZNR that is compatible with most Shear Locks. However, we suggest that the lock manufacturer be contacted to ensure compatibility with this feature.

All CRL Blumcraft® Electronic Egress Control Handles go through rigorous testing before they leave our manufacturing facility, ensuring that a high quality, dependable product is installed every time. Most importantly, they are all UL and ULC Recognized Components, tested to NFPA Life and Safety Code Standards.

For more information on EG100 and EG110 Series Electronic Access Control Handles, contact CRL Technical Sales, or visit our web site at crlaurence.com/access-handles.

Contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send an e-mail to architectural@crlaurence.com.

CRL Door Stops and Strikes CRL Header Mount PK/PKP Series Stop/Strikes

• For Use With PA100 Series Panics and DBR100 Series Roller Top Deadbolts

PKP Series With Bolt Position Sensor

Without Door Position Sensor

MODEL PK1 For Single Glass Door Without Door Position Sensor

MODEL PKP1 For Single Glass Door With Door Position Sensor

These CRL PK/PKP Series Stop/Strikes are used to provide a positive stop for the door and a strike or keeper for the Panic or Deadbolt. They can be ordered for use on either single or double doors, and are available in matching architectural finishes. Our CRL PKP Series Stop/Strikes come with a Bolt Position Sensor. By incorporating a bolt position sensor within the strike housing, the Strike can electronically notify security and facility managers if doors on the premises are not properly closed and locked. Minimum order is one each.

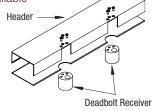

CRL Deadbolt Receiver for Header

CRL Door Stops and Strikes

CRL Header Mount ESP Series Stop/Strikes With Bolt Position Sensor

- For Use With PA100 Series Panics and DBR100 Series Deadbolts
- Monitors When Doors are Both Latched and Locked

Our CRL ESP Series Stop/Strikes come with a Folger Adam® 310 1-3/4" (45 mm) Fail Secure Electric Strike with Bolt Position Sensor. By incorporating a bolt position sensor within the strike housing, CRL's Electric Strike can electronically notify security and facility managers if doors on the premises are not properly closed and locked. Stop/Strikes can be ordered for use on either single or double doors. On double door applications you can order prepped for single or double Electric Strikes.

The new Electric Strike with Bolt Sensor is compatible with most building security and fire safety systems. It permits use of card readers, RFID badges, and remote door monitoring and control. With this new product, CRL aims to give customers greater control over facility safety and security, while strengthening its ability to provide single-source, entrance system solutions. Minimum order is one each.

MODEL ESP1 With Door Position Sensor (For Single Door)

CAT. NO. SP2005M3 NOTE: Strikes require the use of a filtered and regulated power supply. If the power supply being used is not filtered and regulated, the addition of Cat. No. SP2005M3 Smart-Pac In-Line Power Controller is required.

CRL Door Stops and Strikes CRL Glass Transom Mount ESK Series Stop/Strikes

- For Use With PA100 Series Panics and DBR100 Series Deadbolts
- For 1/2" or 3/4" (12 or 19 mm) Tempered Glass
- Available in Several Architectural Finishes

Our CRL ESK Series Stop/Strikes come with a Folger Adam® 310 1-3/4" (45 mm) Fail Secure Electric Strike. The included Adapter allows glass transom mounting. They provide a positive stop for the door, and a strike or keeper for the Panic or Deadbolt. Stop/Strikes can be ordered for use on either single or double doors. On double door applications you can order prepped for single or double electric strikes. Minimum order is one each.

CRL Glass Transom Mount PK Series Stop/Strikes

- For Use With PA100 Series Panics and DB100 Series Deadbolts
- For 1/2" or 3/4" (12 or 19 mm) Tempered Glass
- Available in Several Architectural Finishes

CRL PK Series Stop/Strikes for Glass Transoms provide a positive stop for the door, a strike or keeper for the Panic or Deadbolt, and attach to 'all-glass' transom panels. The included Adapter allows glass transom mounting. They can be ordered for use on either single or double doors, and are available in several finishes. Minimum order is one each.

MODEL PK1GT

CRL Sidelite Mount Transom Patch Fittings With PK/ESK Series Stop/Strikes

 Left and Right Handed

MODEL PH40PK Series Patch Fitting With Stop/Strike (RHR Shown)

These PH40 Patch Fittings With PK Series Stop/Strikes are used to provide a positive stop for the door and a strike or keeper for the Panic or Deadbolt. They are for use on single doors, and are available in several architectural finishes.

Our PH40 Patch Fitting With ESK Series Stop/Strikes come with a Folger Adam® 310 1-3/4" (45 mm) Fail Secure Electric Strike. They provide a positive stop for the door, and a strike or keeper for the Panic or Deadbolt. Stop/Strikes are for use on doors. Minimum order one each.

SDC® EMLock® 1500 Series **Electromagnetic Locks**

- ANSI/BHMA Grade 1 Compliant
- Fully Automatic 12/24V DC Selection
- 1650 Pounds Holding Force
- Field Upgradeable Without Removal From the Frame

These SDC® EMLock® 1500 Series Electromagnetic Locks offer the advantage of being totally adaptable to virtually any application utilizing top jamb or glass door kits. With holding forces tested to 1650 (748 kg) pounds, these EMLock® 1500 Series Electromagnetic Locks provide extra high security. The epoxy-less design provides a superior appearance with an anodized aluminum or dark bronze finish on all sides. The interlocking EZ Mount assembly leaves hands free for wiring and securing of mounting screws. EMLocks® are UL Listed and ANSI Grade 1 compliant. Field upgradeable with no need to ever remove a lock from the frame to upgrade or exchange internal components. Self-drilling and tapping sheet metal screws and 10-32 machine screws are included.

- Anodized Aluminum or Dark Bronze Anodized Finish
- Manufacturer's Limited Lifetime Warranty

Schlage® M490 Series **Electromagnetic Locks**

 High Security 1500 Pounds **Direct Holding Force**

Fully Automatic 12/24V DC Selection

Constructed of Aluminum

Manufacturer's Limited Lifetime Warranty

UL Listed

The Schlage® M490 Series surface mounted Electromagnetic Lock is ideal for high security applications. This Lock exceeds UL1034 and ANSI/BHMA A156.23 Grade 1 standards. It provides 1500 pounds (680 kg) direct holding force, and is UL Listed as an Auxiliary Lock for 3-hour fire rated openings and for burglary resistance. This Lock easily interfaces with electronic access control systems, automatic door operators, and fire or other hazard sensing systems for emergency egress.

CRL Electric Solenoid Bolt

- Dual Monitoring Lock
- 12 or 24 Volts DC
- Selectable Locking Time

This Electric Solenoid Bolt can be used with double acting doors. It features a 0, 2.5, or 5-second locking timer, and dual monitoring capability. Input Voltage can be selected as 12 or 24V DC. The Lock requires that the supplied Strike be properly installed so that the Lock can sense that the door is in the closed position. Brushed stainless cover plate included. Minimum order is one each. Specifications:

Input: 12 or 24 Volts DC (Not Automatic)

160mA @ 12V DC (standby) **Current Draw:**

90mA @ 24V DC (standby) Dimensions:

Face = 8-5/16" x 1-5/16" (211 mm x 33 mm)

Body Depth = 1-3/4" (44 mm) Cover = 8-11/16" x 1-1/2" (220 mm x 38 mm) Throw = 1" (25 mm) Long x 9/16" (14 mm) Diameter

Fail-Safe Lock: Requires Power to Lock

CAT. NO. MLEDB1

CRL Electric Solenoid Bolt Lock

- UL Listed for Life Safety
- Fail-Safe Lock Requires Power to Remain Locked
- Dual Monitoring Lock and Door Status
- Fully Automatic 12 or 24 Volts DC Selection
- Selectable Locking Time

This CRL Electric Solenoid Bolt Lock is "UL" listed for life safety and features an adjustable 0 to 5 second locking delay, dual lock and door monitoring capability, and fully automatic 12 or 24V DC input voltage selection. A brushed stainless cover plate is included.

Specifications:

Indoor Use Only Input:

12 or 24 Volts DC -Automatic Selection

Solenoid: Continuous Duty Current Draw: .9 A Start/.3 A Standby

Dimensions:

Strike:

Cutout: 8" x 1-3/8" x 1-5/8"

(200 x 35 x 43 mm)

7-7/8" x 1-5/16" x 1/8" Face: (200 x 34 x 3 mm)

Cover Plate: 8-5/8" x 1.5" (219 x 38 mm) 3-1/2" x 15/16" x 1-1/16" (90 x 24 x 27 mm)

CAT, NO. MLEDB2

Warnings: The Supplied Strike Plate must be installed to activate the Lock Solenoid. This Lock will not throw the latch bolt unless it senses that the door is in the closed position.

CRL Electric Strike

This CRL Electric Strike offers superior strength and smooth operation. The standard Strike is a fail-secure model requiring power to open the latch. Faceplates are available in two standard finishes.

CRL Door Pulls and Locking Ladder Pulls

• The Industry's Largest Selection for Glass, Aluminum, and Wood Framed Doors

CRL offers a complete selection of Back-to-Back and Single Sided Pulls in a variety of finishes and styles for sliding and swinging entrance doors. Pulls are made from aluminum, stainless steel or brass with a wide range of fastening options (see pages 286Z - 295Z). CRL Locking Ladder Pulls have a fully concealed deadbolt locking mechanism that locks into the floor or ceiling. No more kneeling down to unlock the entry doors in the morning or having to bend over after a long day at work to reach for the lock at the bottom edge of the door. Simply turn a key or thumbturn located at a comfortable height above the finished floor to lock or unlock your doors (see pages 280Z - 285Z). Custom Pulls for hotels, casinos, storefronts, and more are available on special order to meet your exact requirements. See page 292Z for more information.

CRL Locking Ladder Pulls

- Locks Operate at a Comfortable 42" (1067 mm) Height Above the Floor
- Made of Durable 1-1/4" (32 mm) Diameter 316 Grade Stainless Steel Tubing
- Locks Into Floor or New A.D.A Compliant Model Latches Into Ceiling
- 1-1/4" (32 mm) Long Deadbolt Throw
- Will Accept Most Standard Manufactured Rim Type Cylinders
- Four Stock Sizes for 1/2" to 3/4" (12 to 19 mm) Tempered Glass
- Custom Sizes on Special Order

The most practical option for 'all-glass' entrances is CRL's Locking Ladder Pulls. No more kneeling down to unlock the entry doors in the morning, or having to bend over after a long day at work to reach for the lock at the bottom edge of the door. Simply turn a key or thumbturn located at a comfortable height above the finished floor to lock or unlock your doors. CRL Locking Ladder Pulls have a fully concealed deadbolt locking mechanism that locks into the floor or ceiling. These Locking Ladder Pulls are intended for use with glass doors made from 1/2" to 3/4" (12 to 19 mm) thick tempered glass. Locking Ladder Pulls are supplied with our standard 7-pin Rim Cylinder with interchangeable core, that can

be used as the final cylinder or as a temporary, and is easily replaced. If staying with the 7-pin format, just remove the core, have it re-keyed or replace it with a new one. If proprietary 6-pin Cylinders are required, simply remove the entire Rim Cylinder provided and replace with the proper Rim Cylinder of your choice. Locking Ladder Pulls will accept most standard manufactured Rim Cylinders.

For additional information contact CRL Technical Sales (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

Floor Locking

CRL Locking Ladder Pulls

- A.D.A. Compliant Top Latching Models Now Available*
- Four Sizes in Stock for 1/2" to 3/4" (12 to 19 mm) Tempered Glass
- Adaptor Kit Available for Use on 1-3/4" (45 mm) Thick Aluminum Framed Doors
- Made of Durable 1-1/4"
 (32 mm) Diameter 316 Grade Stainless Steel Tubing
- Polished or Brushed Stainless Steel, and Matte Black Finishes Available
- 1-1/4" (32 mm) Long Deadbolt Throw
- Will Accept Most Standard Manufactured Rim Type Cylinders
- Custom Sizes on Special Order

Our LLPUA Series Upward Locking Ladder Pulls have a fully concealed deadbolt locking mechanism that locks into the ceiling, not into the floor.

Our LLPA Series Locking Ladder Pulls locks into the floor only. No need to bend, simply turn a key or thumbturn located at a comfortable height above the finished floor to lock or unlock your doors.

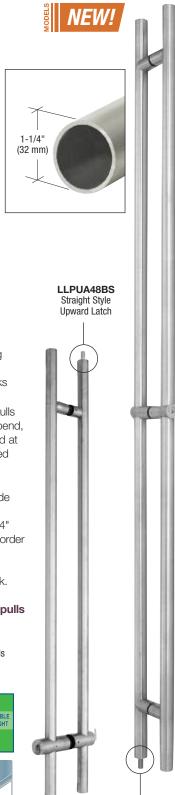

These Locking Ladder Pulls are intended for use with glass doors made from 1/2" to 3/4" (12 to 19 mm) thick tempered glass. When using on 1-3/4" (45 mm) thick aluminum frame doors order Cat. No. LLPA134ADT Adaptor Kit. Handles are available in brushed and polished stainless steel, or matte black. **NOTE:** Glass fabrication is required. Please visit **crlaurence.com/ladder-pulls**

*A.D.A. Compliant applies to the LLPUA48 models only on doors up to $90\ensuremath{^{"}}\xspace$ (2286 mm) tall.

CRL Mortise and Rim Cylinder Housings for Small Format Interchangeable Cores (SFIC)

- Compatible With Any 7-Pin SFIC Type Core
- Available in Five Architectural Finishes
- SFIC Cores Must Be Ordered Separately (See Above)

CRL Mortise Housings for 7-Pin Small Format Interchangeable Cores (SFIC) are used to replace any of our Mortise Keyed Cylinders with an 'interchangeable core' system. Easily convert any of our Door Rails with locks, 4" x 10" (102 x 254 mm) and 6" x 10" (152 x 254 mm) Center Locks, or Panic and Deadbolt Handles to an 'interchangeable' core system. Simply remove the existing mortise cylinder, choose the appropriate cam, and install the new Housing and Core. It's that easy!

CRL Rim Cylinder Housings for 7-Pin Small Format Interchangeable Cores (SFIC) come standard in our Locking Ladder Pulls featuring the interchangeable cylinder core option or can be used wherever these type cylinders are required. SFIC Cores must be ordered separately (see above).

Mortise Housing

Rim Cylinder Housing

Ordering Information:

- Each Mortise Housing comes with a 1/2" (13 mm) tall cylinder ring and one DRA10CAM (installed), one DRACAM, and one cam for easy conversion when used with our 6" x 10" (152 x 254 mm) Center Locks.
- · Not compatible with larger 'removable' core systems.
- When Mortise Housings are used with CRL Low Profile Wedge-Lock® Door Rails an additional DRA256 Series Cylinder Ring must be ordered separately.

CRL Straight Style Ladder Pulls

- Up to Eleven Sizes in Two Stainless Finishes Plus New Matte Black
- For 3/8" to 3/4" (10 to 19 mm) Tempered Glass or 1-3/4" (44 mm) Aluminum Doors
- Custom Finishes and Sizes Available
- Extra Height for Eye-Catching Contemporary and Elegant Appearance
- 1-1/4" (32 mm) Diameter Heavy Wall 304 Grade Stainless Steel **Tubing**

Made of Durable 1-1/4" (32 mm) Diameter 316 Grade Polished or **Brushed Stainless Steel Tubing**

CRL Ladder Style Pull Handles add elegance and eye-catching appeal to commercial glass doors. They are designed for back-to-back mounting with supplied through-bolts.

Ladder Style Pulls are intended for use with full size glass doors made from 3/8" to 3/4" (10 to 19 mm) thick tempered glass. Fasteners are included for mounting back-to-back on 1-3/4" (44 mm) thick aluminum or wood doors as well. Stock sizes range from 24" to 84" (610 to 2134 mm) overall height. Standard finishes are polished stainless, brushed stainless, and NEW matte black for most sizes.

Custom sizes and finishes are available to meet architectural specifications. For additional information or to begin the custom design process, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. CRL "S" Style Ladder Pulls

- Three Sizes in Two Popular Finishes for 3/8" to 3/4" (10 to 19 mm) Tempered Glass
- Left and Right Hand Models Available in 1-1/4" (32 mm) Diameter Heavy Wall 304 Grade Stainless Steel Tubing
- Custom Finishes and Sizes Available

CRL "S" Style Ladder Pulls are for back-to-back mounting with supplied through-bolts. They are intended for use on doors made from 3/8" to 3/4" (10 to 19 mm) thick tempered glass. Stock sizes range from 24" to 48" (610 to 1219 mm) overall height. Standard finishes are polished stainless and brushed stainless. The Pulls are handed left and right to ensure the exposed set-screws are always on the interior side of the door. Handing is determined from the exterior side looking in.

Custom sizes and finishes are available to meet architectural specifications. For additional information go to crlaurence.com/ladder-pulls or contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

CRL Frameless Sliding Glass Door Pull Handle

- Four Architectural Finishes for 1/2" (12 mm) Tempered Glass
- Low 3/8" (10 mm) Projection Will Not Interfere With Sliding Door Action

CRL Frameless Sliding Glass Door Pull Handles feature a low 3/8" (10 mm) profile projection that will not interfere with the sliding action of the door passing another panel, or even a pocket type installation into the wall. These Handles are available in four stock architectural finishes to complement our Frameless Sliding Door Systems. Custom finishes and custom sizes are also available upon request.

CRL Glass Safety Decals

- Easy to Apply Decals Reduce the Risk of Injury Due to Accidental Collision With Storefront Panels and Doors
- Decals Have "Floating" Appearance

With today's architecture incorporating more glass than ever, it's important to reduce the risk of people being injured by accidental collision with glass panels and doors. CRL Glass Safety Decals installed near eye level give a "floating" appearance that serves to warn pedestrians of the presence of large glass panels and sliding doors.

All Glass Safety Decals are a white color, and use a special dualsided adhesive transfer material which when peeled off leaves only the decal, with no unsightly residue to spoil the 'all-glass' appearance.

Minimum order is five each. Must be ordered in increments of five. Our Cat. No.105 Plastic Scraper will give you firm, even pressure as you apply Safety Decals to clean glass.

CRL Round Glass Presence Indicator Set

- For Use on Storefront Panels and Doors
- Easily Installed With Supplied Tape
- Helps to Prevent Accidents

CRL Round Glass Presence Indicators are 2" (51 mm) in diameter. They are applied to glass panels back-to-back at eye level to warn people of the presence of large glass panels. Easily installed using high bond tape applied to the rear of each Indicator. Each set contains two Indicators.

What's the Right Door Closer for the Job?

When selecting a door closer, the first consideration should be if the closer is intended to replace an existing one, or if it is for a new installation. If it is a replacement door closer, what is your customer asking you to provide? An exact match that meets all the specifications and dimensions of the existing closer, or are you expected to upgrade the existing closer with one that will meet their current needs?

It is important to note the existing door closer's physical size, brand or markings (if available), mounting hole dimensions and spring size. You should note the type of door and its physical dimensions as well. Also, how will this closer be mounted? Are all of the necessary accessory items, such as drop plates, door arms or special brackets usable, or will they need to be replaced?

Popular types of door closers are Surface Mounted, Overhead Concealed, and Floor Mounted. Surface Mounted Closers are the most common and least expensive to install. They are readily available, and take very little time and effort to mount. They are easily replaced, and provide a wide variety of features and options that are sometimes not found on other types of closers. Overhead Concealed Closers mounted in the header are commonly used with storefront applications using aluminum frames and doors. They offer a non-obtrusive, economical means of controlling a door without the expense and corrosion factors associated with Floor Mounted Closers, which are the most expensive to install, and are often subject to premature failure due to corrosion. However, Floor Mounted Closers must be considered when dealing with heavy doors or high foot traffic. They provide the most efficient mechanical means of controlling a door, and are able to sustain the most abuse.

DC14 Door Controls Catalog provides all this information and more. Ask for a FREE copy with your next order.

Once the proper closer type has been selected, there are some important decisions that need to be made regarding the spring size, grade, and desired options and features. Is the door located on the outside or inside? What type of locking device will be used? What type of weather seals and internal building pressures will the closer need to overcome to close the door? The wider and heavier the door, the larger the spring size required to control the door. Remember it is called a door "closer", so therefore you are attempting to control and close the door, yet allow for a reasonable force required to open the door. Closers are rated by spring size, commonly expressed as Size 1, 2, 3 and up through Size 6. Most closers are of a single fixed size that cannot be altered, and are made to be used for a specific range of door sizes. Today, more and more closers are being manufactured to allow the spring size to be adjusted to the precise opening and closing force required to control the door under varying conditions, and cover a wide range of door sizes and applications. These adjustable closers allow you the best opportunity to meet your customer's needs.

Always remember that a Door Closer should never be used as a doorstop. An auxiliary doorstop is always recommended when a positive stop is required to prevent the door from opening beyond a specified point. Regardless of which door closer is selected, take the time to review the instructions and learn the proper procedure to install and adjust it.

Overhead Concealed

Floor Mounted

CRL DOOR CLOSERS

General Door Closer Terminology

Action - Defines the ability of the door closer to swing one way (Single Action) or both ways (Double Action).

Adjustable Spring Power - Adjustable spring tension that allows a single door closer to handle a wide range of door sizes and applications.

A.D.A. - Americans with Disabilities Act. Federal legislation that specifies guidelines to eliminate barriers to handicapped access and mobility.

Backcheck - Feature that provides dampening or slowing of the door opening speed at approximately 60 to 85 degrees of opening to prevent damage to the door, the frame, or to an adjacent structure.

Barrier-Free - Term used to identify door closers that meet guidelines corresponding to the Americans with Disabilities Act (A.D.A.) and ANSI A117.1 Specifications. Barrier-Free guidelines include maximum opening forces and power-assist capabilities.

Center-Hung - Door pivot point at center of jamb, therefore, depending on the pivot type, will allow the door to swing both in and out.

Dead-Stop - Auxiliary hardware or special door closer feature that limits the maximum degree of door swing to a specified point.

Delayed Action - Feature that causes the door to slow or delay closing, usually down to approximately 70 degrees to allow unrestricted passage. The delay time is normally adjustable.

Efficiency - Percentage of closing force in relation to opening force provided by the door closer to close the door.

Fixed Spring Size - Single fixed spring tension that is not adjustable. Intended to handle a specific range of door sizes.

Handing - Determined by the swing of the door. Left Hand, Right Hand, Left Hand Reverse Bevel, or Right Hand Reverse Bevel.

Hold Open - Feature that allows the door to remain open at a preset position. Depending on the type of door closer and accessories, the hold open position may be adjustable.

Latch Speed - The closing speed from approximately 10 to 15 degrees from the closed position. This speed should allow positive latching of the lock or exit device without undue slamming.

Offset - Door Pivot Point is offset from jamb center line, and hung from an offset pivot or hinge, allowing it to swing only one way.

Spring Size - A measure of door closer spring strength. Relates directly to the amount of opening force required to open the door, and the amount of force available to close the door.

Sweep Speed - Initial closing speed from fully open to approximately 10 to 15 degrees from closed position.

CRL OVERHEAD CONCEALED DOOR CLOSERS MORE CHOICES

CRL Jackson® Overhead Concealed Door Closers

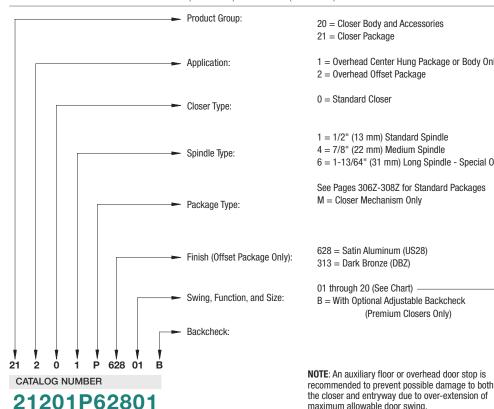

- Suitable for Doors From 30" to 48" (762 to 1219 mm) Wide
- Interchangeable With Similar Brands of Overhead Concealed Door Closers
- For Use With Light to Medium Traffic Doors Weighing Up to 250 Lbs (113 kg)
- Available in Two Fixed Spring Sizes or Adjustable Spring Models
- 5 Year Limited Warranty
- Dual Valve Closing Control Both Sweep and Latch Speeds are Adjustable
- Hold-Open or No Hold-Open

The Jackson® 20-330 Series Overhead Concealed Door Closer has been the leader in the industry for half a century. The closer is manufactured by C.R. Laurence under strict ISO9001 guidelines, and is designed to give long lasting, maintenance-free performance. This closer is truly universal. One basic closer mechanism allows for single or double acting, center-hung or offset applications, and is non-handed. Suitable for both interior and exterior installations, it provides complete door control in a compact and concealed design. Available in two fixed spring sizes or adjustable spring power, making this the ideal closer for aluminum, wood or hollow metal doors and frames.

HEAVY SPRING	CENTER-HUNG	17	15	13	11
	OFFSET	N/A	19	17	15

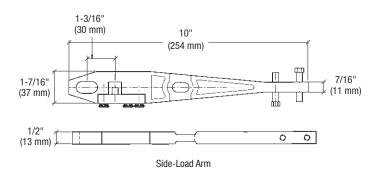

- **NOTE:** 1. Closer Force readings are in pound force required to open the specified door width, and are taken at the lock stile.
 - All opening forces are based on average conditions. Tall or extremely heavy doors, doors that may be subjected to wind, drafts, or extreme air conditioning pressure may require the next size closer.
 - 3. Although A.D.A. Door Closers are designed to comply with A.D.A. barrier-free opening force requirements, they might not provide adequate spring power to control and close the door due to varying site conditions and door size.
 - 4. Offset applications will always increase opening force by 2 to 4 pounds due to slide track friction and therefore may not provide A.D.A. opening forces and still allow for adequate spring power to control and close the door.

CRL OVERHEAD CONCEALED DOOR CLOSERS MORE CHOICES

CRL Jackson® Overhead Concealed **Door Closers With Offset Arms** and Slide Channel Packages

- For Use on 1-3/4" (44 mm) Aluminum Frame Doors
- Suitable for Doors From 30" to 48" (762 to 1219 mm) Wide
- Designed for Use With 3/4" (19 mm) Offset Pivots or Butt Hinged Doors
- Arm Finish Available in Aluminum and Dark Bronze

These CRL Jackson® Overhead Concealed Closers with Offset Arms and Slide Channels Hardware Packages consist of a Closer Body, which depending on the selected spring size and function, is suitable for a range of doors from 30" to 48" (762 to 1219 mm) wide. The Closer is packaged complete with Mounting Brackets, Offset Arm Package, Slide Channel, and complete installation instructions. The Closer has dual independent valves for closing operation (one valve for closing, one valve for latching). 90 and 105 Degree Hold-Open and No Hold-Open models are available. Closers fit into standard 1-3/4" x 4" (45 x 102 mm) or larger header extrusions. NOTE: Due to the wide variety and styles of doors in use today, CRL Jackson® cannot reference specific packages for use with a particular door. The package needed will depend on door and frame type, dimensions, floor type and application. Packages listed below represent the most popular offset combinations currently used. Package contents can be customized to your specifications, please see page 304Z on how to order all Jackson® 20-330 Overhead Closer models.

CRL OVERHEAD CONCEALED DOOR CLOSERS MORE CHOICES

CRL Overhead Concealed Door Closers

CRL offers a complete line of Overhead Concealed Door Closers and Accessories. The selection includes a wide range of door closer and hardware options for both center-hung and offset installations. These products will satisfy the needs for both new and retrofit applications. Our standard Overhead Concealed Door Closer will retrofit most installations currently using other brands of similar type door closers without the need to change existing door hardware.

For additional information, go to crlaurence.com/door-closers or contact the CRL Door and Window Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7520. You can e-mail us at glazing@crlaurence.com.

 Interchangeable With All Jackson® Style Overhead Concealed Door Closers

For Light to Medium Traffic

 Available in Five Spring Sizes, Including Adjustable Spring Power, and A.D.A. Models

5 Year Limited Warranty

Independent Adjustment Valves

Non-Critical valve control adjusts both Closing Speed and Latching Speed independent of each other.

Special Retaining Rings

Prevent the Adjustment Valve Screws from being backed all the way out of the Door Closer Body.

Door Closer Body With Mounting Clips

*Although A.D.A. Series Door Closers comply with A.D.A. specified opening forces, they might not provide adequate spring power to control and close the door due to varying site conditions and door size.

REQUIRED DOOR CLOSER SPRING SIZE FOR YOUR APPLICATION

SERIES	SPRING SIZE	DOOR SIZE
CRL7000	Light	Up to 30" (762 mm) Wide x 96" (2438 mm) High
CRL7100	Medium	31" to 41" (787 to 1041 mm) Wide x 96" (2438 mm) High
CRL7200	Heavy	42" to 48" (1067 to 1219 mm) Wide x 96" (2438 mm) High
CRL6700	Adjustable	Up to 42" (1067 mm) Wide x 96" (2438 mm) High
CRL6800	A.D.A5 Lb. (Interior)*	36" (914 mm) Wide x 96" (2438 mm) High
CRL6900	8.5 Lb. (Exterior)	36" (914 mm) Wide x 96" (2438 mm) High

Minimum order: 1 each. All Door Closers can be combined for quantity pricing.

Weight and Size Limitations

Door Weight: 200 Lbs. (91 kg) Exterior Door Width: 42" (1067 mm) Interior Door Width: 48" (1219 mm) All Doors Height: 96" (2438 mm)

NOTE: An auxiliary floor or overhead door stop is recommended to prevent possible damage to both the closer and entryway due to over-extension of maximum allowable door swing.

Approximate Opening Force

RECOMMENDED FOR LIGHT TO MEDIUM FREQUENCY USE WITH ALUMINUM, WOOD OR METAL DOORS WEIGHING UP TO 200 POUNDS (91 KG) MAXIMUM

		APPROXIMATE AVE	ERAGE OPENING FO	RCE (IN POUND FOR	CE)
CLOSER	APPLICABLE DOOR SIZE (WIDTH X				HEIGHT)
SPRING SIZE	APPLICATION	2/6 X 7/0	3/0 X 7/0	3/6 X 7/0	4/0 X 7/0
LIGHT SPRING	Center-Hung	10	8	6	5
	Offset	14	12	10	8
MEDIUM SPRING	Center-Hung	13	11	9	7
	Offset	17	15	13	11
HEAVY SPRING	Center-Hung	17	15	13	11
	Offset	N/A	19	17	15
A.D.A 5 Lb.	Center-Hung	7	5	N/A	N/A
	Offset	10	8.5	6	N/A
8.5 Lb.	Center-Hung	9	8.5	5	N/A
	Offset	13	12	9	7

NOTE: 1. Closer Force readings are in pound force required to open the specified door width, and are taken at the lock stile.

- 2. All opening forces are based on average conditions. Tall or extremely heavy doors, doors that may be subjected to wind, drafts, or extreme air conditioning pressure may require the next size closer.
- 3. Although A.D.A. Door Closers are designed to comply with A.D.A. barrier-free opening force requirements, they might not provide adequate spring power to control and close the door due to varying site conditions and door size.
- 4. Offset applications will always increase opening force by 2 to 4 pounds due to slide track friction and therefore may not A.D.A. opening forces and still allow for adequate spring power to control and close the door.

CRL Door Pressure Gauge

- Helps to Determine if Amount of Force Required to Open Doors Meets A.D.A. Regulations
- Range is From 0 to 35 Pounds (0 to 15.9 kg)
- Pocket Sized Tool is Simple to Use

Our Door Pressure Gauge shows the amount of force (pounds or kilograms) required to open doors so you can determine if the door meets A.D.A. regulations. An absolutely vital tool if working on doors in facilities requiring full access to disabled persons. It can also be used to determine the amount of rolling force required to open or close patio doors. Range is from 0 to 35 pounds (0 to 15.9 kg). Minimum order is one each.

CRL OVERHEAD CONCEALED DOOR CLOSERS MORE CHOICES

CRL Replacement Overhead Concealed Door Closers for Original Kawneer® Husky®

- Replace Existing Pre-1998 Original Kawneer® Husky® Closers
- 5 Year Limited Warranty
- UL Listed

This CRL Overhead Concealed Door Closer incorporates a spindle set in the diamond position, instead of a square position, at 0 degrees. This enables door installers to replace existing pre-1998 Kawneer® original style Husky® Door Closers without the need to change the door arm, which requires a diamond pattern spindle engagement. With the addition of our Retrofit Clips for either 4" or 4-1/2" (102 or 114 mm) headers, the existing door closer can be replaced without the need to replace any additional door hardware. The existing Center-Hung or Offset Arms can be used, as well as the existing pivot.

These Overhead Concealed Door Closers are available in 105 degree Hold Open and No Hold Open styles, with Medium Spring Size, and an 8.5 pound model for exterior door applications. A diamond pattern End-Load Center-Hung Replacement Arm, Cat. No. CRL8010H (below), is also available.

NOTE: May require considerable alterations to retrofit. Mounting Clips shown below are sold separately and are required to mount Closer.

NOTE: An auxiliary floor or overhead door stop is recommended to prevent possible damage to both the door closer and entryway due to over-extension of maximum allowable door swing.

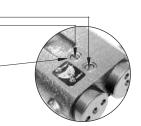

Door Closer Body Only

Independent Adjustment Valves

Non-Critical valve control adjusts both Closing Speed and Latching Speed independent of each other.

Special Retaining Rings

Prevent the Adjustment Valve Screws from being backed all the way out of the Door Closer Body.

CRL Center-Hung Floor Mounted Bottom Pivots CRL Door-On Adjustable Bottom Pivot Set

- Bottom Clearance Adjustable From 1/4" to 1/2" (6 to 12 mm)
- For Use With End-Load Arm Applications

This Door-On Adjustable Bottom Pivot Set is intended for use with bottom door rails with a minimum of 1" (25 mm) depth. This Pivot allows the door clearance to be adjusted from 1/4" to 1/2" (6 to 12 mm) with the door installed. Minimum order is one each.

CAT. NO. CRL8010ADJ

CRL Adjustable Dual-Purpose Bottom Pivot Set

- Dual-Purpose Pivot Mounts Directly to Floor or Threshold
- For Use With Both End-Load and Side-Load Arms

This Adjustable Dual-Purpose Bottom Pivot Set is for use with 1" (25 mm) deep bottom door rail applications, and is the standard Bottom Pivot Set supplied with our "S" and "A" Type Door Closer packages. It can be used with the base plate for floor mounting or attached directly to the threshold. A 3/16" (5 mm) height adjustment is possible with the door on or off the pivot. Minimum order is one each.

CAT. NO. CRL8010DP

CRL Heavy-Duty Adjustable Dual-Purpose Bottom Pivot Set

- Dual-Purpose Pivot Mounts Directly to Floor or Threshold
- For Use With Both End-Load and Side-Load Arms

This Heavy-Duty Adjustable Dual-Purpose Pivot Set is for use with 1" (25 mm) deep bottom door rail applications, and can be used in place of the standard Bottom Pivot Set. The solid steel base plate has additional mounting holes to support heavier doors with higher traffic. A 3/16" (5 mm) height adjustment is possible with the door on or off of the pivot. Minimum order is one each.

Recommended Maximum Weight Capacity: 200 pounds (91 kg)

CAT. NO. CRL8010HDP

CRL Adjustable Side-Load Floor Mount Bottom Pivot Set

- "G" Type for Use With Side-Load Arms
- 3/16" (5 mm) Height Adjustment

This Adjustable Bottom Pivot Set is for use with 1-1/2" (38 mm) deep bottom door rail applications. A 3/16" (5 mm) height adjustment is possible with the door installed, and requires an adjustment hole in the end of the door. Minimum order is one each.

Recommended Maximum Weight Capacity: 150 pounds (68 kg)

CAT. NO. CRL8010G

Allows Doors to Swing Free

This is a 1" (25 mm) diameter Center-Hung Type Pivot used with Dor-O-Matic® type automatic doors to allow a door to swing free. Minimum order is one each.

CAT. NO. CRL8010DBP

Dorma® RTS88 Series Overhead **Concealed Door Closers**

- Standard and A.D.A. Compliant Spring Sizes
- Regular and Extended Spindles Available
- Accommodates Doors Weighing Up to 250 Lbs. (113 kg)
- Suitable for Doors Up to 48" (1219 mm) Wide
- Five Year Manufacturer's Warranty

The Dorma® RTS88 Series Overhead Concealed Closers are designed to fit into a 1-3/4" x 4" (44 x 102 mm) header for aluminum frames. The closer is capable of accommodating doors weighing up to a maximum of 250 pounds (113 kg) with exterior doors up to 42" (1067 mm) in width and interior doors up to 48" (1219 mm) in width.

The non-handed, double-acting closer is available in 90 degree or 105 degree swing models with hold or no hold open functions. Sweep and latch closing speeds are controlled by two independent, non-critical temperature compensating valves. Available in both standard and extended spindle lengths to accommodate most door types.

CRL Surface Mounted Door Closers

- The Glazing Industry's Largest Selection
- Single Fixed Size and Multi-Size Models
- Housings in Up to Four Finishes
- Independently Adjustable Closing and Latching Speeds

CRL presents the glazing industry's largest selection of quality Surface Mounted Door Closers and accessories. Available in both single size fixed and multi-size adjustable spring power, barrier-free, and delayed action models. All Closers are supplied with adjustable backcheck, and both the closing and latching speeds are independently adjustable.

CRL Surface Mounted Door Closers are available in Satin Aluminum and Bronze finishes, with some also available in Bright Gold or Chrome.

Parallel Arm Brackets and mounting hardware are included with each Closers, permitting universal installation for regular, top jamb or parallel arm applications.

Optional accessories, such as Drop Plates and Hold-Open Arms, are available for special installations.

The entire selection can be viewed in our Online Catalog at crlaurence.com/door-closers.

- Leveling and Door Centering Adjustments
- 10 Year Limited Warranty
- UL Listed

Interchangeable Spindle System Adapts to Door and Floor Clearance Needs

> With Thermal Sensitive Valves Gives Automatic Seasonal Adaptability

Specifications:

Maximum Center-Hung Door: Weight = 1000 lbs. (454 kg), Width = 54" (1.37 m) **Maximum 3/4" Offset Door:** Weight = 650 lbs. (295 kg), Width = 48" (1.22 m) Maximum 1-1/2" Offset Door: Weight = 300 lbs. (136 kg), Width = 42" (1.07 m) Adjustable Spring Power: Multi-Size 1 - 6

Door Centering Adjustment: 6 Degree Range Adjustment to Align Door Hold or No Hold Open Models: Hold Open at Both 90 Degrees and 120 Degrees, Hold Open at 105 Degrees and 120 Degrees Only

Action: Non-Handed, Double Acting - 180 Degree Swing

The CRL Jackson® 900 Series Multi-Sized Floor Mounted Door Closer is a heavy-duty, fully adjustable closer designed for new and retrofit applications. Accessories are available for either double or single acting doors. With its 1000 pound (454 kg) capacity, the 900 Series Door Closer can be used with larger and heavier interior or exterior doors for longer, maintenance free performance. These Door Closers are available in dual 90 and 120 degree, or 105 degree only Hold Open and No Hold Open models.

This fully adjustable Door Closer meets A.D.A.* requirements in that it can be set at 5 pound opening force. The unique centering adjustment simplifies double door alignment. This Door Closer is ideal for areas with extreme temperature changes due to its multi-viscosity temperature stabilizing fluid with thermal sensitive valves providing seasonal adaptability. Packages for new and retrofit installations, as well as accessories for both center-hung and offset door applications, are available.

Temperature Stabilizing Fluid

Visible Bubble Port Aids Leveling of Door Closer

3° Door Centering Adjustment Simplifies Double Swing Door Alianment

Multi Spring Size 1-6 Adjustment Controls Both Opening and Closing Forces

Tapered Roller Bearings Carry Thrust of Spindle With Ease, Providing Very Heavy Capacity and 80% Closing Energy Efficiency

Single Valve Adjusts Closing Speed

NOTE: This Door Closer is designed to open to a maximum of 180 degrees. An auxiliary floor or overhead stop is required to stop the door at less than 180 degrees.

For a complete list of accessories, such as Cover Plates, Pivots, Center-Hung and Offset Arms, go to crlaurence.com/door-closers.

CRL Interchangeable Floor Closer Spindles

• Fit All 900 Series and CRL Brand Floor Mounted Door Closers

CRL Flat Tapered and "MAB" Type Spindles are available in various heights to accommodate different threshold and finished floor heights, and are intended for use with our 900 Series, and all CRL Floor Mounted Door Closers. The CRL Flat Tapered Spindle will allow the use of all center-hung and offset bottom arms intended for use with this type of spindle, as well as CRL Patch Fitting Inserts. The "MAB" Style Spindle is commonly used throughout Europe and South America.

CRL Center-Hung Bottom Arms

• Fit All Floor Mounted Door Closers With Flat Tapered Spindles

These CRL Center-Hung Bottom Arms should be used with doors having a minimum 3/4" (19 mm) deep bottom door rail. Arms will accommodate most door types, and will ease centering adjustment of the door. They can be used with all CRL brand Floor Mounted Door Closers, as well as any other closer using a 7/8" (22 mm) flat tapered type spindle.

CRL Jackson® 300 Series Thin Slab Floor Mounted Door Closers

- Ideal for Thin-Slab Applications With Limited Floor Depth
- Available as a Package or Components Only
- Suitable for Doors From 30" to 48" (762 to 1219 mm)
- 5 Year Limited Warranty

The Jackson® 300 Series Thin Slab Floor Closer is manufactured in the U.S.A. and designed to give long lasting, maintenance free performance. Its compact design and low profile makes it ideal for thin-slab applications where floor depth is limited. The 300 Series is designed for use with aluminum, wood or hollow metal doors and frames.

Specifications

Maximum Door Weight: 260 lbs. (118 kg) Maximum Door Width: 48" (1.22 m) Fixed Spring Size: Regular Duty

Action: Non-Handed; Single or Double Acting

Swing: 90° or 105° Swing Hold or No Hold Open

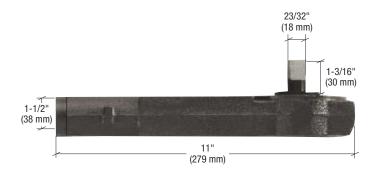

Valves: Dual Valve Control - Closing and Latching Speeds

NOTE: An auxiliary floor or overhead door stop is recommended to prevent possible damage to both the closer and entryway due to over-extension of maximum allowable door swing.

CRL8500 Series Heavy Weight Floor Mounted Door Closers

The CRL8500 Series Floor Mounted Door Closer has a heavy weight capacity capable of handling doors weighing up to 800 pounds (363 kg).

The Door Closer is available in either 90 or 105 degree Hold Open or No Hold Open models in three spring sizes to accommodate most standard installations.

The supplied 1/8" (3 mm) collar height Standard Spindle is interchangeable with other available Spindles (see page 335Z) to accommodate different finished floor heights. Accessories such as Pivots, Center-Hung and Offset Arms are also available (see pages 335Z-336Z, and 347Z). Includes Closer, Spindle, Brushed Stainless Cover Plate, and Cement Case.

NOTE: An auxiliary floor or overhead door stop is recommended to prevent possible damage to both the door closer and entryway due to over-extension of maximum allowable door swing.

Use CRL Cat. No. BP300BL Bedding Sealant in cement case to protect closer from excessive moisture or a corrosive environment.

Specifications:

Maximum Door Weight: 800 lbs. (363 kg) Maximum Interior Door Width: 54" (1.37 m) Maximum Exterior Door Width: 48" (1.22 m)

Minimum order: 1 each. * Supplied with 8500 Series Floor Closers. All Covers can be combined for quantity pricing.

CRL8400 Series Narrow Width Floor Mounted Door Closers

These CRL8400 Series Narrow Width Floor Mounted Door Closers are preferred on doors installed with Patch Hardware because smaller cover plates are more attractive in this type of installation. The Door Closer has separate valves to control closing and latching speeds. 90 Degree Hold Open and No Hold Open models are available.

The 1/8" (3 mm) collar height Spindle is supplied with the door closer, providing a 5/16" (8 mm) clearance from finished floor to door bottom. Optional Spindles to accommodate different finished floor heights are also available (see page 335Z). Other accessories, such as Pivots, Center-Hung and Offset Arms are also available (see pages 335Z-336Z, and 347Z). Includes Closer, Spindle, Brushed Stainless Cover Plate, and Cement Case.

NOTE: This Door Closer is designed to open to a maximum of 180 degrees. An auxiliary floor or overhead stop is required to stop the door at less than 180 degrees.

Use CRL Cat. No. BP300BL Bedding Sealant in cement case to protect closer from excessive moisture or a corrosive environment.

Specifications:

Maximum Door Weight: 264 lbs. (120 kg)
Maximum Interior Door Width: 42" (1.07 m)
Maximum Exterior Door Width: 38" (965 mm)

CRL8300 Series Shallow Depth Floor Mounted Door Closers

These CRL8300 Series Shallow Depth Floor Mounted Door Closers are preferred for many types of installations because they only require a shallow 1-9/16" (40 mm) cut-out in the floor. This is especially important on floors above the ground floor. The shallow cut-out leaves enough remaining floor under the Door Closer to support the door weight. The Door Closer has separate valves to control closing and latching speeds. Both 90 degree and 105 degree Hold Open and No Hold Open models are available.

The 1/8" (3 mm) collar height Spindle is supplied with the Door Closer, providing a 5/16" (8 mm) clearance from finished floor to door bottom. Optional Spindles to accommodate different finished floor heights are also available (see page 335Z). Other accessories, such as Pivots, Center-Hung and Offset Arms are also available (see pages 335Z-336Z, and 347Z). Includes Closer, Spindle, Brushed Stainless Cover Plate, and Cement Case.

NOTE: An auxiliary floor or overhead door stop is recommended to prevent possible damage to both the door closer and entryway due to over-extension of maximum allowable door swing.

Use CRL Cat. No. BP300BL Bedding Sealant in cement case to protect closer from excessive moisture or a corrosive environment.

Specifications:

CRL Floor Closer Terrazzo Pan

For Use With CRL8500 Series
 Floor Mounted Door Closers Only

Select the Floor Closer Terrazzo Pan to maintain the aesthetics of a continuous floor line when using flooring material such as terrazzo, tile, marble, etc. Pan is 13/16" (21 mm) in depth and requires the use of a CRL9040S23 Spindle (ordered separately) for a minimum 1/4" (6 mm) clearance above the finished floor. Includes access tubes to the adjustment screws for the CRL8500 Floor Mounted Door Closer so that adjustments can be made without having to take the door down. **NOTE:** Recommended for interior use only. Minimum order is one each.

CAT. NO. TPCRL85

CRL Center-Hung Bottom Arms

For Aluminum, Steel or Wood Doors

For Aluminum Doors

These CRL Center-Hung Bottom Arms should be used with doors having a minimum 3/4" (19 mm) deep bottom door rail. Arms will accommodate most door types, and will ease centering adjustment of the door. They can be used with all CRL brand Floor Mounted Door Closers, as well as any other closer using a 7/8" (22 mm) flat tapered type spindle.

DORMA® BTS80 Series Floor Mounted Door Closers

- 660 Lb. (299 kg) Capacity, Up to 54" (1372 mm) Wide Doors
- Interchangeable Spindle Heights
- Selective Multi-Point Hold Open Position
- Variable Delayed Action
- 25 Year Limited Manufacturer's Warranty

Specifications:

Maximum Door Weight: 660 lbs. (299 kg) Maximum Interior Door Width: 54" (1372 mm) Maximum Exterior Door Width: 48" (1219 mm)

Although A.D.A. Series Door Closers comply with A.D.A. specified opening forces, they might not provide adequate spring power to control and close the door due to varying site conditions and door size.

dormakaba 🚧

DORMA® BTS80 Series Floor Mounted Door Closers offer adaptability to almost any installation. The DORMA® Closer's compact body permits its use where a larger door closer would be prohibitive. The universal, non-handed design uses a system of interchangeable spindles, and will allow one basic door closer mechanism to be used for either single or double acting, center-hung or offset applications while accommodating virtually any floor covering or threshold height. The selective, multi-point hold open or variable delayed action feature makes this one of the most versatile door closers available. Accessories such as Cover Plates, Pivots, Center-Hung and Offset Arms are also available.

NOTE: This Door Closer is designed to open to a maximum of 180 degrees. An auxiliary floor or overhead stop is required to stop the door at less than 180 degrees.

DORMA® BTS75V Series Floor Mounted Door Closers

- Adjustable Spring Power 1-4
- 25 Year Limited Manufacturer's Warranty
- Standard and A.D.A. Compliant Barrier-Free Openings
- ANSI A156.4 Grade 1
- Accommodates Doors Up to 42" (1067 mm) Wide and Weighing Up to 260 Lbs. (118 kg)

NOTE: An auxillary floor or overhead door stop is recommended to prevent possible damage to both the closer and entryway due to over-extension of maximum allowable door swing.

Although DORMA® BTS75VBF Series Closers comply with barrier-free ADA specified opening forces, they may not provide adequate spring power to control and close the door due to varying site conditions and door size.

DORMA® BTS75V Series Floor Mounted Door Closers offer adaptability to almost any installation. The compact body permits its use where a larger door closer would be prohibitive. The universal, non-handed design uses a system of interchangeable spindles, and will allow one basic door closer mechanism to be used for either single or double acting, center-hung or offset applications while accommodating virtually any floor covering or threshold height. Available in 90 or 105 degree hold open, and non hold open full swing to 175 degree models.

DORMA® BTS75V FLOOR MOUNTED DOOR CLOSER WITH CEMENT CASE*

RESON

Rixson® Floor Mounted Door Closers are a time proven product known for reliability and a long-lasting service-free life. Floor Closers provide the best mechanical means of controlling a door. They produce an 85% closing force-to-opening force ratio, thereby allowing for lighter opening forces and yet maintaining control of the door. The weight of the door is supported entirely by the bottom arm, which is directly connected to the floor closer spindle. This design allows these closers to handle the rigors of high traffic volume and heavier than average doors.

Rixson® Floor Mounted Door Closers are available from CRL with multiple features and options, such as Selective Hold Open, Built-In Positive Dead Stop, Adjustable Hydraulic Backcheck. Other optional features, finishes, and accessories are available upon request.

Features and Specifications

- Single Acting, Handed
- Selective Hold Open (SHO) Stocked
- Separate and Independent Valves for Closing Speed, Latching Speed, and Backcheck Adjustments
- Built-in Positive Dead Stop Prevents the Door From Swinging Beyond the Opening Degree Specified. (Stock 90 and 105 Degree)

SECTION 4 INTRODUCTION

CRL Monterey Series Bi-Folding Door and Wall System

PAGES 349Z-354Z

- Monterey S55/S55R Series
- Monterey S80-S80R Series

The Monterey Bi-Folding Glass Door and Wall System is an effective way to maximize the available space in residential or commercial properties, while maintaining aesthetic appeal by creating a stunning space with brilliant transparency. The Monterey allows you to bring the outdoors in while providing resistance to undesirable weather conditions. Countless options are available to create large living or functional spaces that seamlessly transition outdoors to indoors.

CRL Top Hung Sliding Door Systems

PAGES 355Z-418Z

- Models for 5/16" to 1/2" (8 to 12 mm) Glass
- Barn Style Doors
- European Designed Sliders
- Models Available With "Softbrake" Braking System for Soft Close

CRL Top Hung Sliding Door Kits feature a sleek European design that offers options for wall or ceiling mount for sliding glass doors with or without fixed panels. These Top Hung Kits require no bottom track, and the smooth sliding action allows for finger touch control.

CRL Bottom Rolling Door Systems

PAGES 419Z-431Z

- For 3/8" or 1/2" (10 or 12 mm) Glass
- Single and Bi-Parting Kits Available

The CRL Bottom Rolling Door Systems use the same technology found in our Wedge-Lock® Door Rails to secure heavy panels of 3/8" or 1/2" (10 or 12 mm) tempered glass to create almost 'frameless' glass doors between interior office areas. Several profiles are available in any of the seven architectural finishes used for our Door and Sidelite Rails in both Tapered and Square styles.

CRL SPS Stacking Partition Systems

PAGES 432Z-452Z

- Stacking Partition Featuring Intelli-Track®
- Convertible Pivoting/Sliding Doors
- Track Suspension System
- Easy Slide Stacking System

STACKING PARTITION SYSTEM BY C.R. LAURENCE COMPANY

The most versatile option for 'all-glass' walls and partitions is CRL's patented Stacking Partition System, or 'SPS' for short. When you specify the SPS your installation options are virtually unlimited because the individual SPS components allow you to design stacking doors to fit almost any situation. Whether you need to partition off interior spaces, or provide movable 'all-glass' doors for a storefront or other public areas, you can select SPS with full assurance that the system will be easy to work with, easy to install, and easy to operate.

CRL Heavy Glass Sliding and Stacking Door Systems

- For 1/4" to 3/4" (6 to 19 mm) Monolithic Tempered Glass and 3/4" to 1-1/4" (19 to 32 mm) Insulating Tempered Glass
- Top Hung or Bottom Rolling Configurations for Commercial and Residential Use
- Sliding, Stacking, and Bi-Folding Doors From Off the Shelf Components or Custom Built to Fit the Opening
- Up to Seven Stock Architectural Finishes With Custom Finishes Available Upon Request

CRL Heavy Glass Sliding and Stacking Door Systems give you design flexibility when building room partitions or mall fronts. Sliding doors are not only attractive, they save valuable floor space in a retail environment where you must maximize the available display area. On the following pages you will see many of the CRL Door Systems that can help you construct doors that function well and allow you to maximize the advantages that 'all-glass' doors offer.

Bring the Outdoors In With the Monterey Bi-Folding Door and Wall System From CRL

Most Innovative Door

CRL Technical Sales is your source for detailed information on the Monterey System, and we invite you to contact us at (800) 421-6144 in the U.S. (877) 421-6144 from Canada, or (323) 588-1281 International. Please ask for Ext. 7770. You can send us an e-mail at partitions@crlaurence.com.

- All Systems Are Custom and Produced to Your Specifications
- · Weather Resistant, Designed for Interior/Exterior Use
- New Construction or Retrofit, Commercial and Residential
- Simple to Operate, Panels Open and Close Easily
- Several Configurations With Inward or Outward Opening Options Available
- Wood Grain, White, and Black Powder Coat, Satin and Black/Bronze Anodized. Custom Colors Available on Special Order
- Fully Assembled, Ready for Glazing

Get started at crlaurence.com/monterey, then let our Technical Sales Department help you finalize a quotation for your project.

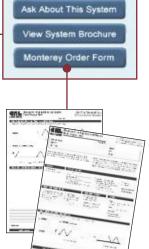

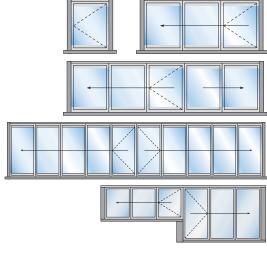

The Monterey Series Bi-Folding Door and Wall System allows you to bring the outdoors inside while providing resistance to undesirable weather conditions. Countless options are available to create large living spaces that seamlessly transition outdoors to indoors.

Our precision engineered components provide a system that slides smoothly with minimal effort. Design options are virtually limitless. The sturdy, yet slim frame construction allows for more glass and less metal. A thermally broken frame option offers improved acoustics and energy savings.

The Monterey Series is designed for use with 1/4" to 1-1/4" (6 to 32 mm) glazing. Standard finishes are Wood Grain. White. and Black Powder Coat: Satin and Black/Bronze Anodized. Custom colors are available on special order.

Complete design flexibility allows the system to support any number of folding and pivoting panels in a single opening, with both inward and outward opening options.

CRL Monterey Bi-Folding Door and Wall System

• Commercial Applications:

Hotels, Resorts, Restaurants, Sports Venues, Malls, Casinos, Spas, Banquet Halls, Banks, Offices, Wineries, Airports

Residential Applications:

Patios, Balconies, Exercise Rooms, Sunrooms, Room Dividers

CRL U.S. Aluminum Monterey Bi-Folding Glass Door and Wall System is an effective way to maximize the available space in residential or commercial properties, while maintaining aesthetic appeal by creating a stunning space with brilliant transparency. The Monterey allows you to bring the outdoors in while providing resistance to undesirable weather conditions. Countless options are available to create large living or functional spaces that seamlessly transition outdoors to indoors.

Our precision engineered components provide a system that slides smoothly with minimal effort while supporting multiple panels in a single opening. The Monterey Series provides security with two point interior lever latches as standard, and with three point keyed locks available on some configurations.

Every Monterey System produced must meet strict quality assurance standards and testing to ensure they meet or exceed cycle testing, water, air or sound infiltration requirements for residential and commercial applications.

The Monterey Systems have also met or surpassed UK and Florida (excluding High Velocity Hurricane Zones) building codes and testing. Test reports are available on request.

CRL Monterey S55 Series

- Swing Door Option for Easy Access
- Fully Assembled With or Without Glazing
- Five Finishes in Stock; Hundreds More Available on Special Order
- New Construction or Retrofit

The Monterey S55 Series accommodates 1/4", 3/8" or 1/2" (6. 10. or 12 mm) monolithic, and 3/4" or 1" (19 or 25 mm) insulating glazing. Panels come standard with interior two point lever latches, and have an option for three point keyed locks for added security and access from the exterior.

Each unit includes all the necessary hardware for a complete installation; you just supply the glass, or if you prefer, ask CRL to supply fully glazed. Compensating channels come standard to ensure a plumb and level installation.

The S55 System is very easy to install and user friendly to operate. Complete installation instructions come with every unit, as well as end user care and maintenance instructions to ensure vears of reliable service.

Standard finishes are white, black, or wood grain powder coat, and satin or black/bronze anodized. Standard RAL color powder coat finishes, as well as custom KYNAR® finishes, are available on special order.

CRL Monterey S55R Series

• Reinforced for Taller Doors

The Monterey S55R Series allows for taller monumental doors. Similar to the S55 Series, the S55R utilizes an additional vertical mullion between panels at every roller joint to allow for extra rollers to carry the increased weight of the doors.

CRL Monterey S80 Series

- Thermally Broken
- Flexibility to Fully or Partially Open
- Fully Assembled With or Without Glazing
- Almost Seamless Transition

The Monterey S80 Series accommodates 1" or 1-1/4" (25 or 32 mm) insulating glazing. All extrusions are thermally broken for superior thermal performance. Each unit includes all the necessary hardware for a complete installation; you just supply the glazing, or if you prefer, ask CRL to supply fully glazed. Panels come standard with interior two-point lever latches and have an option for three-point keyed locks for added security and access from the exterior.

The S80 System comes standard with compensating channels to ensure a plumb and level installation. Complete installation instructions come with every unit as well as end user care and maintenance instructions to ensure years of reliable service.

Standard finishes available are white, black, or wood grain powder coat, and satin or black/bronze anodized. Standard RAL color powder coat finishes, as well as custom CORAFLON® finishes, are available on special order.

CRL Monterey S80R Series

Reinforced for Taller Doors

The Monterey S80R Series allows for taller monumental doors. Similar to the S80 Series, the S80R utilizes an additional vertical mullion between panels at every roller joint to allow for extra rollers to carry the increased weight of the doors.

CRL Laguna Series Sliding Glass Door System With Anti-Lift Safety Features

- For Use With 3/8" or 1/2" (10 or 12 mm) Glass
- · Available in Brushed Stainless, Polished Stainless or Matte Black Finish
- Anti-Lift Feature for Added Safety
- 316 Grade Stainless Steel Construction for Durability
- Ideal for Commercial or Residential Applications
- Comes With All Fasteners Needed for Either Flush (Countersunk) or Surface (Straight Hole) Mounting
- See Page 364Z for Wood Door Applications

Anti-Lift Single Top Roller

NEW Anti-Lift Double Top Roller For **Contemporary Design**

NEW "Softbrake" Kits For Soft Closing

CRL has expanded the popular Laguna Series Sliding Glass Door line to include optional "Softbrake" Kits and Double Top Roller Kits. In addition, all kits are now available in either Brushed Stainless or Polished Stainless Finishes, and our most popular kits come in Matte Black. The NEW "Softbrake" option, for wall mounted kits, provides a controlled, quiet closure and prevents the doors from "slamming" open or closed. The NEW finish options, and NEW Double Top Rollers give you a variety of aesthetically pleasing options to accommodate the most imaginative designers.

The Laguna Series Sliding Glass Door System can be installed on glass partitions or directly to the side of a sufficiently reinforced wall. The adjustable Top Rollers make final adjustments quick and easy, without the need to remove the door. Their smooth operation and solid stainless steel construction minimizes maintenance issues.

CRL provides you with all the glass attachment fasteners for either flush mounting (requiring a countersunk hole), or surface mounting (requiring a straight hole). The glass attachment fasteners accommodate either 3/8" or 1/2" (10 or 12 mm) tempered glass and can easily be secured using our Cat. No. SW19 or LSSW1 Spanner Head Wrenches.

Standardized sets allow you to make planning and purchasing quick and easy for basic installations. We offer a wide variety of kits for Wall Mounting or Glass Mounting. We also offer an Adapter Kit, Cat. No. LSWMADT, to convert these Laguna Kits for use with wood doors.

For more information go to crlaurence.com/sliding-glass-doors or contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

CRL Laguna Series Wall Mount Slider Kits With Single Top Rollers

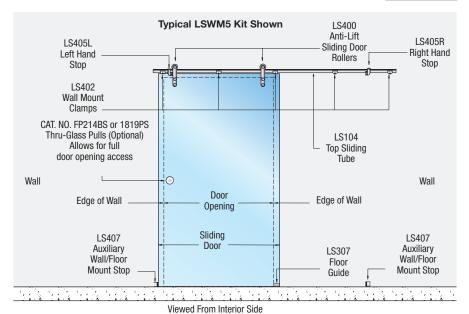

- NEW Optional "Softbrake" Braking System Assures Quiet Closing and Prevents Slamming
- Kits Available in Brushed Stainless, Polished Stainless, or Matte Black Finish
- Assembly Contains All Necessary Hardware to Complete Installation
- 316 Grade Stainless Steel Construction
- Anti-Lift Design for Added Safety
- All Kits Include Fasteners Needed for Either Flush (Countersunk) or Surface (Straight Hole) Mounting
- For Use With 3/8" or 1/2" (10 or 12 mm)
 Tempered Glass

The CRL Laguna Series Wall Mount Single Slider Kit contains all the components you will need (except the tempered glass) to complete this style of installation. This model is used in applications where you are attaching a single sliding door to the inside face of a sufficiently reinforced wall.

The Anti-Lift Sliding Door Top Rollers can be attached to the glass with either Surface Mount or Flush Mount Fittings (both are supplied). The Rollers have a 1/8" (3 mm) up or down vertical adjustment to aid in door alignment. Complete glass fabrication details and drawings are available from craurence.com/sliding-glass-doors.

NOTE: This system should only be used with 3/8" or 1/2" (10 or 12 mm) tempered glass. Laminated glass cannot be used. For longer top sliding tubes see page 366Z.

CRL Laguna Series Glass Mount Single Slider Kit With Single Top Rollers

- Kits Available in Brushed Stainless. Polished Stainless or Matte Black Finish
- Assembly Contains All Necessary Hardware to Complete Installation
- 316 Grade Stainless Steel Construction
- Improved Anti-Lift Design for Added Safety
- All Kits Includes Fasteners Needed for Either Flush (Countersunk) or Surface (Straight Hole) Mounting
- For Use With 3/8" or 1/2" (10 or 12 mm) Tempered Glass

The CRL Laguna Series Glass Mount Single Slider Kit contains all the components you will need (except the tempered glass) to complete this style of installation. This model is used in applications where you are attaching a single sliding door in an 'all-glass' opening where you have a wall on one end next to the door, a glass transom above the door, and a fixed glass panel on the other side of the door. Bi-parting double doors are not possible for this application.

The Anti-Lift Sliding Door Single Top Rollers can be attached to the glass with either Surface Mount or Flush Mount Fittings (both are supplied). The Rollers have a 1/8" (3 mm) up or down vertical adjustment to aid in door alignment. Complete glass fabrication details and drawings are available from crlaurence.com/sliding-glass-doors

NOTE: This system should only be used with 3/8" or 1/2" (10 or 12 mm) tempered glass. Laminated glass cannot be used. For longer top sliding tubes see page 366Z.

CRL Laguna Sliding Door NEW! **Hardware Adaptor Kit** for Wood Doors

- Easily Adapts Our Laguna Slider Kits to Work With Wood Doors From 1-3/8" to 1-3/4" (35 to 45 mm) Thick
- 316 Grade Stainless Steel for Durability
- Kits Available in Brushed Stainless, Polished Stainless. or Matte Black Finish

Now you can easily adapt any of our Laguna Sliding Door Systems to work with wood doors. The Adaptor Kit allows you to mount Laguna Slider Hardware on wood doors ranging in thickness from 1-3/8" to 1-3/4" (35 to 45 mm). Recommended for solid wood doors, but can be used on hollow core doors that have adequate structure to accept the hardware.

Each LSWMADT Kit comes with four Mounting Bolts for attaching the hardware to the wood door, five 3/8" (10 mm) thick Wall Mount Bracket Spacers and one Floor Guide. All parts are made of 316 Grade stainless steel. One kit is required per door.

For additional information or assistance contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

CRL Top Sliding Tube Ceiling Mount Clamp

- Used in Laguna Ceiling Mount Applications
- Improved Anti-Lift System

This CRL Top Sliding Tube Ceiling Mount Clamp attaches to a structural ceiling sufficient to carry the loads of the Sliding Glass Doors. These are ordered separately from the kits and would replace the Wall Clamps included in any of the kits.

This Clamp positions the Top Sliding Tube 4-11/16" (119 mm) down from the ceiling and has 3/16" (5 mm) of up or down adjustment to help with leveling the Top Sliding Tube during installation. Comes with four fasteners for mounting, and has a snap-on cover to finish the installation.

CRL Thru-Glass Pull

- For 3/8" or 1/2" (10 or 12 mm) Tempered Glass
- Low Profile Design Allows for Full Door Opening Access
- Brushed Stainless Steel Finish

The CRL Thru-Glass Pull has a recessed low profile design that you screw together to install. Its solid stainless steel construction makes this a rugged yet elegant solution for a pull handle. The thickness of this Thru-Glass Pull Handle doesn't impede movement in front of walls or glass sidelites as it allows for full door opening access. Supplied with clear gaskets to accommodate door glass from 3/8" to 1/2" (10 to 12 mm) thick. Minimum order is one each. **NOTE**: Requires 1-7/8" (48 mm) hole in glass panel for installation. You can use our Cat. No. PDT48MM Diamond Drill to fabricate the proper size hole.

CHOICES MORE crlaurence.com/sliding-glass-doors

CRL50/51 Series Top Hung Sliding Door Kits

- For Use With 5/16" or 3/8" (8 or 10 mm) Tempered Glass
- Kits for Single Doors, Synchronized Doors, and Telescoping Doors
- Many Models Available With "Softbrake" Braking System
- Mounts to Wall or Ceiling
- No Notches or Holes Required in the Glass
- Can Accommodate Doors Weighing Up to 176 Pounds (80 kg)

The Upper Clamp and Roller Assemblies offer 1/4" (6 mm) of height adjustment during installation to allow for openings and floors that are not true and level. All Kits come with concealed Roller Stops in the Top Track to hold the door in the open or closed position, plus a small Bottom Guide.

The CRL51 Series Kits come standard with the new "Softbrake" Braking System. With this new addition you never have to worry about the doors slamming again! The "Softbrake" cushions the opening and closing of the doors gently, quietly, and is virtually unseen.

The "Softbrake" is completely concealed in the top track and

engages during the final 4" (102 mm) of travel. This prevents the glass from impacting the frame or adjacent glass panel (one "Softbrake" is required for each direction of travel to be controlled per panel).

CRL50 Kits are also available with optional 'synchronization' of bi-parting doors where the operation of one panel moves the other. A 'telescoping' option is also available where the panels slide in the same direction and stack away together. You can also enjoy the best of both with our combination 'synchronized' and 'telescoping' options all in one. Kits are available in satin anodized finish with optional covers available in white paint or brite anodized.

For additional information, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

CRL50/51 Series Wall Mount Sliding Door Kits

- For 5/16" or 3/8" (8 or 10 mm) Tempered Glass
- CRL51 Series Features Optional "Softbrake" Braking System
- Can Accommodate Doors Weighing Up to 176 Pounds (80 kg), Maximum Door Width of 59" (1.5 m)
- Satin Anodized Finish

These CRL50/51 Kits are designed for use where top track mounts to a structural wall. Kits come with all the hardware needed to complete the installation, except the glass and door pull.

Kits with the optional "Softbrake" Braking System come with two "Softbrake" Kits to control the sliding panel in both directions. Minimum sliding panel width of 31-1/2" (800 mm) for control in both directions of travel. For a detailed listing of components and installation instructions of each Kit go to

crlaurence.com/sliding-glass-doors.

CRL50/51 Series Replacement Components

Top Track

- Accepts "Softbrake" Braking System Hardware
- 118" (3 m) Long
- Satin Anodized Finish

Top Track is predrilled at 8" (203 mm) centers for use with CRL3956 or CRL3957 Support Brackets. Minimum order is one each.

NOTE: Not for use on Synchronized or Telescopic Kits.

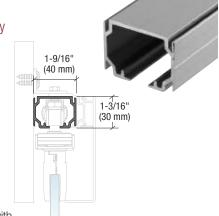

CAT. NO. CRL3951A

Synchronized/Telescopic Top Track

- For CRL50 Series Only
- 118" (3 m) Long
- Satin Anodized Finish

Top Track is predrilled at 8" (203 mm) centers for use with CRL3957 Support Brackets. Can also be mounted to a structural ceiling. Minimum order is one each.

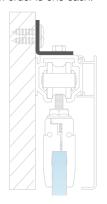

NOTE: Not compatible with "Softbrake" System.

CAT. NO. CRL3950A

Small Top Track Support Bracket

Bracket comes complete with fastener to attach to Top Track. For use on CRL51 and CRL511 Kits. Minimum order is one each.

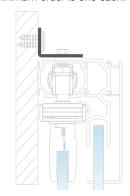

CAT. NO. CRL3956

Large Top Track Support Bracket

Bracket comes complete with fastener to attach to Top Track. For use on CRL512, CRL50S2, and CRL502S2 Kits. Minimum order is one each.

CAT. NO. CRL3957

Top Track for Dropped Ceiling

- For CRL50 Series Only
- 118" (3 m) Long
- White Powder Coat Finish

For use with CRL50D Kits in dropped ceiling applications. Minimum order is

one each.

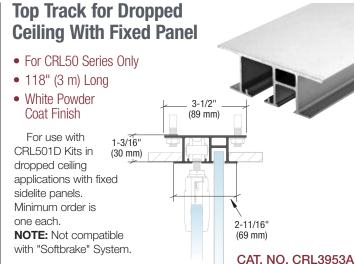

NOTE: Not compatible with "Softbrake" System.

CRL50/51 Series Replacement Components "Softbrake" Braking System Kit

- Standard Feature on CRL51 Series Only
- Can Also Be Adapted to Most CRL50 Series Kits
- Cushions the Opening and Closing of Sliding Panels

CRL51 Series "Softbrake" Braking System comes standard with all CRL51 Series Sliding Door Kits. The "Softbrake" acts during the final 4" (102 mm) of travel and gently cushions the opening and closing of the sliding panel preventing accidental impact against the frame or adjacent panel.

One "Softbrake" is required for each direction of travel to be controlled per panel. Minimum sliding panel width of 25-9/16" (650 mm) for control in a single direction; 31-1/2" (800 mm) for control in both directions of travel. Minimum order is one each.

NOTE: Existing CRL50 installations can be easily upgraded by ordering this kit, except for telescoping and synchonized systems.

CAT. NO. CRL51SBK

Hanger Assembly for Glass Doors

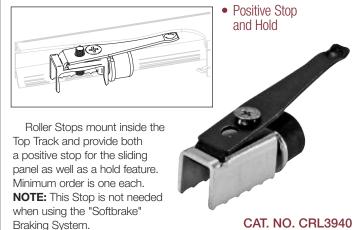

- Accepts "Softbrake" Braking Hardware
- Smooth Rolling

The Hanger Assemblies for glass doors are used in both CRL50 and CRL51 Series Kits. They work with 5/16" or 3/8" (8 or 10 mm) tempered glass and do not require any notches or holes in the glass. They have the ability to be adjusted 1/4" (6 mm) in height. Two Hangers per set. Minimum order is one set.

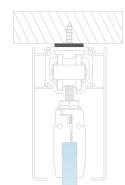

CAT. NO. CRL3958

Roller Stop

Track Separator

Track Separators are used with Cat. No. CRL3950 or CRL3951A Top Track (see page 379Z) to help ensure uniform shimming during installation. Minimum order is ten each. Must be ordered in increments of ten

 Mill Aluminum Shims for Top Track

Synchronizing Hardware Set

• For 5/16" to 3/8" (8 to 10 mm) Tempered Glass Doors

Synchronizing Hardware Set is for operating multiple glass panels while only moving one. Each set contains two Clamps, two Roller Stops, and one Cable. Minimum order is one set. NOTE: For CRL50 Series Kits only.

CRL70 Series Top Hung Sliding Door Kits

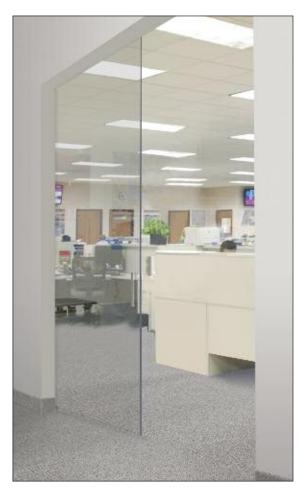

- For 5/16" to 1/2" (8 to 12 mm) Tempered Glass
- Models for Single and Synchronized Bi-Parting Doors
- Mounts to Wall or Ceiling
- No Notches or Holes Required in the Glass
- Can Accommodate Doors Weighing Up to 275 Pounds (125 kg), Maximum Door Width of 59" (1.5 m)
- Wood Door Kits Also Available (See Below)

Our CRL70 Series Top Hung Sliding Door Kits feature a modern European design that offers wall or ceiling mount options for 5/16" to 1/2" (8 to 12 mm) thick sliding glass or wood doors, with or without fixed panels. These top hung systems require no bottom track, and the smooth sliding action allows for finger touch control of doors weighing up to 275 pounds (125 kg). The Hanger Assemblies offer 1/4" (6 mm) of height adjustment during installation to allow for openings and floors that are not true and level. Kits come with concealed Roller Stops in the Top Track to hold the door in the open or closed position, a Floor Guide, and a Track Cover in satin anodized finish, with an option for powder paint or cladding in any architectural finish desired.

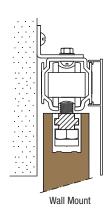

Contact Technical Sales for Commercial Products for assistance with proper kit selection or installation instruction assistance.

CRL EZ-Slide 80 Series Top Hung Single Track Sliding Door Kit

- For 5/16" to 3/8"(8 to 10 mm) Tempered Glass
- No Notches or Holes Needed in the Glass for Installation
- Rated for Panels Weighing Up to 176 Pounds (80 kg)

The CRL EZ-Slide 80 Series Top Hung Single Track Sliding Door Kit is an easy to install and cost effective solution to adding 'all-glass' sliding doors in commercial or residential applications.

The only glass fabrication required is to polish the edges. If handles or knobs are desired, holes will be required for their mounting. Optional Break Metal Covers, Model THC1 are available on special order to help conceal the operating hardware.

Everything to complete a single panel slider application is available in our easy to order Kit (except the tempered glass and pull).

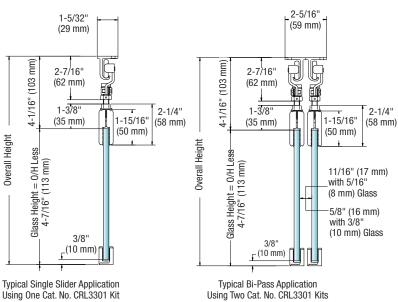

NOTE: The EZ-Slide System is not designed for use in shower or steam room applications and should not be used with laminated glass.

For more information on this versatile and easy to install system, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

It comes in 157-1/2" (4 m) stock lengths pre-drilled for #10 (4 mm) fasteners at 9-13/16" (250 mm) centers. Fasteners are not included. Minimum order is one stock length. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them down for U.P.S. A cutting charge will apply. **NOTE:** Optional break metal covers are available on special order to help conceal the track and operating hardware.

CAT. NO. CRL3319

Rollers and Stops

• Panels Up to 176 Pounds (80 kg)

CRL EZ-Slide 80 Series Rollers and Stops are designed for use with the CRL EZ-Slide 80 Top Track. A pair of Rollers will provide smooth, silent operation. The Stops, complete with rubber bumpers, can be set and secured at any location along the Top Track. Each pack contains two Rollers and two Stops. Minimum order is one pack.

CAT. NO. CRL3924

Regulator Bolts

 Allow Easy Adjustment Without Removing Panels

CRL EZ-Slide 80 Series Regulator Bolts allow easy height and alignment adjustments to be made while the panels remain hanging from the Top Track. Each pack contains two Regulator Bolts. Minimum order is one pack.

CAT. NO. CRL3325

Clamps and Bottom Guide

CRL EZ-Slide 80 Series Clamps and Bottom Guide are easily converted for use with 5/16" or 3/8" (8 or 10 mm) tempered glass. A pair of Clamps is rated for panels that weigh up to 176 pounds (80 kg). They grip the glass with precision-controlled pressure. No drilling or notching of the glass is required. Each pack contains two Clamps, Screws, and one nylon Bottom Guide.

CAT. NO. CRL3926

Bottom Guide

 Works With EZ-Slide 80/180 Kits

CRL EZ-Slide 80/180 Series Bottom Guides are made from durable and long-lasting nylon that will provide years of reliable service. The two-part construction allows it to be adjusted for 5/16", 3/8", or 1/2" (8,10, or 12 mm) glass thickness. Each Bottom Guide pack comes complete with mounting screws. Minimum order is one pack.

CAT. NO. CRL3938

Optional Pull Hardware

Minimum order is one pack.

CRL SGH8 Series Frameless Sliding Door Handle

CRL Thru-Glass Pull Cat. No. 1819BS and 1819PS

CRL EZ-Slide 180 Series Top Hung Single Track Sliding Door Kit

- For 3/8" to 1/2" (10 to 12 mm) Tempered Glass
- No Notches or Holes Needed in the Glass for Installation
- Rated for Panels Weighing Up to 396 Pounds (180 kg)

The heavy-duty CRL EZ-Slide 180 Series Top Hung Single Track Sliding Door Kit is an easy to install and cost effective solution to adding 'all-glass' sliding doors in commercial or residential applications.

The only glass fabrication required is to polish the edges. If handles or knobs are desired, holes will be required for their mounting. Optional Break Metal Covers Model THC1 are available on special order to help conceal the operating hardware.

Everything to complete a single panel slider application is available in our easy to order Kit (except the tempered glass and pull).

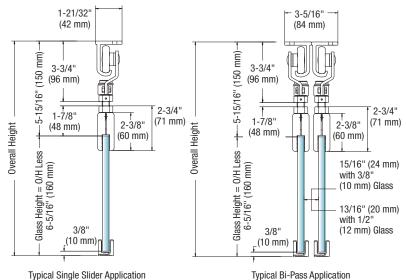

NOTE: The EZ-Slide System is not designed for use in shower or steam room applications and should not be used with laminated glass.

For more information on this versatile and easy to install system, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

CRL TOP HUNG SLIDING DOOR SYSTEMS

CRL280/285 Series Top Hung Sliding Door Kits

- For 3/8" to 1/2" (10 to 12 mm) Tempered Glass
- Mount to Structural Ceiling or Wall
- Available With or Without "Softbrake" **Braking System**
- Rated for Doors Weighing Up to 176 Pounds (80 kg)
- No Notches or Holes Required in the Glass for Installation
- Satin Anodized and Brushed Stainless Anodized Finishes Available

Partitions featuring 'all-glass' top hung sliding doors are reliable, versatile, and easy to install. These CRL280/285 Series Kits are no exception. Designed for use with 3/8" to 1/2" (10 to 12 mm) tempered glass, they can accommodate doors weighing up to 176 pounds (80 kg) and 59" (1.5 m) wide.

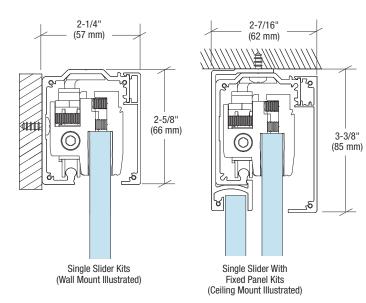

CRL280 Series Kits boast these features: sleekly designed ceiling or glass mount versions, no bottom track, smooth "finger touch" control, and no holes or notches required in the glass. The Upper Clamp and Roller Assemblies have 1/4" (6 mm) of fine tune height adjustment after installation to allow for openings and floors that are not true and level.

CRL285 Series Kits have all the features of the CRL280 Series plus an additional, highly sought after feature, the CRL "Softbrake" Braking System. The "Softbrake" is completely concealed in the top track, and engages during the final 4" (102 mm) of travel, preventing the glass door from "slamming" open or closed, impacting the frame or adjacent glass

Kits are available with or without hardware for adjacent fixed panels. Individual components are also available should you wish to construct custom units (see pages 397Z and 398Z). All CRL 280/285 Kits are available in satin anodized and brushed stainless anodized finishes.

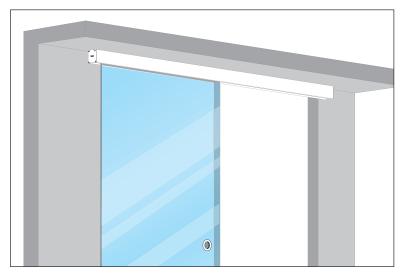

CRL280/285 Series **Single Slider Kits**

- For 3/8" or 1/2" (10 or 12 mm) Tempered Glass
- Available With or Without "Softbrake" Braking System
- Mounts to Wall or Ceiling
- Maximum Weight 176 Pounds (80 kg), Maximum Panel Width 59" (1.5 m)
- Satin Anodized and Brushed Stainless Anodized Finishes

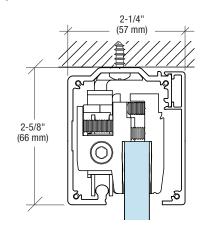

Ceiling Mount Illustrated

This configuration of the CRL280/285 Slider Kit is used for single door applications where the top track mounts to a structural ceiling or wall. Kits include all the components you will need (except the tempered glass and pull hardware) to complete this style of installation. Kits with optional "Softbrake" Braking System come with two "Softbrake" Kits to control the sliding panel. Minimum sliding panel width of 39-3/8" (1 m) for control in both directions of travel. For detailed listing of components and installation instructions go to crlaurence.com/sliding-glass-doors.

CRL TOP HUNG SLIDING DOOR SYSTEMS

CRL490/495 Series Top Hung Sliding Door Kits

- For 5/16" to 1/2" (8 to 12 mm) Tempered Glass
- Available With or Without "Softbrake" Braking System
- Kits Available for Wall and Ceiling, or Dropped Ceiling Applications, With or Without Fixed Panels
- Can Accommodate Doors Weighing Up to 330 Pounds (150 kg)
- Clamps are Fully Concealed Inside the Header
- No Notches or Holes Required in the Glass for Installation
- Satin Anodized and Brushed Stainless Anodized Finishes Available

The CRL490/495 Series offers multiple mounting options, is top hung, requires no bottom track, and operates with smooth "fingertouch" control. No holes or notches required, making the glass more cost effective. The upper clamp and roller assemblies have over 1/4" (6 mm) of height adjustment during installation, allowing for easy correction of openings that are not true and level. Kits are available in satin anodized and brushed stainless anodized finishes. Installation Instructions are available online at **crlaurence.com/sliding-glass-doors**.

CRL TOP HUNG SLIDING DOOR SYSTEMS

CRL Cabo Soft Slide Sliding Door System

- Featuring the New 'Softbrake' Braking System Controlling the Last 4" (102 mm) of Door Travel
- Hardware for One Sliding Door and One Fixed Panel
- Concealed Overhead Roller Design
- Available in Five Finishes, With Custom Finishes Available
- For Use With 5/16", 3/8" or 1/2" (8, 10 or 12 mm) Thick Tempered Glass (Not Included)

The Cabo Soft Slide Sliding Door System offers the 'Softbrake' Braking System on the door, ensuring that you do not have to worry about the door "slamming" open or closed. 'Softbrake' cushions the opening and closing of the door gently, quietly, and is completely concealed inside the header. 'Softbrake' controls the last 4" (102 mm) of door travel, preventing the glass from impacting the frame or adjacent glass panel.

The Cabo Soft Slide Series offers a choice of two clamp cover designs (rounded or square), and is available in five architectural finishes. Each Kit comes complete with a Header, two Top Clamps with Covers, two Wall Mount Brackets, two Top Fixed Glass Fasteners with Covers, and a Bottom Guide. Bottom Fixed Glass Attachments (Channels or Clamps), and Handles must be ordered separately. NOTE: Tempered glass is not included.

Wall Mount Bracket (Included with 180 Degree Kits)

SPECIFICATIONS:

Glass Thickness Range:

5/16" to 1/2" (8 to 12 mm)

Tempered Safety Glass (Not Included)

Material: Aluminum

Maximum Door Weight: 176 lbs (80 kg)

Finished Opening Size: Minimum 65" (1.65 m) Wide

Glass Fabrication: Holes and Notches Required in Sliding Door Includes: Gaskets, Screws, and Glass Fabrication Information

CRL SLIDING GLASS DOOR SYSTEMS

USE MONOLITHIC TEMPERED GLASS

CRL Birmingham Series Bi-Folding Top Hung Sliding Door System

- Top Hung With Heavy-Duty Rollers and Patch Fittings for Smooth Operation
- Three Kits to Choose From or Design Your Own
- For 3/8" or 1/2" (10 or 12 mm) Tempered Glass
- For Interior Use Only
- Rated for Panels Up to 110 lbs (50 kg)

The CRL Birmingham Bi-Folding Top Hung Door System features corner patches to create a modern and elegant look. It can accommodate from two to twelve panels that can be bi-folded to one side or bi-part, with a maximum of six panels to a side. The systems are easy to install and a cost effective solution for commercial or residential interior applications.

There are three kits available from stock: 2x2 Bi-Folding, a three panel Bi-Folding, and a four panel Bi-Folding. All with everything you need to complete the installation, except for the glass and the fasteners going into the substrate. However, the combinations do not stop there, you can easily add additional fittings to create the desired configuration of your choice, providing it meets system limitations.

Panels are hinged together with 304 grade stainless steel patches and suspended from the satin anodized aluminum top track by heavy-duty rollers. Similar patches are used at the midpoint of the panels to ensure safe operation on openings taller than 104" (2.6 m).

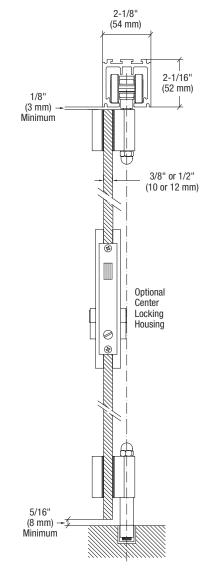

Matching bottom patches with guide pins slide inside a floor mounted continuous channel maintaining proper alignment of the panels as they fold open and closed.

Maximum panel weight of 110 lbs (50 kg), with a maximum width of 29" (737 mm) and maximum height of 118" (3 m). Fittings can accommodate 3/8" or 1/2" (10 or 12 mm) tempered glass and require two holes per fitting on each panel, and notches for the center lock housings. The top and bottom tracks come in 118" (3 m) lengths.

Optional Locking Handle and Receiver Handle are available, see page 411Z.

CRL TOP HUNG BI-FOLDING DOOR SYSTEMS MORE CHOICES

CRL Birmingham Series 2x2 Bi-Folding Door Kit

- For 3/8" or 1/2" (10 or 12 mm) Tempered Glass
- Brushed Stainless Steel Patches
- Satin Anodized Top Track and Bottom Guide Channel

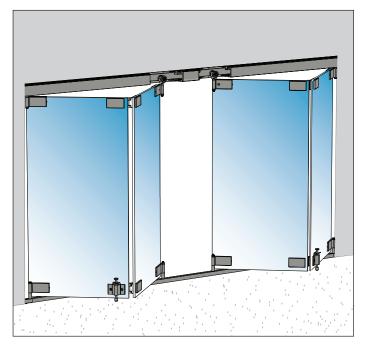

This configuration of the CRL Birmingham Series Bi-Folding Slider provides all the hardware needed to create a bi-folding four panel, 2x2 bi-parting entrance. Two panels bi-fold to each side, giving you a large unobstructed opening. Hardware can be easily reversed in the field to allow for opposite handing.

Maximum panel weight of 110 lbs (50 kg), with a maximum width of 29" (737 mm) and maximum height of 118" (3 m). Fittings can accommodate 3/8" or 1/2" (10 or 12 mm) tempered glass and require two holes per fitting on each panel, and notches for the center lock housings. The top and bottom tracks come in 118" (3 m) lengths.

Optional Locking Handle and Receiver Handle are available, see page 411Z.

NOTE: For openings taller than 104" (2.6 m), additional Cat. No. B1R14 Glass-to-Glass Patches must be used at panel height midpoints to ensure safe operation of the system (ordered separately, see page 411Z).

CAT	NO.	FOR GLASS THICKNESS
B1F	22BP	3/8" to 1/2" (10 to 12 mm)

Minimum order: 1 each. Kits contain stock lengths measuring 118" (3 m) in length and must ship common carrier. Kits can be combined for quantity pricing.

One Top Track and One Bottom Guide Channel at 118" (3 m) in Length

CRL TOP HUNG SLIDING DOOR SYSTEMS

CRL Overhead Track Sliding and Bi-Fold Doors

- For Use With 3/8" or 1/2" (10 or 12 mm) Tempered Glass
- Custom Built in Eight Standard Sliding Configurations and Eight Standard Bi-Fold Configurations
- Available in Six Architectural Finishes
- Custom Finishes Available on Special Order

CRL Overhead Track Sliding and Bi-Fold Door Systems are designed to work in a variety of different applications. Their universal track and roller design allows them to be used as Sliding, Half Panel Bi-Fold, or Full Panel Bi-Fold configurations. Each unit is custom built to your specifications for opening size, glass thickness, and locking hardware.

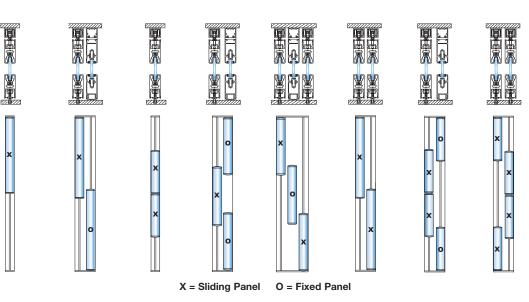

Our Cat. No. OTCA Top Roller Carriage Assemblies (see page 418Z) adjust easily for both height and alignment. Their compact design allows for the Top Track and the Door Rail widths to match, providing an even sight line. A pile weatherstrip fills the gap between the Top Track and Door Rail. OTBR Series Recessed Guide Channel (see pages 418Z) is included with each system for increased performance and added security.

CRL Overhead Track Sliding Door Configurations

• Silent Moving Four-Roller Carriage Assemblies in Eight Configurations

CRL Overhead Track Sliding Door Systems are available in eight standard configurations. Each sliding panel is hung from two Cat. No. 0TCA Carriage Assemblies. Maximum panel weight not to exceed 225 pounds (102 kg). Maximum panel width is 72" (1829 mm). Minimum panel width is 25" (635 mm). NOTE: Available only by custom order. Standard with 4" (102 mm) Square Rails, however, any of our 4", 6", or 10" (102, 152, or 254 mm) Rail combinations are available. Most orders can be fabricated in five business days at our Los Angeles, California manufacturing facility. Contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send us an e-mail at architectural@crlaurence.com.

CRL Accessories for Overhead Track Sliding and Bi-Fold Door Systems

• Common to Our OTS, OTC, and OTB Series Door Systems

CRL Top Track

- Available in 120" (3.05 m) and 240" (6.1 m) Stock Lengths
- Choice of Two Finishes

CRL Top Track for Overhead Track Sliding and Bi-Fold Doors is available in stock lengths that you can cut to size in the field if conditions require mounting the Top Track prior to ordering the entire system. Made of extruded aluminum for durability and maximum strength.

CAT. NO.	STOCK LENGTH	FINISH
0TTR120DU	120" (3.05 m)	Black Bronze Anodized
0TTR120SA	120" (3.05 m)	Satin Anodized
0TTR240DU	240" (6.1 m)	Black Bronze Anodized
0TTR240SA	240" (6.1 m)	Satin Anodized

Minimum order: 1 stock length. Finishes can be combined for quantity pricing. Must ship via common carrier.

CRL Carriage Assembly

- Durable, Long Lasting
- Available With Nylon or Stainless Steel Rollers

This Carriage Assembly for our OT Series Sliding and Bi-Fold Doors has an extruded aluminum body with stainless steel hanging bolt and axles, bronze bushings, and either nylon or stainless rollers with ball bearings. Threaded Rod is 3/8"-16.

NOTE: Maximum load must not exceed 112 pounds (51 kg) for nylon rollers or 170 pounds (77 kg) for stainless steel rollers per Carriage Assembly.

CAT. NO.	ROLLERS
0TCA	Nylon
0TCASS	Stainless Steel

These CRL Guide Channels for Overhead Track Sliding and Bi-Fold

Doors are available in stock lengths that you can cut to size in the field

CRL Guide Channels

- Recessed Design
- Available in 120" (3.05 m) and 240" (6.1 m) Stock Lengths
- Choice of Two Finishes

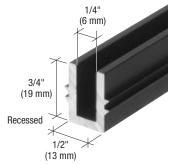

if conditions require mounting the Guide Channel prior to ordering the entire system. Recessed design eliminates tripping hazards. Optional Floor Guide, Cat. No. 0T1FG for use with one sliding door rail.

300 ø

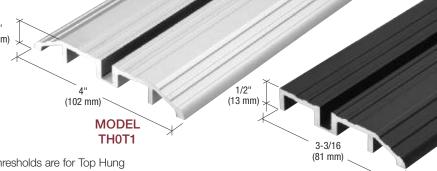

Minimum order: 1 stock length. Finishes can be combined for quantity pricing. Must ship via common carrier.

CRL Surface Mounted Bottom Guide Thresholds

- No Need to Recess Into the Floor
- Thresholds Provide Various Mounting Possibilities

The CRL Surface Mounted Bottom Guide Thresholds are for Top Hung Sliding and Bi-Folding Doors they make for an easier, time-saving installation because there's no need to cut into the floor to create a track path.

RCHITECTURAL

SPECIFICATIONS

CRL SDR and SSR Bottom Rolling Sliding Door Systems

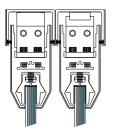

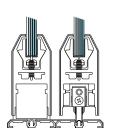

- Saves Valuable Floor Space Does Not Project Out of the Door Opening
- Doors Can Be Aligned Without Removal
- Each Unit Custom Built to Fit the Opening

CRL Bottom Rolling Door Systems use the same technology found in our Wedge-Lock® Door Rails to secure heavy panels of 3/8" or 1/2" (10 or 12 mm) tempered glass to create almost 'frameless' glass doors between interior office areas. Several profiles are available in any of the seven architectural finishes used for our Door and Sidelite Rails in both Tapered and Square styles. Installation is simplified because each unit is custom built to your specifications for opening size and glass thickness. Once installed you can adjust or align the doors without removal. Maximum door width is 48" (1219 mm); maximum door height is 108" (2743 mm), with a maximum weight not to exceed 234 pounds (106 kg).

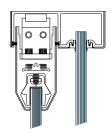

All CRL Bottom Rolling Sliding Door Units come complete with Top and Bottom Tracks, Top and Bottom Door and Fixed Panel Rails, Fixed Panel Saddles, Bottom Tandem Rollers, Stop and Anti-Lift Blocks, and Locking Hardware; everything you need with the exception of the tempered glass and track fasteners. Top and Bottom Tracks can be ordered in stock lengths prior to ordering complete unit if needed, see pages 427Z to 428Z.

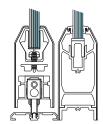

NOTE: Available by custom order only. Most orders can be fabricated in five business days at our Los Angeles, California manufacturing facility. Contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send us an e-mail at architectural@crlaurence.com.

Typical Section of SSR System (See pages 424Z to 426Z)

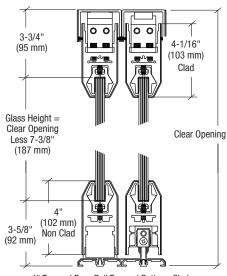

CRL SDR Bottom Rolling Sliding Door System

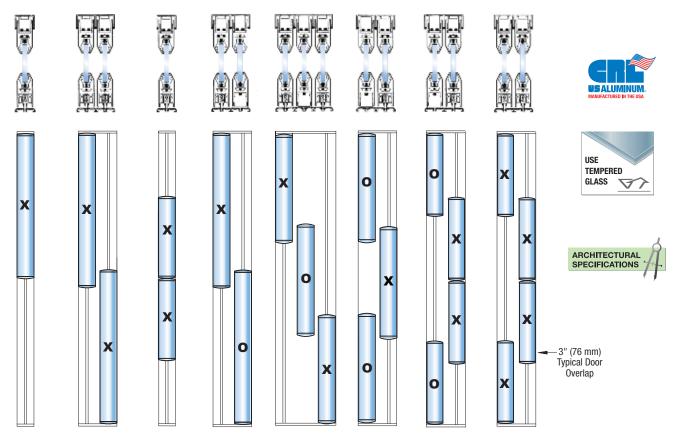

- With 4" Tapered DR4T Series Door Rails
- Available in Seven Architectural Finishes
- For 3/8" to 1/2" (10 to 12 mm) Thick Glass

The CRL SDR Bottom Rolling Sliding Door System with 4" (102 mm) Tapered Rails Top and Bottom utilizes our popular Wedge-Lock® Glass Securing System. The DR4T Series Door Rails are used for all door and fixed panels, and are custom fabricated to your specifications. The doors can be ordered with or without locks in the bottom rail. Maximum door width is 48" (1219 mm); maximum door height is 108" (2743 mm), with a maximum weight not to exceed 234 pounds (106 kg). Minimum door width is 14-3/4" (375 mm) without lock; 21-9/16" (548 mm) with lock.

NOTE: Available by custom order only. Most orders can be fabricated in five business days at our Los Angeles, California manufacturing facility. CRL SSR Bottom Rolling Sliding Door System

- With 4" Tapered DR4T Series Door Rails and 4" Tapered SR4T Series Sidelite Bottom Rails
- Available in Seven Architectural Finishes
- For 3/8" to 1/2" (10 to 12 mm) Thick Glass

The CRL SSR Bottom Rolling Sliding Door System with 4" (102 mm) Tapered Rails utilizes our popular Wedge-Lock® Glass Securing System found in the DR4T Series Door Rails on all sliding panels. They can be ordered with or without locks in the bottom rail.

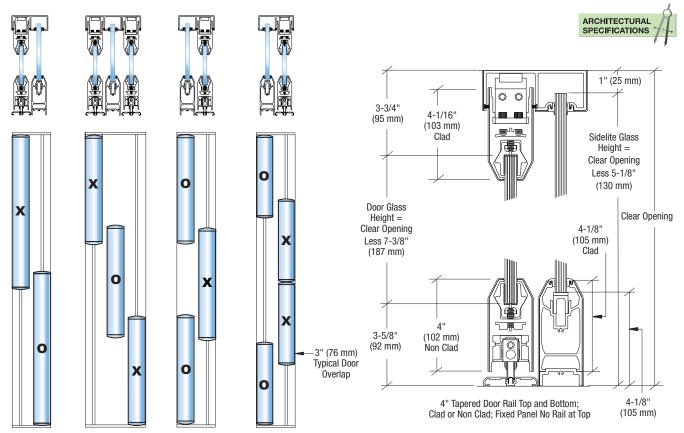

The fixed panels utilize our popular SR4T Series Sidelite Rails with roll-in vinyl at the bottom of the panel, and an integrated glazing channel with roll-in vinyl in the top track. Maximum door width is 48" (1219 mm); maximum door height is 108" (2743 mm), with a maximum weight not to exceed 234 pounds (106 kg). Minimum door width is 14-3/4" (375 mm) without lock; 21-9/16" (548 mm) with lock.

All panels are custom fabricated to your specifications.

Minimum order: 1 each. Finishes can be combined for quantity pricing. *Clad finish. Must ship common carrier. Stock lengths cannot be cut to ship via U.P.S. NOTE: CRL recommends that Clad Finishes be cut using only a CRL Cat. No. BNDSW1 Band Saw or a Cat. No. LC1230 Cold Saw with A91039 Carbide Blade. Use of a standard Chop Saw or Abrasive Blade will cause the cladding to heat up and damage the finish.

CRL Bottom Track for Bottom Rolling Sliding Doors comes standard with a durable stainless steel roller guide cover to prevent track wear. They are available in stock lengths that you can cut to size in the field if conditions require mounting the Bottom Tracks prior to ordering the entire system.

Heavy-Duty Bottom Roller Assembly

 Allows Easy Alignment of Door Panels Without Removing the Door

CRL Heavy-Duty Bottom Roller Assemblies are constructed from durable, long-lasting components capable of supporting 125 pounds (56.7 kg) each. They have a vertical adjustment of 9/16" (14 mm) for easy alignment of door panels without removing the doors. Minimum order is one each.

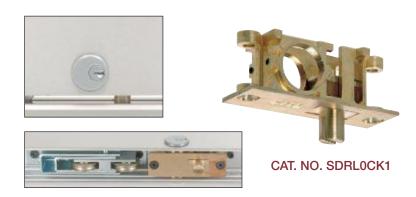

Straddle Lock for Bottom Rolling Doors

- Works With Mortise Type Key Cylinders or Thumbturns
- 3/4" (19 mm) Hole Required for Bolt

The CRL Straddle Lock comes standard with all CRL Bottom Rolling Sliding Doors. The bolt is designed to straddle the stainless steel track cover of the SD1BT Series Bottom Track, penetrating at the sides of the cover, allowing the door panels to roll freely across the locking position. It works with our Cat. No. DRA10 Series Mortise Key Cylinders and Cat. No. DRA20 and DRA22 Series Mortise Thumbturns (see page 170Z). Minimum order is one each.

- Brushed or Polished Stainless Steel Finishes

Glass Fabrication Required:

Four holes and two notches per panel. Templates available at crlaurence.com.

There are two configurations of GSDH Series Kits for glass doors. Both come with everything you need (except the tempered glass and handle) to complete the installation, including Top and Bottom Track, Top Guides, Top Guide Roller Stops, End Covers, and the Bottom Rollers

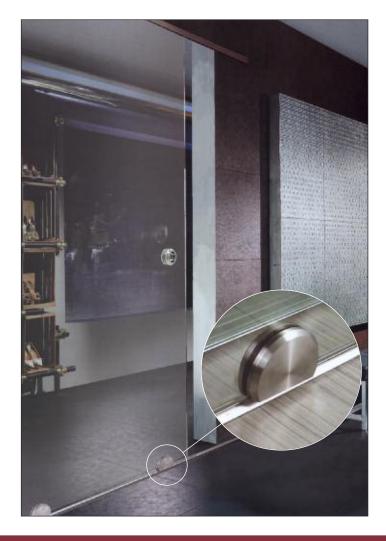

The GSDH Series Bottom Rolling Door System features a unique design that gives the door the appearance that it is gliding on air. The Top Guide Track mounts to the wall and provides for secure and smooth operation of the rolling panel.

The GSDH Bottom Rolling System is a great alternative when the building structure cannot carry the load of a top hung system. Each Kit comes with concealed stops in the Top Track to control the length of travel of the door in the open or closed position. Everything is properly balanced to offer a smooth rolling action with finger touch control.

Kits are available in brushed or polished stainless steel finishes, and are intended for use with 5/16", 3/8" or 1/2" (8, 10 or 12 mm) tempered glass. Individual components can also be ordered to customize the opening.

NOTE: Laminated glass should not be used with the GSDH System. For more information on these versatile and easy-to-install systems,

contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

CRL GSDH1 Series Single Bottom Rolling Door Kit

- 118" (3 m) Top and Bottom Tracks
- Available in Brushed or Polished Stainless Steel
- For Use With 5/16" to 1/2" (8 to 12 mm) Tempered Glass

The CRL GSDH1 Series Single Bottom Rolling Door Kit contains all of the components you will need (except the tempered glass and handle) to complete this style of installation. This model can accommodate a single door weighing up to 286 pounds (130 kg), with a maximum width of 60" (1.5 m).

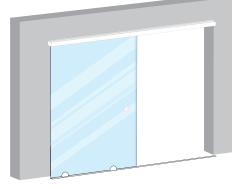

NOTE: Laminated glass should not be used with the GSDH System.

Minimum order: 1 each. Kits contain components measuring 118" (3 m) in length, and must ship common carrier. Kits can be combined for quantity pricing.

Glass Fabrication Required:

Four holes and two notches per panel. Glass templates included in kits. Template available at crlaurence.com.

Each Kit Contains:

One Top Guide Track at 118" (3 m) in Length and Two End Caps

Two Top Roller Guides and Two Stops

Two Bottom Rollers

One Bottom Roller Track at 118"(3 m) in Length

CRL GSDH2 Series Bi-Parting Bottom Rolling Door Kit

- 118" (3 m) Top and Bottom Tracks
- Available in Brushed or Polished Stainless Steel
- For Use With 5/16" to 1/2" (8 to 12 mm) Tempered Glass

The CRL GSDH2 Series Bi-Parting Bottom Rolling Door Kit contains all of the components you will need (except the tempered glass and handle) to complete this style of installation.

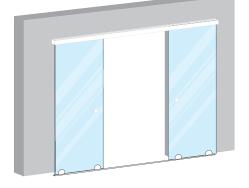

This model can accommodate two bi-parting doors, each weighing up to 286 pounds (130 kg), with a maximum width of 30" (762 mm). NOTE: Excessive door height may cause deflection. Call for details. Laminated glass should not be used with the GSDH System.

CAT. NO.	FINISH
GSDH2BS	Brushed Stainless
GSDH2PS	Polished Stainless

Minimum order: 1 each. Kits contain components measuring 118" (3 m) in length, and must ship common carrier Kits can be combined for quantity pricing.

Glass Fabrication Required:

Four holes and two notches per panel. Glass templates included in kits. Template available at crlaurence.com.

Each Kit Contains:

One Top Guide Track at 118" (3 m) in Length and Two End Caps

Four Top Roller Guides and Four Stops

Four Bottom Rollers

One Bottom Roller Track at 118" (3 m) in Length

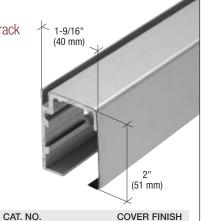

CRL GSDH Series Accessories

Top Track With Cover

- 118" (3 m) Long Aluminum Track
- Available in Brushed or Polished Stainless Finishes

CRL GSDH140 Top Tracks are made of aluminum with a Cover made of 304 grade stainless steel. They come in 118" (3 m) lengths, with holes pre-drilled on 9-7/8" (251 mm) centers to accommodate 3/16" (5 mm) fasteners (not included).

Brushed Stainless

Polished Stainless

Minimum order: 1 each. Must ship common carrier.

GSDH140BS

GSDH140PS

Top Track Roller Guide

 Moves Glass Doors Quietly With Nylon Rollers

CRL GSDH120 Top Track Roller Guides attach to the top edge of the glass sliding panel and guide the door along the Top Track. Glass fabrication is required. Two holes are required per Roller Guide. Use two roller guides per sliding panel.

CAT. NO.	FINISH
GSDH120BS	Brushed Stainless
GSDH120PS	Polished Stainless

Minimum order: 1 each

Top Track Stop

 Provides Positive Stop in Open or Closed Position

CRL GSDH150 Top Track Stops are used with Cat. No. GSDH140 Top Track and Cat. No. GSDH120 Roller Guide (see above) to provide a positive stop in the open or closed position. Each Stop comes complete with fastener to attach to Top Track. No drilling required. Set includes one right hand and one left hand Stop.

CAT. NO.	FINISH
GSDH150BS	Brushed Stainless
GSDH150PS	Polished Stainless
Minimum order: 1 set.	

Top Track End Cap

 Available in Brushed or Polished Stainless Steel

CRL GSDH160 Top
Track End Caps are used
with Cat. No. GSDH140 Top
Track with Cover (see above)
to create a clean, finished
header assembly. Made of

CRL's Versatile SPS Stacking Partition System Featuring Intelli-Track®

- Provides the 'All-Glass' Look When Closed and the 'Wide Open' Look When Opened
- Glass Panels Disappear From Sight When Parked in the Parking Closet
- Convertible System Available When a Pivot Door is Required
- A Large Variety of Parking Configurations to Accommodate Almost Any Installation
- Glass Panels Can Be Simply Stacked Against the End Wall or Stored Out of Sight in a Closet
- Structural Engineering Required by Customer*

The most versatile option for 'all-glass' walls and partitions is CRL's patented Stacking Partition System, or 'SPS' for short. When you specify the SPS your installation options are virtually unlimited because the individual SPS components allow you to design stacking doors to fit almost any situation. Whether you need to partition off interior spaces, or provide movable 'all-glass' doors for a storefront or other public areas, you can select SPS with full assurance that the system will be easy to work with, easy to install, and easy to operate.

CRL Technical Sales is your source for detailed information on the SPS, and we invite you to contact us at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Please ask for Ext. 7700. You can send e-mail to **architectural@crlaurence.com**. *WARNING: It is the customer's responsibility to consult with a structural engineer to calculate the required support for the system and safe substrate attachment.

U.S. Patents 8,590,233 and 7,861,475 Canadian Patent 2659885 Commonwealth of Australia Patent 2009201185 European Patent 2108755

Typical Applications:

- Retail Stores and Malls
- Banquet Halls
- Restaurants and Eateries
- Convention Centers
- Automobile Dealerships
- Stadium Club Boxes
- Reception Areas
- Pool Houses
- Recreation Centers
- Commercial Offices

For more information on Stacking Partition Systems go to crlaurence.com/partition-systems

CRL SPS Stacking Partition System With Convertible Sliding/Pivoting Doors

- SPS Doors Can Pivot and Slide
- Fully Adjustable Closing Features
- 6" (152 mm) Rails Top and Bottom
- Available in Five Architectural Finishes
- Custom Finishes Available on Special Order
- Patented Convertible Door System
- Structural Engineering Required by Customer*

STACKING PARTITION SYSTEM

Convertible Doors not only pivot, but they also slide and stack away, giving you the look of a standard pivoting door entrance with the ability to slide and stack away all the panels, even the pivoting doors.

Pivoting Doors are easily converted to Sliding Panels and back again by a simple 'one screw' Coordinator at the top of the door, and our fully concealed 'single lever' Closer Engagement Mechanism at the bottom of the door. A heavy-duty floor closer is concealed in the bottom rail of the door, eliminating the unsightly cover plates across the center of the opening when the panels are stacked away. *WARNING: It is the customer's responsibility to consult with a structural engineer to calculate the required support for the system and safe substrate attachment.

U.S. Patents 8,590,233 and 7,861,475 Canadian Patent 2659885 Commonwealth of Australia Patent 2009201185 European Patent 2108755

'One Screw' Top Coordinator Allows Conversion of Pivoting Doors to Sliding Panels and Back Again

Heavy-Duty Floor Closer and Engagement Mechanism Concealed in the Bottom Rail

CRL SPS Stacking Partition System With Convertible Sliding/Pivoting Doors

U.S. Patents 8,590,233 and 7,861,475 Canadian Patent 2659885 Commonwealth of Australia Patent 2009201185 European Patent 2108755

As Easy as One, Two, Slide...

Our engineers developed an easy to use system that allows you to convert our popular SPS Sliding Doors into Pivoting Doors! The CRL Convertible SPS Door functions and appears to be just a standard door. However, with two simple adjustments, your pivoting door is ready to slide and stack away with the rest of the glass wall, leaving you with a completely open entrance. There is no unsightly floor closer in the floor; only a small round stainless steel cover concealing the pivot receiver can be seen.

Step 1: Engage the Overhead Rollers

Using the supplied Cat. No. 90SSW Speed Wrench, a few quick turns engages the Carrier Track for the Intelli-Track™ Rollers suspending the door from the Top Track.

After the Top Rollers are engaged, use the supplied Cat. No. 90SCW Closer Wrench to raise the Closer Spindle out of its receiver in the floor. A quarter of a turn is all it takes and your pivoting door is now a slider!

With the Top Rollers engaged and the Closer Spindle retracted, you can now stack all the panels of your SPS System neatly away, transforming the storefront into a completely open entrance with no doors or panels to be seen!

Simply reverse the process to convert the sliding stacking doors back to pivoting doors. It's just that simple!

For more information, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send e-mail to **architectural@crlaurence.com**.

CRL SPS Stacking Partition System Featuring Intelli-Track® With Parking Area

- Intelli-Track® Rollers Work With Both Manual and Self-Guiding Intersections to Provide Directional Control
- Available in Five Finishes for 1/2" and 3/4" (12 and 19 mm)) Tempered Glass
- Custom Finishes Available
- Overhead Tracks and Intersections are Available in Mill Aluminum and White Powder Paint (Other Finishes on Special Order)
- A Full Selection of Accessories to Accommodate Most Applications
- In-House Technical Sales Staff to Assist You in Planning Your Installation
- Structural Engineering Required by Customer*

STACKING PARTITION SYSTEM BY C.B. LAURENCE COMPANY

U.S. Patents 8.590,233 and 7.861,475 Canadian Patent 2659885 Commonwealth of Australia Patent 2009201185 European Patent 2108755

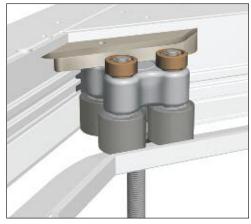

The CRL Intelli-Track® Roller provides a large weight carrying capacity of 470 pounds (213 kg), along with the convenience of directional control when used with Self-Guiding Intersections. It also prevents accidental door panel rotation in both Manual and Self-Guiding Intersections. Heavy-duty construction will provide years of service. The Intelli-Track® Roller is adaptable for use in all of our door rails and framed doors.

Two styles of Overhead Tracks are available: Standard, for almost any installation; and Flanged, for drop ceiling installations. Both are available in mill aluminum and powder painted white 120" and 240" (3.05 and 6.10 m) stock lengths along with 14 different matching finish intersections. A variety of Door Rail configurations and finishes are available to meet your design criteria. Latches, locks, and alignment pins, when used in conjunction with our dustproof keepers, secure the doors in place when in the closed position.

Our Technical Sales Team is here to help you plan and design your project. We also provide drawings, glass sizes, and installation suggestions after you place your order. Contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com. *WARNING: It is the customer's responsibility to consult with a structural engineer to calculate the requried support for the system and safe substrate attachment.

NOTE: System supports panels up to 470 pounds (213 kg). It is recommended that individual panels not exceed this weight, or any of the following measurements:

1/2" (12 mm) Glass Panels - 120" (3.05 m) Maximum Height; 72" (1.83 m) Maximum Width 3/4" (19 mm) Glass Panels - 156" (3.96 m) Maximum Height; 72" (1.83 m) Maximum Width.

CRL Intelli-Track® Roller

- Intelli-Track® Rollers Work With Both Manual and Self-Guiding Intersections to Provide Directional Control and Prevent Accidental Panel Rotation
- Two Rollers per Panel Will Support 470 Pounds (213 kg)
- Narrow Housing Width Allows for 2-7/8" (73 mm) Center-to-Center Door Rail Spacing in the Parking Area
- Structural Engineering Required by Customer*

The CRL Intelli-Track® Roller provides a large weight carrying capacity of 470 pounds (213 kg), along with the convenience of directional control when used with Self-Guiding Intersections. It also prevents accidental door panel rotation in both Manual and Self-Guiding Intersections. Heavy-duty construction will provide years of service. The Intelli-Track® Roller is adaptable for use in all of our door rails and framed doors.

***WARNING**: It is the customer's responsibility to consult with a structural engineer to calculate the required support for the system and safe substrate attachment.

Adaptable to a Variety of Panel Types

The Intelli-Track® Roller Assembly was designed to fit our standard DRS Door Rails. Also, by special order, CRL's Engineering Department can design custom mounting hardware to adapt SPS Track and Roller Assemblies to work with your custom panels. Whether you are using our DRS Rails or your own custom panels, make the CRL Stacking Partition System your choice for your overhead sliding or stacking partition needs.

For more information, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

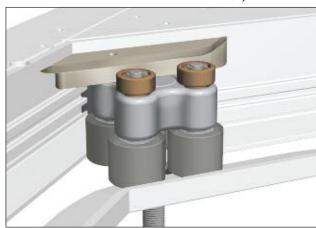

U.S. Patents 8,590,233 and 7,861,475 Canadian Patent 2659885 Commonwealth of Australia Patent 2009201185 European Patent 2108755

CRL Dry Coating, Lubricant, and Release Agent

- Provides Excellent Lubrication for Our SPS Stacking Partition System
- Contains No Silicone or Oil

This CRL Dry Coating, Lubricant, and Release Agent is an excellent lubricant for use on our SPS Stacking Partition System. The dry lubricant and coating reduces friction, inhibits resin build-up, and prolongs working life. Twelve each 12 ounce (340 g) cans per case. Minimum order is one each.

Our Most Popular SPS Parking Configurations

- Five Standard Types of Parking Configurations Available to Accommodate Almost Any Installation Requirement
- Perpendicular and Parallel Stacking of Doors Makes the Best Possible Use of Available Space
- The Widest Possible Openings for Unimpeded Foot Traffic or 'Wide Open' Viewing
- All Parking Areas Come Pre-Assembled for Strength and Ease of Installation
- Structural Engineering Required by Customer*

Parking configurations for Stacking Partition System Doors can be designed to make the best possible use of available space. This allows the widest possible openings for unimpeded foot traffic and the 'wide open' look.

Self-Guiding Corners and Intersections make moving doors into the parking closet smooth and almost effortless. The option of two Overhead Track designs, Standard and Flanged, plus Custom Curved Overhead Track, assure that a Stacking Partition System can be tailored to meet your specific needs.

NOTE: Pivoting doors are shown in red; Stacking doors are shown in blue.

*WARNING: It is the customer's responsibility to consult with a structural engineer to calculate the required support for the system and safe substrate attachment.

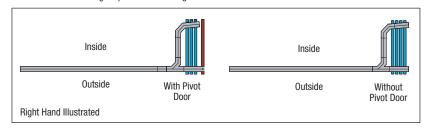

U.S. Patents 8,590,233 and 7,861,475 Canadian Patent 2659885 Commonwealth of Australia Patent 2009201185 European Patent 2108755

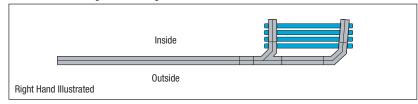

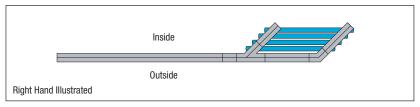

TYPE 1 - Self-Guiding Perpendicular Parking

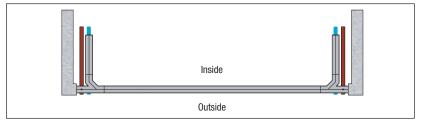

TYPE 2 - Self-Guiding Parallel Parking

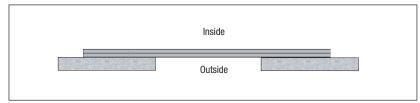

TYPE 3 - Self-Guiding 135 Degree Parallel Parking

TYPE 4 - Bi-Parting Perpendicular Parking with Pivot Doors (Four Panels Maximum)

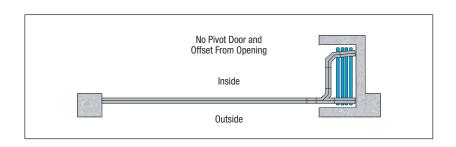

TYPE 5 - Bi-Parting No Parking

Custom SPS Parking Configurations Available

For assistance with parking configuration selection and design, contact Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, Ask for Ext. 7700. You may also send e-mail to architectural@crlaurence.com.

CRL SPS Track Suspension System Mounting Components ARCHITECTURAL SPECIFICATIONS

- Track Mounting Assistance
- Structural Engineering Required by Customer*

STACKING PARTITION SYSTEM

U.S. Patents 8.590,233 and 7.861,475 Canadian Patent 2659885 Commonwealth of Australia Patent 2009201185 European Patent 2108755

Proper mounting of the CRL SPS Overhead Track is crucial to the performance of the entire system. Since this is a suspended system, all the weight of the panels must be supported by the overhead track, and ultimately by the substrate and the fasteners used to hang the track. So we developed a Track Suspension System to accommodate multiple attachment elevations on a single run of SPS Track.

In a perfect world, the overhead track can be attached directly to the substrate, however, actual job conditions do not always allow for this, so we developed a complete line of Track Suspension Mounting Components to help overcome a variety of common installation obstacles. The various combinations of these components will allow you to properly secure the SPS Track around ductwork, beams or other obstructions commonly found above a drop ceiling. Consult a structural engineer for the proper fasteners to attach these components to the structure.

CRL Technical Sales can assist in choosing the right combination of mounting hardware for your particular job. For assistance contact us at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

*WARNING: It is the customer's responsibility to consult with a structural engineer to calculate the required support for the system and safe substrate attachment.

With the right combination of SPS Track Suspension System Mounting Components, you can safely install a beautiful Stacking Partition System just about anywhere there is a suitably sound structure to support its weight.

For design assistance contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 in Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

*WARNING: It is the customer's responsibility to consult with a structural engineer to calculate the required support for the system and safe substrate attachment.

CRL Easy Slide SPS Stacking Partition System

- Slim 1-1/8" (29 mm) Wide Top and Bottom Rails
- Directional Rollers Guide Glass Panels Effortlessly Every Time
- Panels Simply Stack Away, Creating Large Openings or Clear Space
- System Offered in Choice of Brushed Stainless, Polished Stainless, and Satin Anodized
- Top Tracks Available in Satin Anodized or White Powder Coat
- For Use With 3/8" and 1/2" (10 and 12 mm) Tempered Glass (Not Included)
- Each Unit is Customized Per Chosen Parking Configuration
- Structural Engineering Required By Customer*

CRL introduces our NEW Easy Slide SPS Stacking Partition System to complement our original award winning SPS System, and to offer our customers a more economical option to accommodate their stacking partition needs.

The Easy Slide SPS Stacking Partition System is available with top and bottom rails in brushed or polished stainless steel, and satin anodized. This system is designed for use with 3/8" and 1/2" (10 and 12 mm) fully tempered monolithic glass (not included).

The Top Track, Corners and Intersections furnished with every system are available in satin anodized or white powder coat. The design configurations are numerous and can fulfill most any design requirement. We have four standard parking configurations, with custom configurations available.

*WARNING: It is the customer's responsibility to consult with a structural engineer to calculate the required support for the system and safe substrate attachment.

NOTE: System Panels must not exceed any of the following guidelines:

Sliding Panels - Full Rails:

Maximum Panel Height: 120" (3.05 m) Maximum Panel Width: 42" (1.06 m) Minimum Panel Width: 24" (610 mm) Maximum Panel Weight: 228 pounds (103 kg)

Pivoting Panel:

Maximum Panel Height: 120" (3.05 m) Maximum Panel Width: 39-3/8" (1 m) Maximum Panel Weight: 220 pounds (100 kg)

CRL Custom Entrances

- Your Ideas Become Reality With Custom Fabrication by CRL
- Engineers Available for Testing, Shop Drawings, and Production Support
- State-of-the-Art Manufacturing Offers **Short Lead Times**

CRL's Rapid Customization Program offers the shortest possible lead times in the industry from sketch, to quote, to fabrication, then on to delivery. This is done several ways, and an important factor is keeping the entire process "in-house". Allowing CRL Manufacturing to control such processes as drafting, modeling, raw material procurement, cutting optimization, high-speed fabrication, finishing, powder coating, batch painting, packing, and shipping all makes for efficient and speedy delivery of your Custom Entrances.

Balanced Doors and Entrances

- Custom Manufactured to Withstand the Most Demanding Design Requirements
- Neutralizes Wind and Stack Pressure for Easy Operation
- Requires Less Operating Space Than Conventionally Hinged Doors
- "Barrier Free Door"; Meets A.D.A. Requirements Without Power Operators
- Provides Strength and Durability Throughout Years of Heavy Use
- For Doors Weighing Up to 700 Pounds (318 kg)
- Automatic Operators Available With Premium Series Only
- Fast Turn-Around Times
- 10 Year Warranty

Value-minded construction and growing urbanization constantly drive the demand for better-performing, economically viable entrance systems. CRL-U.S. Aluminum welcomes this challenge, introducing the latest edition to our extensive line of door systems, Balanced Doors.

CRL-U.S. Aluminum Balanced Doors deliver an entrance solution that is rugged, performance-driven, and truly remarkable. Manufactured to withstand the most demanding design requirements, Balanced Doors are ideally suited for commercial projects with monumental entrances requiring oversized, heavy doors. Not only do they require less operating space than conventionally hinged doors, they also qualify as a "barrier free" door, meeting A.D.A. requirements without power operators, and allow for the easy operation of doors weighing up to 700 pounds (318 kg).

Our comprehensive selection of Balanced Doors and Entrances offers a variety of options that will fit any budget. Our advanced production capacity affords us the ability to offer Balanced Door options at prices and lead times competitive with standard commercial entrance doors. Our custom fabrication capabilities, dedicated engineering staff, and honed craftsmanship permit endless possibilities in design, finish, and functionality.

We are pleased to present to you our line of Balanced Doors; a collection that effectively demonstrates the performance and craftsmanship you've come to expect from the globally-recognized leader in innovative entrance solutions - CRL-U.S. Aluminum.

What is a Balanced Door?

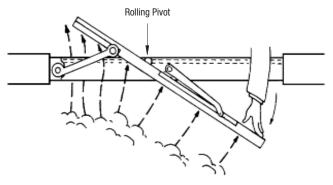

In a Balanced Door the door panel rotates around a rolling pivot in an elliptical path to provide the widest possible opening with the smallest swing arc (see diagram below). This design neutralizes two naturally occurring pressures, atmospheric (wind) and interior stack pressure, allowing effortless opening and positive closing. Balanced Doors are typically required when a commercial project has a monumental entrance, requiring an oversized, heavy door. The 'balanced' principle permits the use of these monumental doors where ordinary closer mechanisms would fail to offer adequate control.

Balanced Door Design Offers Many Advantages

When our Balanced Doors open, approximately two thirds of the door swings outward while one third swings inward, allowing wind or stack pressure to assist rather than hinder the operation of the door. Air pressure balances itself out around the rolling pivot, so less force is needed to operate the door.

WIND	BALANCED DOOR WITH 5 LBS. SPRING PRESSURE	REGULAR DOOR WITH 5 LBS. SPRING PRESSURE
m.p.h.	lbs. pressure to open	lbs. pressure to open
10	1 + 5 = 6 lbs.	3 + 5 = 8 lbs.
20	3 + 5 = 8 lbs.	11 + 5 = 16 lbs.

Balanced Door Mechanics

The door pivots on two single-piece cast bronze or stainless steel arms located at the top and bottom of the door. These are attached to a pivoting hinge tube that runs the entire height of the door. The hinge tube contains a torsion bar that provides the closing force for the door, and is connected to a hydraulic checking device located in the header, and a tension adjusting gear box at the sill.

Balanced Door Types

Aluminum Stile + Rail
Full-Framed

Formed Bronze / Steel
Full-Framed Monumental

'All Glass' Frameless Balanced Doors and Frames

- Available With 4", 6" or 10" (102, 152 or 254 mm) Tall Square Profile Door Rails
- Six Standard Architectural Finishes, With Custom Finishes Available
- Maximum Door Size is 48" Wide x 120" High (1219 x 3048 mm)

CRL-U.S. Aluminum Balancer™ 'All Glass' Frameless Balanced Doors offer all of the perfomance benefits of a standard Balanced Door without compromising the improved aesthetics offered by 'All Glass' entrances and storefronts. CRL-U.S. Aluminum Balancer™ 'All Glass' Frameless Balanced Doors come completely glazed with either 1/2" or 3/4" (12 or 19 mm) fully tempered glass, and are available with or without mini vertical stiles. 4" or 6" (102 or 152 mm) rails top and bottom are required, with optional 10" (254 mm) bottom rails to meet A.D.A. requirements. Balanced Door packages are available with concealed or exposed vertical tubes, and are 'install ready' when shipped. There is no additional cutting or prepping required, simply install the header or frame, hang the pre-glazed door panel(s) and make a few final adjustments to complete your installation.

Balancer™ Series Extruded Aluminum Balanced Doors and Frames

- The Affordable Balanced Door for Budget-Sensitive Jobs
- 6063-T5 Alloy Available in Clear or Dark Bronze Anodized and Powder Coat, Newlar, and KYNAR® Finishes

CRL-U.S. Aluminum Balancer™ Extruded Aluminum Standard Balanced Doors and Frames offer the look of a Formed Monumental Door at the cost of a clad aluminum door. Balancer™ Series Aluminum Balanced Doors are fabricated from tubular aluminum extrusions with a wall thickness of 3/16" (5 mm). The door features job-tested, mechanically fastened and welded corner construction to provide long-lasting performance and durability. CRL-U.S. Aluminum offers narrow, medium, and wide stile doors with a minimum bottom rail height of 6" (152 mm). The Balancer™ Series features rugged 6063-T5 alloy stiles and rails available in clear or dark bronze anodized finishes. Custom powder coat, Newlar, and Kynar® finishes are also available, as well as cladding options in nine finishes. CRL-U.S. Aluminum can complete your opening by providing matching frames, storefronts, and curtain walls, creating a cohesive, architecturally pleasing entrance. These entrances can easily accommodate a wide variety of stock and custom hardware for specific job requirements.

Code-Compliant Panic Devices Exclusively Designed for Balanced Doors (see page 258Z).

Advantages of the Balancer™ Series **Balanced Doors By CRL**

- Cost Effective Alternative to Standard Entrance Doors
- Maximum Size for Balancer[™] Series is 48" Wide x 120" High (1219 x 3048 mm)
- Allows Wind and Stack Pressures to Work for You Instead of Against You
- Assures Easy Operation and Positive Closing, Even Under Adverse Conditions
- Designed With Dependable LCN® Hydraulic Check Connected Directly to Door
- Adjustable Hydraulic Back Check for Consistently Smooth Operation

- Latching Speed, Closing Speed, Back Check, and Spring Power are All Adjustable Without Removing Hardware or Covers
- Compact Header With Integral Guide Track
- Requires Less Operating Space Than Conventionally Hinged Doors
- Hardware is Fully Capable of Supporting and Controlling Large and Monumental Doors
- Easily Installed in New or Remodeled Buildings, Exterior or Interior

CRL BALANCED DOORS AND ENTRANCES MORE CHOICES

Premium Series Formed Bronze Monumental Balanced Doors and Frames

- Alloy 464 Naval Bronze Available in Polished, Brushed, Non-Directional, and Oil Rubbed Finishes
- Ribbon Accent Lines and Custom Infill Shapes Available
- Automatic Operator Available
- Maximum Door Size is 48" Wide x 120" High (1219 x 3048 mm)

CRL-U.S. Aluminum Premium Series Formed Bronze Monumental Balanced Doors and Frames are constructed of 13 gauge Alloy 464 Naval Bronze, providing superior strength and excellent corrosion resistance. All doors are custom designed and engineered to your specifications. Our in-house ability to create custom ribbon accents, embossed patterns, and custom ornamental infill shapes yield virtually limitless design options. State of the art waterjet technology ensures precision cuts without heat affected zones or markings.

NOTE: Stile width is 2" (51 mm) with a minimum top rail height of 3-1/2" (89 mm) and a minimum bottom rail height of 4-3/4" (121 mm). Available in polished, brushed, non-directional and oil rubbed finishes.

Premium Series Formed Stainless Steel Monumental Balanced Doors and Frames

- 304 or 316 Grade Stainless Steel Available in Polished, Brushed and Non-Directional Finishes
- 'Crisp' Corner Construction Available
- Ribbon Accent Lines and Custom Infill Shapes Available
- Automatic Operator Available
- Maximum Door Size is 48" Wide x 120" High (1219 x 3048 mm)

Discerning architects specify the CRL-U.S. Aluminum Premium Series when the project demands an entrance that makes a bold statement. The pinnacle of performance and aesthetics, CRL-U.S. Aluminum Premium Series Formed Stainless Steel Monumental Balanced Doors provide clean lines, detailed articulation, and superb operation. Premium Series Formed Stainless Steel Monumental Balanced Doors and Frames are constructed from 13 gauge 304 or 316 grade stainless steel to ensure structural integrity and long-lasting performance.

With our laser cutting capabilities we can produce practically any infill panel or overlay with clean oxide and burr free cut edges, giving architects and designers the freedom to create any custom design.

NOTE: Stile width is 2" (51 mm) with a minimum top rail height of 3-1/2" (89 mm) and a minimum bottom rail height of 4-3/4" (121 mm). Available in polished, brushed, and non-directional finishes.

Anatomy of Balanced Doors Balancer[™] Versus Premium Series (Side-By-Side Comparison)

#	COMPONENT DESCRIPTION	BALANCER™	PREMIUM
1	HINGE TUBE - Cold drawn butt weld carbon steel tube to support tall or heavy doors. Covered with corrosion resisting sleeve. Optional metal sleeve in matching finish for exposed hinge tube construction.	/	/
2	HINGE TUBE JAMB - Hinge tube jambs may be of contemporary narrow line or traditional box shape. May be exposed or concealed in the mullion.	/	\
3	ARMS AND PIVOTS - High strength wrought metal finished to architectural specifications. Pivot bearings rated to easily support a door weighing up to 700 lbs. (318 kg). Arms are field replaceable in case of damage.	/	/
4	GEAR BOX - Self-aligning, anti-friction bearings and gears can support a weight of 2330 lbs. (1057 kg), and handle a radial load of 3400 lbs. (1542 kg).	/	
5	BALANCING GUIDE ROLLER - Rigidly mounted, yet self aligning to overcome any misalignment between door and frame. Sturdy and maintenance free.		
6	HYDRAULIC CHECK - Completely concealed in the header. Dependable and easy to adjust without removing hardware or covers. A hydraulic back check cushions the limiting point of the door swing.	/	
7	CAST BRONZE HYDRAULIC CHECK - Completely concealed in the header. Has first and second speed adjustment. Removable without requiring the removal of the door.		/
8	COMPACT HEADER - Header with integral guide roller track, requires only 2-7/8" x 4-1/2" (73 x 114 mm) above door to house the Hydraulic Check.	/	1
9	FORMED DOORS AND FRAMES - Solid and welded stainless steel and brass monumental doors and frames, formed to custom dimensions and constructed to ensure structural integrity and long lasting performance.		/
10	OPTIONAL MOTORIZED OPERATOR - Heavy-duty (low energy) concealed overhead electromechanical power operator with control box, conforming to ANSI/BHMA A156.19. Motor permanent magnet, DC 3/16 HP (minimum), 1.25 AMP, 120V AC, UL listed. Adjustable slow opening speed and adjustable time delay.		✓

CRL-U.S. Aluminum Mojave Series Advanced Thermal Entrance Doors

- Uses Polyamide Struts and Advanced Internal Insulation for Optimal Thermal Performance
- Meets California Title 24 Requirements Using Both Area Weighted Prescriptive and Performance Calculation **Approaches**
- Available in Narrow, Medium. and Wide Vertical Stiles

NEW!

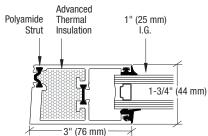

- Compatible With a Wide Range of Standard Architectural Locking and Mounting Hardware
- Ideal for Retrofit Applications
- Accommodates 1" (25 mm) Insulating Glass

Mojave is an entrance and storefront system that can produce California Title 24 compliant configurations using both the "Prescriptive" and "Performance" approaches. Polyamide struts and advanced internal thermal insulation produces an energy efficient door that is only 1-3/4" (44 mm) thick. This traditional door thickness makes Mojave compatible with a broad range of existing hardware, and Mojave can be used to upgrade pre-existing entrances that have monolithic glass. Available with narrow, medium, and wide vertical stiles and virtually any finish desired. It's no longer necessary to give up the beauty and compatibility of slender door profiles to achieve high thermal efficiency.

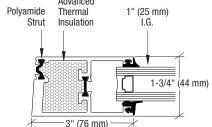

For additional information, contact CRL-U.S. Aluminum Technical Sales at (800) 262-5151 in the U.S. and Canada, or (323) 268-4230 International. Ask for Ext. 5305. You can e-mail us at usalum@crlaurence.com.

CRL-U.S. Aluminum Mojave Series Advanced Thermal Entrance Doors

NEW!

- Only 1-3/4" (44 mm) Thick
- California Title 24 Compliant Using Both Area Weighted Prescriptive and Performance Calculation Approaches
- Ideal for Retrofit Applications
- Available in an Array of Architectural Coatings and Anodized Finishes

Our Mojave Series is engineered for optimal thermal performance and California Title 24 compliance. Title 24 is difficult to navigate and comply with but Mojave Series takes the guesswork out of meeting the stringent energy codes specified in the program. CRL-U.S. Aluminum can provide project specific performance data that is required for preparation of the California Title 24 calculations.

Contact CRL-U.S. Aluminum Technical Sales at (800) 262-5151 in the U.S. and Canada, or (323) 268-4230 International, and ask for Ext. 5305. You can also send e-mail to usalum@crlaurence.com.

CRL Platinum Series Full Framed Architectural Doors

- Designed, Engineered, and Manufactured by CRL
- No Exposed Glass Stops
- Accepts 1/4" to 1" (6 to 25 mm) Monolithic, Laminated or Insulating Glass
- Narrow, Medium, and Wide Stiles to Choose From
- Clad Aluminum Construction
- Seven Standard Architectural Finishes Available

CRL manufactures a full line of Full Framed Architectural Doors for interior and exterior applications. These innovative door systems are available in seven standard architectural finishes, with custom finishes available on special order.

CRL's Platinum Series Full Framed Doors are made to order and can be designed for almost any application. With the ability to prep and install almost any architectural hardware configuration, we are confident we can meet your design requirements. We offer a wide selection of top and bottom rail sizes. Mid-rails or applied mullions can be incorporated.

With all of our Platinum Series Full Framed Doors you have three standard rail options for the top and bottom rails: 4", 5", and 10" (102, 127, and 254 mm). We can also provide custom height rails to meet your needs. For additional product information visit our website at crl-arch.com or contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. CRL-U.S. Aluminum 800 and 850 Series **Durafront Center Pivot and Offset Pivot Doors**

- Aluminum Doors for Extremely Heavy Traffic Applications
- 3/16" (5 mm) Wall Thickness
- Accommodates 1/4" (6 mm) Tempered or 1" (25 mm) Insulating Glass (Not Included)
- Choice of Standard or A.D.A. Access Bottom Rails
- Lifetime Warranty on Mechanically Fastened and Welded CORNER-LOC® Corner Construction
- Clear Anodized and Bronze Anodized in Single or Pairs of Doors

Durafront Doors and Frames are fabricated from tubular aluminum extrusions with a wall thickness of 3/16" (5 mm). These extra strong, long-lasting entrance packages are ideal for locations subjected to extremely high traffic flow.

Durafront Entrance Packages, which are offered for center and offset pivot doors, can be easily adapted to most U.S. Aluminum Framing Systems. The door features mechanically fastened and welded corner construction. Offset pivot doors are supplied with a pair and a half of heavy-duty hinges, pivot sets or a continuous geared hinge. A variety of custom hardware is available upon request. For additional information contact our Technical Sales Staff at (800) 262-5151 in the U.S. and Canada, or (323) 268-4230 International, ask for Ext. 5305. You can also send email to

CRL-U.S. Aluminum 900 Series Terrace Doors

- NEW Adjustable Pivot Hinge
- 1" x 4-1/2" (25 x 114 mm) Framing
- AW-PG80 Rated ATD for Single Out-Swing
- HC-40 Rated ATD for Pair Out-Swing
- Standard Threshold Available for In-Swing or Out-Swing Doors
- Available in Painted or **Anodized Finishes**
- Five-Point Locking Device for Single
- Seven-Point Locking Device for Pairs
- Accepts 1" (25 mm) Insulating Glass
- Thermally Broken
- Available With Transom or Sidelite

The 900 Series Terrace Door is a high performance swinging door ideal for hotels, lofts, condominiums, and high-rise apartments. The Terrace Door will withstand heavy traffic and the worst of weather conditions while maintaining its elegant styling. Standard threshold versions are available in either in-swing or out-swing, single or double doors with transom or sidelite.

The 2-1/4" (57 mm) thick door with a 1" x 4-1/2" (25 x 114 mm) frame features double polyamide glass reinforced strips providing superior interior to exterior thermal separation.

For maximum security, the Series 900 Terrace Door includes a five-point locking device on single doors and seven-points on pairs. Three each five-knuckle hinges, with non-removable stainless steel pins, or our adjustable pivot hinge complete the sturdy look and feel of the Series 900 Terrace Door.

For additional information go to crlaurence.com/entrances or contact CRL-U.S. Aluminum Technical Sales at (800) 262-5151 in the U.S. and Canada, or (323) 268-4230 International, and ask for Ext. 5305. You can also send email to usalum@crlaurence.com.

Three Lever Handle Styles With 12 Finish Options

CRL-U.S. Aluminum 925 Series Patio Doors

CRL Continuous Hinges

100 and 150 Series Full Surface Hinges

200 and 250 Series Full Surface Hinges

300 and 350 Series Concealed Leaf Hinges

400 and 450 Series Concealed Leaf Hinges

- Four Models Available in Standard or Heavy-Duty
- Satin Anodized and Dark Bronze Anodized Finishes

CRL Continuous Hinges are made of high strength aluminum with a full-length rolling gear profile to align doors perfectly from top to bottom. Special self-lubricating polyacetal load bearing blocks deliver smooth, almost floating operation on even the heaviest doors. Hinges are completely secure because all mounting hardware is hidden when installed. Easy to install CRL Continuous Hinges come with instructions and all necessary hardware for mounting. Replacement Screw Packs and Screw Covers are also available separately for on the job repairs.

FEATURES AND BENEFITS

All Hinges are anodized after machining is done to provide longer life and reduce corrosion.

Standard Duty Hinges have 16 load bearing blocks for doors up to 200 pounds (90 kg). Heavy-Duty Hinges have 32 load bearing blocks for doors up to 600 pounds (272 kg) if attached with Rivet-Nuts.

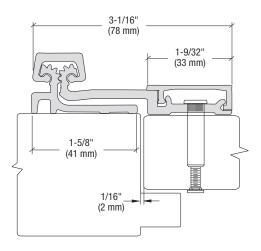

Precision extruded components deliver smooth operation and long service life.

Our hole pattern is designed to speed up installations, but still provide the required attachment points needed to carry the weight.

CRL 100 and 150 Series Full Surface Continuous Hinges

- Standard Duty Hinges for Doors Weighing Up to 200 Pounds (90 kg)
- Heavy-Duty Hinges for Doors Weighing Up to 600 Pounds (272 kg)
- Available in Satin Anodized and Dark Bronze Anodized Finishes

These CRL Full Surface Continuous Hinges have load bearing blocks every 5-1/8" (130 mm) on the Standard Duty Hinge, and every 2-9/16" (65 mm) on the Heavy-Duty Hinge. They are available in satin anodized and dark bronze anodized finishes. A pack of installation screws is included with each Hinge. Replacement Screws Packs and Screw Covers are also available separately.

CRL Universal Hinge Replacement Kit for Storefront Doors

- Universal Fit for Both Flush and 1/8" (3 mm) Recessed Doors
- Use for Doors Weighing Up to 300 Pounds (136 kg)
- Instant Adjustments to Fine Tolerances
- Smooth Bearing Action
- Self-Lubricating Pin

This Universal Hinge Replacement Kit is machined to the close tolerances required for heavy, continuously used commercial doors. The universal fit allows replacement of all storefront hinges without modification on both flush and 1/8" (3 mm) recessed doors. The secure, non-exposed hinge pins cannot be reached, removed or tampered with. The door weight is supported by a case hardened, self-lubricating pin and machine quality anti-friction roller with thrust bearings sealed in oil.

Each Hinge Kit Contains:

Two Hinges; Two 1/8" (3 mm) Thick Shim Plates; Four Screw Cover Plates; 12 One-Way Mounting Screws; One Hex Wrench; Complete Instructions

CAT. NO.	FINISH
DL1099A	Satin Anodized
DL1099DU	Bronze Anodized

Minimum order: 1 pair. All Storefront Hinges can be combined for quantity pricing.

CRL Reinforcement Backing Plates for Standard Weight Butt Hinge Installations

This CRL Reinforcement Backing Plate is designed to support Standard Weight BB10, BB15, BB30, BB35, BB40, BB45, and CB45 Style 4-1/2" (114 mm) Ball Bearing Butt Hinges when mounted to storefront tubes. They are non-handed, and made of heavy guage, plated steel. Plates are tapped for standard 12-24 machine screws to mount the Plate to the frame or door. Minimum order is one each.

- Used With BB10, BB15, BB30, BB35, BB40, BB45, and CB45 Style Standard Weight Butt Hinges
- Non-Handed, Can Be Used for Both Door and Frame Reinforcement

CRL Reinforcement Backing Plates for Heavy Weight Butt Hinge Installations

This CRL Reinforcement Backing Plate is designed to support Heavy Weight BB20, BB25, BB50, BB55, BB60, BB65, and S45 Style 4-1/2" (114 mm) Ball Bearing Butt Hinges when mounted to storefront tubes. They are non-handed, and made of heavy guage, plated steel. Plates are tapped for standard 12-24 machine screws to mount the Plate to the frame or door. Minimum order is one each.

- Used With BB20, BB25, BB50, BB55, BB60, BB65, and S45 Style Heavy Weight Butt Hinges
- Non-Handed, Can Be Used for Both Door and Frame Reinforcement

Von Duprin® 33A/35A Series **Panic Exit Devices**

- "The Quiet One® " Technology Eliminates Most Noise Associated With Exit Devices
- Designed for Doors 28" to 48" (711 to 1219 mm) Wide
- Fits Door Stiles as Narrow as 1-3/4" (44 mm)
- Available With Smooth or Grooved Housing
- Non-Handed
- UL Listed and Tested to ANSI A156.3. Grade 1
- Standard Hex **Key Dogging**

Von Duprin® designs and manufactures Exit Devices to the highest standards of quality and reliability in accordance with U.S. domestic and international standards. The Quiet One® technology is furnished on all 33A and 35A Series Exit Devices. A fluid dampener decelerates the pushpad on its return stroke and eliminates most noise associated with exit device operations. For additional Von Duprin® products and information, visit our web site at crlaurence.com/panic-devices.

CRL DOOR WEATHERIZATION

CRL Self-Adhesive Weatherstrip

 Available in 17, 100. and 500 Foot Rolls

Brown

Applied to a Door Jamb

Compresses When Door is Closed

CRL Self-Adhesive Weatherstrip is designed to be applied to the "stop" perimeter of a frame to prevent energy loss, reduce noise and dust infiltration. It will not crack or craze in cold or heat. Self-adhesive application makes installation easy and requires only scissors or a utility knife to cut to size. Tested in accordance with ASTM E-283 and listed by Warnock Hersey for use on labeled openings up to 90 minutes.

Typical installation in door stile

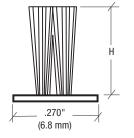

CRL Zipper Pile Weatherstrip is a full density, high performance, water-resistant pile woven to a unique zipper tooth design polypropylene backing. The new zipper tooth design allows the pile to easily snap into the extrusion slot from above rather than having to slide the pile in from the ends. Whether it's being used in manufacturing or retrofitted, the application is much easier and faster. It even works if the slot is slightly off size. Zipper Pile can be used to retrofit aluminum, vinyl, fiberglass or wood T-slots without the need to take the complete door or window apart. The double center fin provides a true weather seal, compared to other piles without a fin suited for vibration reduction and pest control only.

CRL Heavy-Duty Spider Fittings

PAGES 501Z-506Z

- Combination Glass
 Attachments for Use
 With 1/2" to 1-1/16"
 (12 to 27 mm) Tempered
 Glass and 1-1/4" (32 mm)
 Insulating Glass
- Post and Fin Mount Models
- Single Arm, Double Arm, Three Arm and Four Arm Models

'All-Glass' façades can be accomplished by using our stock Spider Fittings. The Spiders can be attached to vertical columns, vertical "I" beams, or vertical glass fins, giving the façade a look of glass sheets floating in space with no vertical or horizontal metal. Our personnel will guide you through the design and quotation process, and can also provide you with calculated and certified drawings, stamped by a licensed engineer for a modest fee.

CRL Regular Duty Spider Fittings

PAGES 507Z-513Z

- Combination Glass
 Attachments for Use
 With 3/8" or 1/2"
 (10 or 12 mm) Tempered
 Glass, and 9/16"
 (13.52 mm) Laminated
 Tempered Glass
- Single Arm, Double Arm, Three Arm, and Four Arm Models
- For Mounting to Posts, Walls, or Fins

Our line of Regular Duty Spider Fittings can be used for glass walls and canopies. We have one, two, three, and four arm fittings that can be mounted to posts, structural walls or fins. All CRL Spider Fittings and Glass Attachments are made of 316 Grade Stainless Steel to provide a virtually maintenance free design and beautiful finish to complement most of any décor.

CRL Mini Spider Fittings

PAGES 514Z-516Z

- For Use With 3/8" or 1/2" (10 or 12 mm) Tempered Glass or 9/16" (13.52 mm) Laminated Tempered Glass
- Single Arm, Double Arm, and Four Arm Fittings Available
- Combination Glass Attachments

Post Adapters

Our expanded line of Spider Fittings includes Mini Spider Fittings for use in interior dividers, displays, and hand railing applications. We have one, two, and four arm fittings that can be mounted to railing posts, structural walls or fins.

We offer two types of Combination Glass Attachments that can be used for any of these fittings. The Rigid Combination Attachment would be used in areas where movement of the glass (deflection) needs to be minimized. The Swivel Combination Attachment allows for six degrees of rotation in any direction, which can be used in segmented radius applications or in areas where the glass will get a small amount of dynamic loading.

A Large Stock Selection of Tested Spider Fittings for Every Type of Installation

- Heavy-Duty, Regular Duty, and Mini Spiders Available
- Designed for the 'All-Glass' Look
- Made of 316 Grade Stainless Steel
- For Mounting to Posts. Walls, and Column Fins
- Use Mini Spiders for Hand Rails, Guard Rails, and Awnings

All Glass Façades can be accomplished by using our stock Spider Fittings. The Spiders can be attached to vertical columns, vertical "I" beams, or vertical glass fins, giving the façade a look of glass sheets floating in space with no vertical or horizontal metal. The fittings and glass attachments come in regular duty and heavy-duty models that are tested and certified to meet your installation needs. Our personnel will guide you through the design and quotation process, and can also provide you with calculated and certified drawings, stamped by a licensed engineer for a modest fee.

For additional product information, visit our web site at crlaurence.com/spider-fittings. For technical assistance contact our Technical Sales Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Extension 7700. You can also send e-mail to architectural@crlaurence.com.

CRL Technical Information and Design Advice

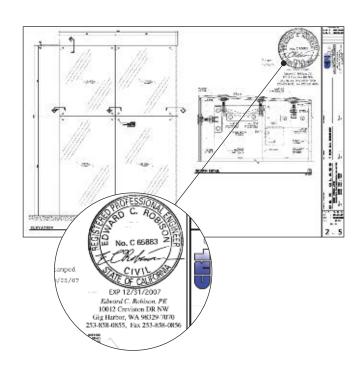

The first step in designing any façade that uses Spider Fittings is to discuss the general design. Our Technical Sales Representatives will be glad to go over the job requirements with you to gather enough information to create a quotation.

CRL Technical Drawings

The next step in the process is to create technical drawings and submit all the information required by the structural engineer to evaluate the system so that the customer and architect will approve it. CRL provides this design and layout phase at a reasonable price to our customers when accompanied with a purchase order for the system.

CRL Calculations and Structural Engineering

The final step in the process is to get a structural engineer's approval and supporting calculations on a stamped set of drawings. You can use your own structural engineer, or CRL can recommend one that has previously worked with this product line to assist you. NOTE: The structural engineer must be licensed in the state that the job is being completed. Critical weather conditions, such as hurricanes, might result in additional support being required (such as tension rods or cable tensioning) to meet the local building requirements. Unfortunately, unforeseen issues that are discovered during the engineering phase may require revised or additional shop drawings and may also affect the original quotation. Because of the critical nature of a Spider Fitting façade, the more detailed information acquired during the first step of the process will help to avoid costly additions later.

CRL Heavy-Duty Spider Fittings

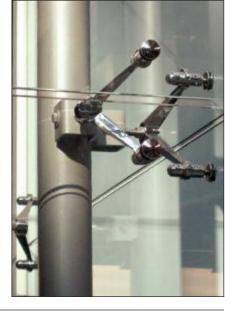

- For Use With 1/2" to 1-1/16" (12 to 27 mm) Tempered Glass and 1-1/4" (32 mm) Insulating Tempered Glass
- Spiders for Mounting to Posts, Walls or Fins
- Designed for the 'All-Glass' Look
- Combination Glass Attachments Same Attachment Can Be Used for Flush Mount or Cap Mount Applications – Rigid Head and Swivel Head Styles Available
- Made of 316 Grade Stainless Steel

For additional product information, visit our web site at crlaurence.com/spider-fittings. For technical assistance contact our Technical Sales Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also send e-mail to architectural@crlaurence.com.

CRL Combination Glass Attachments

• For Use With 1/2" to 1-1/16" (12 to 27 mm) Tempered Glass, and 1-1/4" (32 mm) Insulating Tempered Glass

Our Rigid Head Glass Attachments allow for a secure attachment and minimize the deflection of the glass panels. This type of fitting is typically used only for interior applications.

The head of the Swivel Head Glass Attachment can tilt up to 6 degrees in any direction on its ball and socket joint. This allows for any stress applied to the glass to be more evenly distributed across the entire panel of glass rather than concentrating at the hole. These are typically used in conditions where the glass will be subject to live loads. Model HS1GF14 is designed for use with 1-1/4" (32 mm) insulating tempered glass units only.

Our Rigid Head and Swivel Head Combination Glass Attachment Fittings can be used for 'flush' mounting for a smooth exterior surface when the glass is fabricated with a countersunk hole. We suggest when using the flush mount method that you give your glass fabricator a sample Flush Mount Glass Attachment to ensure a proper flush fit. This same Fitting can be used for 'cap' type mounting when using the supplied adaptor washer. This requires just a standard hole in the glass. Visit our web site at crlaurence.com/spider-fittings for more information.

or

CRL Combination Glass Attachments

• For Use With 3/8" or 1/2" (10 or 12 mm) Tempered Glass, and 9/16" (13.52 mm) Laminated Tempered Glass

The Rigid Head Attachments allow for a secure attachment and minimize the deflection of the glass panels. This type of fitting is typically used only for interior applications.

The head of the Swivel Glass Attachment can tilt up to 6 degrees in any direction on its ball and socket joint. This allows for any stress applied to the glass to be more evenly distributed across the entire panel of glass rather than concentrating at the hole. These are typically used in conditions where the glass will be subject to live loads.

Our Rigid Head and Swivel Head Combination Glass Attachment Fittings can be used for 'flush' mounting for a smooth exterior surface when the glass is fabricated with a countersunk hole. We suggest when using the flush mount method that you give your glass fabricator a sample Flush Mount Glass Attachment to ensure a proper flush fit. This same Fitting can be used for 'cap' type mounting when using the supplied adaptor washer. This requires just a standard hole in the glass. Visit our web site at **crlaurence.com/spider-fittings** for more information.

CRL GRS GATE HARDWARE

CRL North American Bottom Gate Patch Fitting

• 2-3/4" (70 mm) North American Pivot Setback

• For 3/8" or 1/2" (10 or 12 mm) Tempered Glass

GLASS FABRICATION REQUIRED:

One 3/4" (19 mm) Diameter Hole and Corner Notch

COMES WITH:

Template and Instructions

1NT301 Insert (Included)

CAT. NO.	GRADE OF COVERS	FINISH
PH10CBS	304	Brushed Stainless
PH10CPS	304	Polished Stainless

Minimum order: 1 each. All Patch Fittings can be combined for quantity pricing.

Works With:

Adjustable Bottom Free-Swinging Pivot

1NT402 **Bottom** Free-Swinging Pivot

1NT406 Adjustable Bottom Free-Swinging Pivot

CRL8300, CRL8400. CRI 8500, and J990 Series Floor Closers

CRL Adjustable Free-Swinging Bottom Pivot

- Has 3/16" (5 mm) Height Adjustment
- Can be Floor or Threshold Mounted

NOTE: Not For Pool **Applications**

CAT. NO. 1NT403 Minimum order is one each.

CRL Free-Swinging Bottom Pivot

• 7/8" (22 mm) Flat Tapered Spindle

 For Use With **Bottom Patches** and Rails

NOTE: Not For Pool **Applications**

CAT. NO. 1NT402 Minimum order is one each.

CRL Adjustable Free-Swinging Bottom Pivot

- Flat Tapered Spindle
- Provides 1/4" (6 mm) Height Adiustable

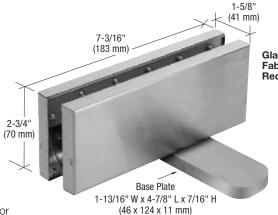

NOTE: Not For Pool **Applications**

CAT. NO. 1NT406 Minimum order is one each.

CRL Bottom Hydraulic Patch Fitting

- 2-9/16" (65 mm) European Pivot Setback
- For Interior Use Only
- Adjustable Closing and Latching Speed
- Self-Closing
- Hold-Open and No Hold-Open Models Available
- Brushed and Polished Stainless Steel Cover Plates
- For 3/8" or 1/2" (10 or 12 mm) Tempered Glass

The NEW CRL Bottom Hydraulic Patch Fitting is designed to eliminate the need to cut into the floor to install a conventional floor closer. Simply install by anchoring the base plate to the substrate. These double acting Patch Fittings can accommodate interior gates up to 176 pounds (80 kg), and feature a self-closing mechanism with adjustable closing and latching speed. Also available with a 90 degree hold-open function. Glass fabrication is required. *NOTE: 90 Degree Hold-Open Model is not for pool applications.

Glass **Fabrication** Required

NOTE: 2-9/16" (65 mm) European Setback is Standard, With 2-3/4" (70 mm) North American Setback Achievable Using Alternate Glass Fabrication

CAT. NO.	DESCRIPTION	FINISH
CRL380BS	No Hold-Open Hydraulic Patch	Brushed Stainless
CRL380PS	No Hold-Open Hydraulic Patch	Polished Stainless
CRL380HBS	*90 Degree Hold-Open Hydraulic Patch	Brushed Stainless

Our 487 Series Office Partition Frames for sidelites, doors, clerestory lites, borrowed lites, or continuous glass walls are a great way to divide interior office space and provide acoustical privacy, all while allowing desirable light to enter the indoor spaces and qualify for LEED® (Leadership in Energy and Environment Design) Green Building Rating System™ credit.

CRL-U.S. Aluminum offers a growing variety of Office Partitions and hardware to make state-of-the-art interior office systems available to the glazing industry. Our commitment to our customers is to carry sufficient inventories of popular stock items, and provide short lead times for special orders. It is a total program that will allow your entry into the Interior Office Front Systems market.

CRL 487 Series 1" or 2" **Trim Center Glazed Office Partition Systems**

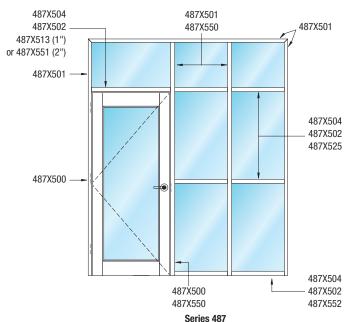

- Accommodates 4-7/8" (124 mm) Wall Thickness
- Center Glazed Available for 1/4", 3/8", 1/2", and 9/16" (6, 10, 12, and 14 mm) Glazing
- Designed for Top Load Gaskets
- Clear, Dark Bronze, and Black Anodized Finishes
- Custom Finishes Available Upon Request

487 Series 1" or 2" (25 or 51 mm) Trim Center Glazed Office Partition Extrusions are available in stock length form for many applications including Door Frames, Sidelites, Borrowed Lites, and Cased Openings. The unique framing members are designed for both clip joinery for quick on site installation, and screw spline assembly for shop fabrication. This allows units to be shipped to the job site knocked down, open panel assembly, or as shop glazed panels ready for installation into finished drywall openings. NOTE: For Fabricated Door Frames see page 533Z.

UEALUMINUM

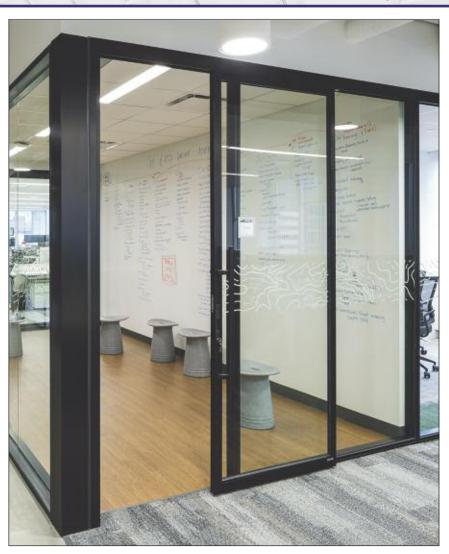

CRL 487 Series Integrated Top Hung Sliding Doors

- For Use with 1-3/4" (44 mm) Aluminum and Wood Doors, or 3/8", and 1/2" (10 and 12 mm) 'All-Glass' Doors
- Maximum Door Weight 200 Pounds (90 kg)
- Center Glazed Accepts 1/4", 3/8", 1/2" and 9/16" (6, 10, 12, and 14 mm) Glazing
- Fully Fabricated Frames Available for Fast and Easy Installation
- Includes 'Softbrake' Braking System (On 'All-Glass' Version Only)
- Variety of Pull Handles are Available

The 487 Series Integrated Top Hung Sliding Door is an expansion of our initial 487 Series Office Partitions offering that integrates a top hung sliding system into the 1-1/2" x 5-11/16" (38 x 144 mm) frame. Two separate but similar systems have been created to accommodate both 1-3/4" aluminum and wood doors or 'All Glass' doors weighing up to 200 pounds (90 kg). Systems come complete with perimeter door seals and new adjustable astragal for Bi-Parting Doors (see page 108Z).

For additional information, please visit us online at crlaurence.com/office-partitions or contact our Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7770. You can also email us at partitions@crlaurence.com.

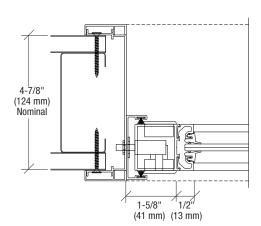

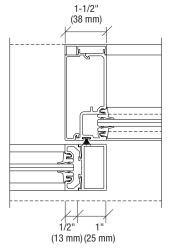

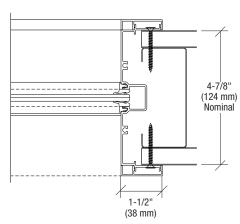

Shown With Typical 200 Series Narrow Stile Door

CRL 487-AR (Acoustically-Rated) Series Double Glazed Office Partition System

- Acoustically-Rated from STC 39 to 47
- Single and Double Door Frames Designed to Wrap 4-7/8" (124 mm) Walls
- Optional Mounting for Walls Greater Than 4-7/8" (124 mm)
- Clip Joinery
- 1-1/2" (38 mm) Face Trims Available
- Aluminum and Wood Doors Available
- Available in Individual Stock Lengths or Fully Fabricated Frame Kits
- Several Stock Finishes Available, With Custom Finishes on Request
- For Use With 1/4" or 3/8" (6 or 10 mm) Laminated Tempered Glass
- Can be Converted to Single Glazed with the Use of a Filler

The 487-AR (Acoustically-Rated) Series Double Glazed Office Partition System offers an optimal STC rating compared to traditional office partition systems. This reduces sound transmission while allowing ample natural light to flow through building interiors. The 487-AR Double Glazed Office Partition accommodates standard and acoustic doors, along with a variety of glass, including switchable privacy glass. Use Acoustical Sealant by others to achieve maximum STC Rating.

For additional information, visit us online at crlaurence.com/office-partitions or contact our Technical Sales Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7770. You can also email us at partitions@crlaurence.com.

CRL 487 Series Office Partition Door Frame Kits

- Up and Over Framing Kits for Single or Double Doors
- Stocked in Clear, Dark Bronze, and Black Anodized Finishes
- Six Standard Size Configurations Available
- Custom Sizes Available on Special Order
- Non-Fire Rated

CRL-U.S. Aluminum stocks a variety of 487 Office Partition Door Frame Kits in clear, dark bronze, and black anodized finishes. The Kits can be used alone or combined with stock length extrusions to create larger openings with sidelites. Available for single or double door applications in a variety of widths and heights. All Door Frame Kits are prepped for 4-1/2" x 4-1/2" (114 x 114 mm) butt hinges. Frames up to 84" (2134 mm) tall are prepped for three hinges, and Frames over 84" (2134 mm) tall are prepped for four hinges. All Door Frame Kits also include standard CRL Lock Strike prep. Custom Door Frame Kits are available on special order.

NOTE: All doors and hardware must be ordered separately.

CRL-U.S. ALUMINUM OFFICE PARTITIONS

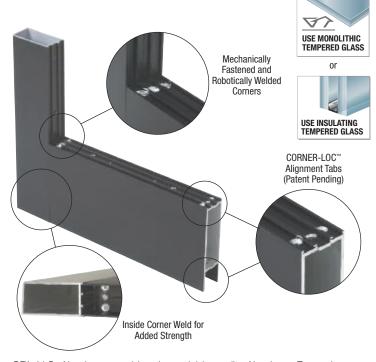

CRL 250, 400, and 550 Series Butt Hinged Aluminum Doors

- Narrow, Medium, and Wide Stile Doors
- Limited Lifetime Warranty on Mechanically Fastened and Welded Corner Construction Featuring CORNER-LOC® Technology

CRL-U.S. Aluminum has long been an industry leader in the manufacturing of entrance doors, door frames, and hardware. Our products are consistently built to the highest industry standards, ensuring years of reliable service. Now amazing improvement has been realized with our patent pending CORNER-LOC® Technology, creating the most durable door corner assembly available.

Torsion resulting from automatic operators and forceful impacts persistently degrades doors. To counteract these forces our CORNER-LOC® Technology features a robust mechanical fastening system, precision alignment tabs generated by state-of-the-art CNC processes, and robotically applied welds. This new system is so tough we had to create a severe torsion test to measure it against leading competitors. We are proud to say our CORNER-LOC® Doors lasted 10 times longer than the closest competitor's doors.

CRL-U.S. Aluminum provides dependable quality Aluminum Framed Doors to meet your specifications. Thousands of examples of CRL-U.S. Aluminum Doors are installed in buildings nationwide. Builders know that our systems are subjected to rigorous testing to assure quality and reliability through many years of service in all environmental conditions. Many CRL-U.S. Aluminum products now qualify for LEED® ratings as the requirement for "green" building products increases.

For additional information, visit us online at crlaurence.com/entrances or contact our Technical Sales department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7770. You can also email us at partitions@crlaurence.com.

CRL-U.S. ALUMINUM OFFICE PARTITIONS

CRL 250, 400, and 550 Series Butt Hinged Aluminum Doors

 Prepped for Butt Hinges, Glass Stops, and Cylindrical or Mortise Locksets (Not Included)

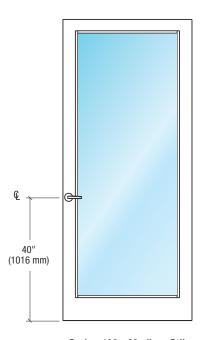

As an industry leader in the manufacturing of entrance doors and frames, U.S. Aluminum consistently builds products to meet the highest industry standards, ensuring years of reliable service. Job-tested, mechanically fastened and welded corner construction creates a rugged structural corner assembly. These entrances can easily accommodate a wide variety of custom hardware for specific job requirements.

These doors are among our most popular models, and we are making them available with a minimum lead time. Standard features include glass stops and an adjustable leveling screw in the top rail.

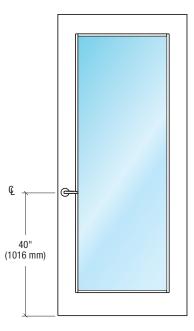

We also make custom doors to meet your exact requirements. Optional accessories such as door closers, panic exit devices, and special locking hardware is available.

Series 400 - Medium Stile

Series 550 - Wide Stile

Standard Features:

Glass Stops - Pressure type glass stops (square or beveled) with E.P.D.M. glazing gaskets permit time saving installation of 1/4" (6 mm) glass. Optional glass stops are available for 1" (25 mm) infills. Setting blocks for glass are preset at the factory.

Adjustable Leveling Screw - A simple adjustment on the leveling screw, concealed in the top rail of the door, compensates for minor variances in door openings after installation.

Accessories:

Hinging Hardware Butt Hinges for Single Acting Doors Closers Surface Mounted Overhead Concealed Overhead

Panic Exit Devices

CRL Wood Flush Doors

- 1-3/4" (44 mm) Thick
- Interior Use Only
- Fire Ratings Up to 20 Minutes
- Optional Vision Lites Available
- Contributes to LEED® Certification Ratings

CRL-U.S. Aluminum offers an extensive selection of Wood Flush Doors to complement our Office Partition Systems. They are engineered for high performance in diverse environments including office, hospitality, education, healthcare, recreation, and residential settings.

Our Wood Flush Doors are thoroughly tested and approved for a variety of applications, including 20-minute fire rating. A full selection of distinctive wood varieties, like White Birch, Red Oak, White Maple, and Cherry are available. Our Wood Flush Doors are engineered and crafted for high performance and available in three core options, Standard Particleboard Core, Extra Heavy-Duty Structural Composite Lumber Core, and Mineral Core. All Wood Flush Doors are available unfinished, prefinished with a UV Clear Coat, or your choice from a wide selection of colors. Visit **crlaurence.com/office-partitions** for additional information. NOTE: Maximum single door size is 48" (1.2 m) wide x 96" (2.4 m) tall. Maximum double door size is 96" (2.4 m) wide x 96" (2.4 m) tall.

Door Handing Capabilities

Door handing is determined from outside or key (secure) side of the door.

ANSI Lock Functions

INTERIOR EXTERIOR	FUNCTION ANSI NUMBER	FUNCTION DESCRIPTION
	ENTRANCE F 109	Pushing inside button locks outside trim, requiring key to unlock. Pushing and twisting button locks outside lever and always requires a key to unlatch. Inside lever always allows free egress.
	CLASSROOM F 84	Outside lever locked or unlocked by key.
	STOREROOM F 86	Outside lever always locked. Key unlatches only. Inside lever always allows free egress.
	PASSAGE F 75	Both levers are always free.
	PRIVACY F 76	Push button locking from inside. Lock can be opened from outside with narrow flat head screwdriver or by rotating inside lever.
	ENTRANCE F 20	Latchbolt operated by lever from either side, except when outside lever is made inoperative by push button rocker. Deadbolt projected by key from outside and by thumbturn from inside. Deadbolt retracted by key from outside. Both bolts retracted by inside lever with simultaneous retraction.

CRL Heavy-Duty Mortise Lever Lockset

- ANSI A156.13 Series 1000 Grade 1
- Supplied in ANSI-F20 Entrance Lock Function
- Field Reversible (Non-Handed)
- Fits Doors 1-3/8" to 1-3/4" (35 to 45 mm) Thick
- 2-3/4" (70 mm) Backset
- Schlage® 'C' 6-Pin, 1-1/8" (29 mm) Mortise Cylinder
- Supplied With ANSI 1-1/4" x 4-7/8" (32 x 124 mm) Strike
- Locks are Keyed Randomly

Other functions are available through our special order program. For more information, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also send an e-mail to **architectural@crlaurence.com**.

Oil Rubbed Bronze

- ANSI A156.2 Grades 1 and 2
- Choice of Keyways
- Grade 1 Includes Clutch Feature
- UL Listed

These CRL Heavy-Duty Commercial Grade 1 and 2 Lever Locksets are non-handed, and reversible. Grade 1 Locksets have a clutch feature that disengages the outer lever when the latch is locked. This prevents latch failure when excessive torque is applied to the outer lever in an attempt to force entry.

These Locksets are UL Listed with a 3-hour fire rating, and fit door thicknesses from 1-3/8" to 1-3/4" (35 to 45 mm) with a 2-3/4" (70 mm) backset. Available with either a Schlage® 'C' 6-pin keyway or a 7-pin Small Format Interchangeable Core (SFIC), and an ANSI 1-1/4" x 4-7/8" (32 x 124 mm) Strike.

NOTE: Locksets are keyed randomly.

CRL Fallbrook Series Office Partition System

- Door Hinges and Lock Hardware Available to Exclusively Fit Fallbrook Frames (Sold Separately)
- Slim Profiles Produce Maximum Transparency

Accommodates 5/16", 3/8",

Monolithic Tempered Glass

Doors and Sidelite Panels

and 1/2" (8, 10, and 12 mm)

The NEW Fallbrook Series Office Partition System allows the creation of attractive office partitions using monolithic tempered glass doors and panels, or upgrading to the XL Series so that monolithic tempered glass can be used on the doors, but insulating glass can be used on the fixed panels to reduce sound transmission and keep noise to a minimum (see opposite page). The front load dry glazing does not have exposed fasteners, and the narrow profile frames allow creation of a floating appearance, thus providing more of the 'all-glass' look desired by more designers and architects who want to minimize the hardware and expose more glass. The Standard Fallbrook Series System, is available in two kit choices, either door-to-wall or door-to glass. Kits accommodate 5/16", 3/8", and 1/2" (8, 10, and 12 mm) thick glass doors.

CRL Fallbrook Door-to-Wall **Door Frame Set**

CRL Fallbrook XL Series Office Partition System

- When Insulating Glass Sidelite Panels Are Used for Noise Reduction and Reduced Sound Transmission
- Accommodates Insulating Glass Sidelite Panel Thicknesses of 13/16", 7/8", 15/16", 1", and 1-1/8" (20, 22, 24, 26, and 28 mm)
- Accommodates 3/8" and 1/2" (10 and 12 mm) Thick Monolithic Tempered Glass Doors, or 1-9/16" (40 mm) Thick Wood Doors
- Front Load Dry Glazed System With No Exposed Fasteners
- Available in Satin Anodized and Brushed Nickel Finishes
- EPDM Gasket

(Door)

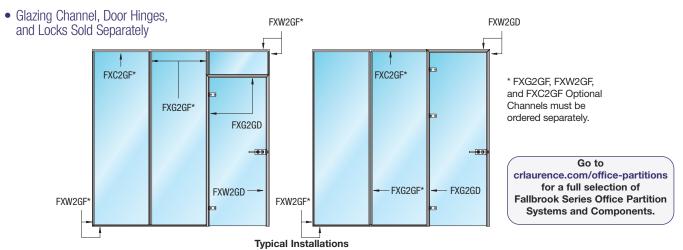

(Sidelite Panels)

The Fallbrook XL Series Office Partition System is for use when insulating glass sidelite panels are utilized for noise and sound reduction. This system allows you to create an office front with a "floating" door frame aesthetic, and the slim profile allows maximum transparency. The Fallbrook XL Series is designed to accommodate 3/8" or 1/2" (10 or 12 mm) thick monolithic tempered glass doors, as well as 1-9/16" (40 mm) thick wood doors. The insulating glass sidelite panels can be 13/16", 7/8", 15/16", 1", or 1-1/8" (20, 22, 24, 26, or 28 mm) thick.

CRL-U.S. ALUMINUM OFFICE PARTITIONS

CRL Clear View Office Partition System

- Full-Length Door Rails Utilize the Patented Wedge-Lock® Dry Glaze System
- Ideal for Office Fronts, Conference Rooms, Lobbies and Waiting Rooms
- Available in Six Standard Architectural Finishes With Custom Finishes Available Upon Request
- 3/8" to 3/4" (10 to 19 mm) Tempered Glass

CRL Clear View Frameless Glass Wall Office Systems provide the same seamless aesthetics as our CRL Cascade System, but with full-length, door and sidelite rails. Your choice of pivoting and sliding door options are designed to accommodate nearly any space. CRL Clear View Pivoting Systems are available in different configurations with rugged door closer options concealed within the floor, ceiling, or floating header, giving you a glass system that is completely tailored to your design.

Standard finishes are satin anodized, black/bronze anodized, black powder coat, brushed stainless, polished stainless, and polished brass. Custom finishes are available upon request.

For additional information visit us online at crlaurence.com/clear-view, or contact our Technical Sales Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7770. You can also send an email to partitions@crlaurence.com. NOTE: For maximum door sizes when using this product, CRL follows GANA Guidelines.

CRL-U.S. ALUMINUM OFFICE PARTITIONS

CRL Cascade Office Partition System

- Patch Fittings and U-Channels
- Minimal Hardware Allows for Maximum Natural Light Transmission
- Ideal for Office Fronts, Conference Rooms, Lobbies and Waiting Rooms
- Available in Six Standard Architectural Finishes With Custom Finishes Available Upon Request
- For Use With 3/8" to 3/4" (10 to 19 mm) Tempered Glass

CRL Cascade Frameless Glass Wall Office Systems provide clean, uninterrupted spans of "all-glass" partitions with minimal hardware. Slim patch fittings yield maximum natural light transmission while delivering a minimalist aesthetic to complement any contemporary interior. Frameless sliding configurations are available featuring our 'Softbrake' braking system. Cascade Systems are available in different configurations with rugged door closer options concealed within the floor, ceiling, or floating header, giving you a glass system that is completely scalable and adaptable to your project requirements.

Standard finishes are satin anodized, black/bronze anodized, black powder coat, brushed stainless, polished stainless, and polished brass. Custom finishes are available upon request.

For additional information visit us online at **crlaurence.com/cascade**, or contact our Technical Sales Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7770. You can also send an email to **partitions@crlaurence.com**. **NOTE**: For maximum door sizes when using this product, CRL follows GANA Guidelines.

CRL EZ GLAZE Soundstrips

- Creates a Seal Between Glass Panels
- Simple to Install No Adhesives

Thick Glass

CRL EZ GLAZE Soundstrip is an extruded silicone gasket designed to reduce sound, smoke, and odors through glass-to-glass (butt) joints. It's most commonly used in interior office spaces where tenants wish to utilize partial and full-height glass partitions to reduce sound transmission. Unlike wet glazing with silicone sealants, EZ GLAZE Soundstrip is easy to apply, saving the labor required to mask and apply silicone, plus the clean-up afterward. It can be installed from one side of the glass with simple roller tools, or by hand it cuts easily, and will not bubble like silicone sealants. Does not adversely affect laminated glass. EZ GLAZE is available in extra clear or black for 1/4" (6 mm), 3/8" (10 mm), and 1/2" (12 mm) thick glass. Recommended gap between the lites of glass is 1/4" (6 mm). Rolls are 100' (30.5 m) in length.

NEW!

EXTRA CLEAR EZ GLAZE SOUNDSTRIP - 100' (30.5 M) ROLL

CAT. NO.	COLOR	FITS GLASS THICKNESS

CRL Vacuum Ratchet and Turnbuckle Tensioning Kits

- Ideal For Joining Glass Partitions
- Uses Two S108 Vacuum Lifters (Included)
- Pulls With Tremendous Force

The CRL Tensioning Kits are designed to pull two flat surfaces or seams together. They are perfect for glass-to-glass butt joints or any situation in which flat, nonporous surfaces need to be pulled together.

While one set is handy, large panels usually need two sets, one on each corner, for an even pull. The ratchet or turnbuckle can be removed in order to use the Lifters alone as manual lift aids.

CRL SILICONE SEALANTS

CHOICES crlaurence.com/silicone-sealants

CRL Water Clear Silicone Sealant

- Optically Clear When Cured
- Applications Include Glass Butt Joints, Shower Enclosures, and Specialty Glass Assemblies

CRL Water Clear Silicone Sealant is an optically clear acetic cure, 100% silicone sealant. Water Clear Silicone cures quickly with a tack-free time of 5 to 10 minutes. It adheres to clean metal, glass, most types of wood, silicone resin, ceramic, natural and synthetic fiber, and most painted surfaces.

Important Note

10.3 and 5.0 Fl. Oz. (305 and 148 ml) Cartridges 30 Cartridges Per Case

Technical Data

Silicone Sealant

10.3 Fl. Oz. (305 ml);

30 Cartridges Per Case;

1440 Cartridges Per Pallet

Meets or exceeds the test requirements of Federal Specification TT-S-001543A (COM-

NBS) Class A for silicone building sealants;

TT-S-230C (COM-NBS) Class A, Non-Sag for one-component building sealants;

ASTM C-920 Standard Specifications for Elastomeric Joint Sealants as Type S,

CAN/CGSB-19.13-M97. Meets California

Air Resources Board 2003 requirements for

Volatile Organic Compound (VOC) content.

Grade NS, Class 25, Use NT, G and A;

CAT. NO.	CONTENTS
WCS1	10.3 Fl. Oz. (305 ml)
WCS5	5.0 Fl. Oz. (148 ml)

Minimum order: 1 each. All cartridge sealants can be combined for quantity pricing.

Exceptional clarity of product will not hide application or tooling errors. A small amount of bubbles may form during the curing process of the sealant, so considerations should be made up front regarding standards of appearance and subsequent repairs. Not recommended for use in the following applications: Glazing or edge sealing of insulating glass; laminated glass, copper, brass, magnesium, zinc, galvanized surfaces. Water Clear Silicone is not mildew resistant. Check cartridge label and Specification Data Sheet online for additional limitations.

CRL 33S Silicone Sealant

LEED®

 Our Most Popular Sealant is Available in Eight Colors

 Applications Include Glass Butt Joints

CRL 33S Silicone is a high quality sealant that delivers the performance you demand at a competitive price. It is a one component, room temperature curing, acetic cure, 100% silicone elastomer that does not require the addition of activators, stabilizers, or catalysts to achieve optimum performance.

CRL 33S Silicone is especially designed for joining and sealing most non-porous building materials including a variety of structural materials: glass, aluminum, metal alloys, stainless steel, wood, and plastics.

Technical Data

Meets or exceeds Federal Specifications: TT-S-001543A (COM-NBS) Class A, for silicone building sealants; TT-S-00230C (COM-NBS) Class A, for one-component building sealants; ASTM C-920 for elastomer joint sealants, Type S, Grade NS, Class 25, Use NT, G, A; CAN/CGSB 19.13-M87.

CRL RTV408 Neutral Cure Silicone

 Available in **Eight Colors**

CRL RTV408 is a neutral cure, medium modulus, 100% silicone sealant. It cures to a tough, flexible rubber when exposed to moisture. It is designed to have primerless adhesion to the following common building materials: aluminum, stainless steel, chromium, tin, iron, plastics, rigid PVC, phenolic resin, glass, ceramic, and most reflective coated glasses. It is also non-corrosive to all common building components.

Technical Data

TT-S-001543A (COM-NBS) Class A, for Silicone Building Sealants; TT-S-00230C (COM-NBS) Class A, Non-Sag for One-Component Sealants: ASTM C-920 Standard Specifications for Elastomeric Joint Sealants as Type S, Grade NS, Class 25, Use NT, G, A and O; AAMA 802.3-92 Type 1, 802.3-92 Type 2, 805.2-94 and 808.3-92; CGSB 19.13-M87.

 Adhesives Tapes

"Making do" with tools and accessories can sometimes lead to shortcuts that show up in the end result. On the other hand, using CRL Professional Tools and Accessories can lead to a job well done, and give your company a reputation for the highest quality. For that reason CRL offers a selection of Metal Cutting Saws, Laser and Measuring Tools, Vacuum Lifters, Dollies, Shims of all types, and more.

CRL TOOLS AND ACCESSORIES

CRL 4" x 6" Horizontal/Vertical Metal Cutting Band Saw

- Cuts Everything From Brass and Aluminum to Rugged Alloy and Tool Steels
- Ultimate in Metal Cutting Versatility
- Two-Position Rocker Switch With Safety Lock-Off
- 0-55 Degree Left Miter Cuts on Horizontal
- 120V 7AMP 1 HP Motor With Three Speeds
- U.L. Certified

Quickly and accurately cut rectangular work pieces up to 4" x 6" (102 x 152 mm), and round 4-1/2" (114 mm) diameter pieces using the Band Saw's adjustable horizontal and vertical positions. Choose from three speeds to cut everything from brass and aluminum to rugged alloy and tool steels. Includes a 1/2" x 0.025" x 64-1/2" (13 x .64 x 1638 mm) blade (14 TPI), plus a heavy-duty stand with two wheels.

BNDSW1 BNDSWB64 120 Volt 4" x 6" Horizontal/Vertical Band Saw* Replacement Blade

Minimum order: 1 each. *Must ship common carrier

CRL Makita® 12" Cold Cut Metal Chop Saw

- 60 Tooth Carbide Blade Supplied With Saw is Ideal for Cutting Mild Steel
- Optional 12" x 1" Arbor 76 Tooth Carbide Blade Available for Cutting Thin Gauge Steel, or Stainless Steel Such as Cladding

The CRL Makita® 12" (305 mm) Cold Cut Metal Chop Saw is supplied with a 60 tooth dry cutting carbide blade that is excellent for cutting mild steel, such as many hand and cap rails. No lubrication or coolant required. The Saw has a fixed angle head and adjustable fence/clamp stop to allow 0 - 45 degree cutting. A 4-1/2" (114 mm) maximum cut depth can be achieved at 90 degrees. This Cold Cut Metal Chop Saw is powered by a 15 Amp, 1300 RPM motor.

NOTE: For cutting thin gauge steel and stainless steel (such as cladding) without causing distortion or flaring, use Cat. No. A91039 12" x 1" (305 x 25 mm) Arbor 76 Tooth Carbide Blade (purchased separately).

CRL Makita® 18 Volt Cordless Metal Cutting Saw Kit

- 2" (51 mm) Maximum Cutting Depth
- 3600 RPM No Load Speed
- 30 Tooth Carbide Blade for Mild Steel and Aluminum Cutting Included

The dry cutting BCS550 Metal Cutting Saw Kit comes equipped with a 30 tooth 5-3/8" (137 mm) diameter carbide tipped saw blade engineered for mild steel or aluminum fabricating. Also included are two 18 volt 3.0Ah lithium-ion batteries and a 110 volt charger to make sure you are never out of power. Everything is packed in a sturdy plastic case.

The 56 tooth 5-3/8" (137 mm) A95794 Carbide Saw Blade is the first in its class designed to cut stainless steel material with a cordless saw.

NOTE: The A95794 Carbide Saw Blade is engineered for stainless steel cutting only, and should not be used on aluminum.

Makita is a registered trademark of Makita Corporation

CRL TOOLS AND ACCESSORIES

CRL Cross-Line Self Leveling Laser Kit

- Self-Leveling Within 3 Degrees, 49 Foot (15 meter) Range
- Locking Mechanism Blocks Self Leveling and Locks Display
- Vertical Line. Horizontal Line. or Both

The CRL LD200 Cross-Line Self Leveling Laser Kit allows you to cast a vertical or horizontal solid line, or both at the same time. When the device is tipped beyond 6 degrees, the laser will begin flashing and an audio alarm will sound. This kit also includes: three AA batteries, a 1/4-20 threaded mounting hole for use with tripods, a 360 degree swivel mount, a magnetic wall mount, a laser target (to extend useful range), and a rugged nylon storage bag. Minimum order is one each.

CAT. NO. LD200

CRL Standard Spot Laser Tool

- Establishes Plumb and Level
- Projects Laser Beams 3 Ways
- Self-Leveling Within 6 Degrees

The CRL Standard Spot Laser Tool gives you the convenience of a torpedo level with the quality of information available only from a professional point-to-point laser. Three bright laser points allow the PLS3 to be used anywhere on the job site for level reference and point-to-point plumb from floor to ceiling, or from up to 50 feet (15.2 m) off the ground. Weighing only 12 ounces (.33 kg), this hand held unit operates on three AA batteries (not included) for up to 30 hours. It comes with a leather carrying pouch, operating manual, and one-year manufacturer's warranty. Minimum order is one each.

CAT. NO. PLS3

CRL Deluxe Spot Laser Tool

- Establishes Plumb. Level, and Square
- Projects Laser Beams 5 Ways
- Self-Leveling Within 8 Degrees

The CRL Deluxe Spot Laser Tool provides simultaneous plumb, level, and square references in a compact, accurate, and affordable package. True point-to-point alignment information speeds layout and installation of curtainwalls, gates, doors, windows, railings, and skylights. Five bright reference points are easily seen indoors or out, and the unit is powered by three AA batteries (not included). It comes complete with floor mount, magnetic wall mount, layout targets, carrying case, operating manual, and one-year manufacturer's warranty. Minimum order is one each.

CAT. NO. PLS5

CRL 5-Point Laser Level

- Increases Productivity -Projects Plumb, Level, and Square Laser Points
- Electronically Motorized Leveling
- Range Up to 100 Feet (30.5 m)
- Carrying Case Included

The CRL 5-Point Laser Level eliminates set-up time and ensures accuracy. It transfers and aligns level, plumb, 90 degrees, and grade points. The robust housing is water and dust proof to ensure years of dependable operation. Includes: laser tool, multi-purpose attachment, recalibration wrench, laser enhancement glasses, mounting strap, and carrying case. Requires three AA batteries (not included). Minimum order is one each.

CAT. NO. GPL5

CRL Laser Distance Measurer

- Measures to 130 Feet (39.6 m) With Accuracy of 1/8" (3 mm) or Better
- Measures Distances, Areas, and Volumes for Material Estimates

This CRL Laser Distance Measurer will measure up to 130 feet (39.6 m) and display the distance in either feet-inch-fractions, decimal feet, inches, or meters. The built in calculator will also calculate area or room volume. The automatic memory function stores the 10 most recent measurements. Accuracy is within 1/8" (3 mm). Minimum order is one each.

CRL "Angletronic" Measuring Tool

- Measures Angles Between 0 and 180 Degrees
- Stores Up to 56 Measurement Values
- Battery-Saving Automatic Shut-Off Feature

With the CRL "Angletronic", angles between 0 and 180 degrees can be measured quickly, precisely and reliably, and read off the digital display. You can even take measurements in difficult positions, store the measurements, and access them at a later time.

Optoelectronics provides accuracy and maintenance free service for years. Operates on four AA batteries (included). Minimum order is one each.

CAT. NO. TT505

CRL POLYCAST® **Protractor/Angle Finder**

- High-Impact POLYCAST® Plastic Construction
- Adjustable Angle Pointer for Marking Angles
- Magnetic Base

The CRL Magnetic POLYCAST® Protractor/Angle Finder measures any angle from 0 to 90 degrees in any quadrant. It comes with a dampened pendulum for quicker readings and an adjustable angle pointer for marking and transferring angles. The magnetic back and base provides "hands-free" use when working with ferrous surfaces. Minimum order is one each.

CAT. NO. 36MPP

CRL "Anglefix" Measuring Tool

- Measures Angles Quickly and Precisely
- Built-in-Spirit Levels Help Keep it in Position
- Easy-to-Read Analog Display

The "Anglefix" Measuring Tool is a precision measuring device that works guickly and easily. Built-in horizontal and vertical spirit levels assist in keeping it in position, so you can reliably set and read any angle. The angle measurement is displayed on an easy to read analog display. A clamping screw locks the "Anglefix" in any position. Two types of "Anglefix" are offered. The Mini "Anglefix" is a handy tool for glaziers, interior finishers, and metal workers. The Maxi

"Anglefix" is intended for glaziers, carpenters, builders, and metal workers. The Maxi Model is additionally fitted with points, one of which can be removed and fitted with a pencil for compass use.

CAT. NO.	MODEL	LEG LENGTH	MEASURING POINT
TT450	Mini	14-9/16" (370 mm)	No
TT500	Maxi	23-5/8" (600 mm)	Yes

Minimum order: 1 each, Sizes can be combined for quantity pricing

CRL Out-of-Plumb Level Gauge

The CRL Out-of-Plumb Level Gauge gives you a precise "Out-of-Plumb" dimension. The Out-of-Plumb Gauge mounts to your level in minutes, or order the Cat. No. HF0172 Level Set. The scale on the side of the Gauge reveals your "Out-of-Plumb" measurement.

CAT. NO.	DESCRIPTION
HF01	Out-of-Plumb Level Gauge
HF0172	Out-of-Plumb Gauge and 72" Aluminum Level Set

Minimum order: 1 each

CRL Stanley® FatMax® Levels

- Superior Aluminum Structure for Increased Durability
- Shock Absorbing End Caps

The CRL Stanley® FatMax® Levels are constructed with a seamless one-piece aluminum extrusion, and have a level accuracy of 0.0005" (.01 mm). Block vials and shock absorbing end caps assure maximum accuracy and durability. FatMax® Levels also feature non-marring side bumpers to prevent damage when working against finished surfaces.

Polycast is a registered trademark of Empire Level Mfg. Corp. Stanley and FatMax are registered trademarks of Stanley Logistics, LLC.

CRL Plate Glass Dollies

- Caster Design Allows Turn-on-a-Dime Maneuvering
- Felt Pads Cushion Loads

CRL Plate Glass Dollies are ideal for moving large glass infills for storefronts and entrances. Their hardwood construction features ball bearing casters and wheels. The 1-1/2" (38 mm) center groove is wide enough for even thick laminated panels. Felt pads on either end cushion loads during movement. Dollies have a capacity of 350 pounds (159 kg). NOTE: Not available in Australia.

CAT. NO.	LENGTH
13063	36" (914 mm)
13065	60" (1524 mm)
13066	72" (1829 mm)

Minimum order: 1 each. Sizes can be combined for quantity

CRL All Terrain Dolly

- Terrific for Moving Heavy Glass Panels Around the Job Site
- Goes Where Other Glass Dollies Won't
- Built-In 8" Wood's Powr-Grip® Vacuum Cup
- Includes a Set of Our RB200 Roller Blocks
- 400 Pound (181 kg) Capacity

CRL's All Terrain Dolly is like having an extra person on the job site. Moving large glass lites, insulating units, patio door panels, or even stone slabs across any terrain is now a snap. Curbs, door sills, and scrap lumber are no longer obstacles when your crew is using the All Terrain Dolly. Its large 16" (406 mm) diameter pneumatic tire won't bog down in grass or dirt, common to residential or commercial job sites. This handy device also eliminates back and arm strain associated with carrying heavy loads suspended over long distances. Included is a Wood's 8" (203 mm) Powr-Grip® Vacuum Cup and set of Cat. No. RB200 Roller Blocks to protect the panel's edges once unloaded. The Roller Blocks are stored conveniently inside the frame of the All Terrain Dolly so you always know where to find them. Maximum capacity is 400 pounds (181 kg). Minimum order is one each.

CAT. NO. ATD1

CRL Roller Blocks

- Roller Design Lets You Rotate Heavy Glass Panels With Ease
- Turn Them Over to Use as Resting Blocks
- Rubber Base Ensures Traction

CRL Roller Blocks were developed to aid in the safe handling of large and/or heavy glass panels. Each of these blocks has a cushioned 90 degree inside corner on which to rest the glass while rotating or maneuvering it into position. Maximum capacity is 400 pounds (181 kg) per block. Minimum order is one pair.

CAT. NO. RB200

CRL Two-Wheel Adjustable Glass Dolly

- Perfect for Large and Heavy Glass Panels
- 300 Pound (136 kg) Capacity

With the CRL Two-Wheel Adjustable Glass Dolly, heavy items such as railing panels, storefront doors, framed windows, storm windows, I.G. units or just about any other flat surfaced item can be easily moved in an upright position. The Dolly is adjustable to widths from 2-1/2" to 4-1/2" (63 to 114 mm). The steel carriage is carpeted to prevent marring of the surfaces. Minimum order is one each.

SDS

CRL Shimstack Shims

- Adjustable Size Options Lets You Choose the Desired Thickness From 1/16" to 1" (1.6 to 25 mm)
- Standard and Extra Long Sizes

Shimstack Shims give you fast, low cost leveling. 16 heat-sealed pieces make up one 1" (25 mm) stack. Simply snap off individual shims to get the thickness you need. Made of fire resistant, non-staining, black color high-impact plastic with an ASTM rating of 5000 p.s.i. compressive strength.

3-1/2"

CAT. NO.	TYPE	THICKNESS	LENGTH
KRS16	Standard	1/16" (1.6 mm)	3-1/2" (90 mm)
KRS26	Extra Long	1/16" (1.6 mm)	4-1/8" (105 mm)
Minimum order: 1000 chime. Must order in increments of 1000. Sizes can be combined for quantity pricing			

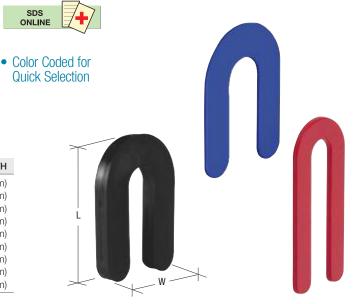

CRL Plastic Horseshoe Shims

- 1/16", 1/8", and 1/4" (1.6, 3.2, and 6.3 mm) Thicknesses
- Simplifies All Rail Leveling Requirements

CRL Plastic Horseshoe Shims are made to simplify leveling problems wherever they occur, and have been approved by architects for use in the installation of railings, windows, doors, curtain walls, storefronts, and insulating glass units.

CAT. NO.	COLOR	THICKNESS	"W" WIDTH	"L" LENGTH
PHS4	Black	1/4" (6.3 mm)	1-1/2" (38 mm)	2" (51 mm)

Minimum order: 100 each. Must be ordered in increments of 100. Sizes can be combined for quantity pricing.

CRL Clear Plastic Horseshoe Shims are made to simplify leveling problems wherever they occur, and have been approved by architects for use in the installation of railings, windows, doors, curtain walls, storefronts, and insulating glass units. CRL Horseshoe Shims are made of a clear high impact styrene plastic, properly designed and balanced for vertical or horizontal use. Available in three thicknesses 1/16", 1/8", and 1/4" (2, 3, and 6 mm). All sizes have 9/16" (14 mm) space between the legs.

CRL Clear Plastic Setting Blocks

- Barely Visible Blocks are Great for Use in Railing Installations
- 80±5 Durometer Hardness

SDS

CRL Clear Plastic Setting Blocks are especially suited for use where black neoprene rubber setting blocks are undesirable, such as 'all-glass' railing installations. Custom size Clear Plastic Blocks are available on special order.

 Available in Six Sizes

1/4" (6 mm)

1/4" (6 mm)

Minimum order: 100 each. Must be ordered in increments of 100. Sizes can be combined for quantity pricing.

CRL Plastic Bearing Shimstrips

- High Compressive Strength
- Snap Off to Required Length for Every Job

CRL Plastic Bearing Shimstrips are intended for use in placing and leveling of precast panels and tilt slabs. Just snap off the length you need for each job, and stack to the required thickness.

3M and VHB are registered trademarks of 3M Company.

This CRL Acrylic Foam Very Hi-Bond Tape is designed to replace mechanical fasteners and welds for a variety of applications including: cladding, auto trim attachment, window grids, signs, graphics, and construction use. It's solid acrylic core gives it superior strength, and allows for clean cuts. Best adhesion when applied at temperatures above 50°F (10°C) to 100°F (38°C). Full strength is attained in 72 hours.

CRL-U.S. Aluminum Storefront Systems

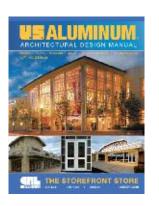

- Modern Systems
- Supplies
- Technical Service
- Leader in the Industry for Over 50 Years

CRL-U.S. Aluminum has designed and engineered a number of proven and attractive storefront systems with long-lasting quality, reliability, and durability. Whatever the climate and environment, our storefront systems are known performers that deliver value on a daily basis. There's no need to compromise on selection or price, because our Technical Specialists are trained to serve your needs, from design to delivery, and every step in between.

Our years of experience in the field have given us the confidence to promote your entry into the sale and installation of attractive and quality-built storefronts. Every community has businesses large and small that depend upon welcoming and reliable storefronts to attract customers. As time passes these storefronts can become worn or dated, in need of repair or outright replacement. You can be your community's source for storefront repairs and replacement.

For additional information, contact U.S. Aluminum Technical Sales at (800) 262-5151 in the U.S. and Canada, or (323) 268-4230 International. Ask for Ext. 5305. You can e-mail us at usalum@crlaurence.com.

Complete specifications, detailed assembly drawings, windload and deadload charts, can be found in our USAL14 U.S. Aluminum Architectural Design Manual, available for viewing, download or order from the Catalog Library at criaurence.com/catalogs

KD Storefront Fabrication Service

You Provide the Details and We'll Do the Rest. Let Us Fabricate for You!

Take the guesswork out of quoting your fabrication labor, reduce costly fabrication errors, and, most importantly, save time. Our KD Storefront Fabrication Service provides installation-ready materials and hardware bundled by elevation. Glass sizes and step-by-step installation instructions are included. Our unique combination of quality, inventory, expertise, and turnkey services gives you maximum flexibility and profitability. See crlaurence.com/fabrication.

Advantages of U.S. Aluminum Fully Fabricated Storefronts:

PROJECT EFFICIENCY

- Complete Turnkey, KD Solution Available for Local Pick Up Includes all hardware, gaskets and accessories required for the complete assembly. Materials can be added or removed
- Fast Turnarounds and Rapid Customization
- Materials Bundled by Elevation for Easy Job Site Handling

QUALITY ASSURANCE

- Precise Fabrication Via State-of-the-Art CNC Equipment
- Heavy Wall Packaging with Wood Blocking for Protected Handling of Materials to the Job Site

PEACE OF MIND

- Minimizes Cost and Liability Resulting From **Fabrication Errors**
- Simply Send Us Your Details and We Can Do the Rest

SINGLE SOURCE ACCOUNTABILITY

We supply the materials, fabricate the extrusions, provide glass sizes, and offer the largest selection of door hardware, installation tools, and supplies to get the job done right.

CRL-U.S. Aluminum Curtain Wall Systems

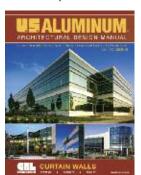

- Modern Systems
- Supplies
- Technical Service
- Leader in the Industry for Over 50 Years

CRL-U.S. Aluminum offers Curtain Wall Systems that are ideal for low to mid-rise structures. We offer cost efficient and versatile systems with clean lines and superb performance characteristics. Systems are available that may be glazed from the interior or exterior using E.P.D.M. glazing gaskets, and all series are compatible with most CRL-U.S. Aluminum Entrance Doors, Sunshades, and Light Shelves. Dual colors can be achieved with these systems simply by specifying different finishes for the exterior face covers and interior mullions. Glazing options include 1/4" (6 mm), 1" (25 mm) insulating glass, and 2" (51 mm) triple glaze.

CRL-U.S. Aluminum Curtain Wall Systems can be custom modified to the specific requirements of your project. Our product specialists will work with you to ensure the Curtain Wall System you order from us will meet your needs and the approval of your clients. For additional information, contact U.S. Aluminum Technical Sales at (800) 262-5151 in the U.S. and Canada, or (323) 268-4230 International. Ask for Ext. 5305. You can e-mail us at usalum@crlaurence.com.

Our revolutionary Storefronts Online® estimating software now includes U.S. Aluminum Curtain Walls. Be among the many benefitting from the capabilities of Storefronts Online®. Go to crlaurence.com/SFOL or contact U.S. Aluminum Technical Sales at (800) 262-5151 and ask about how you can receive a FREE 30-day trial.

Complete specifications, detailed assembly drawings, windload and deadload charts, can be found in our USAL15 U.S. Aluminum Architectural Design Manual, available for viewing, download or order from the Catalog Library at criaurence.com/catalogs

Architectural Metals Designed, Engineered, and Manufactured by C.R. Laurence

- Architectural Bollards in Stock and Custom Sizes
- Custom Clad Entrance and Storefront Systems
- Custom Break Shaped Aluminum or **Architectural Metals**
- Custom Metal Column Covers
- Custom Metal Panel Systems
- Custom Ornamental Metals
- Custom Ornamental Hand Rails and Guard Rails
- Custom Canopies

C.R. Laurence Company fabricates custom metals that are both functionally correct and aesthetically pleasing to the eye. We can be involved in all phases of your project, from initial design to delivery, with every step controlled by processes that meet strict ISO standards. Our Los Angeles, California manufacturing staff incorporates fine craftsmanship and experience in the design, fabrication, and finishing of architectural metals.

Some of our work is installed in the finest hotels and retail buildings in North America. You can see examples of it in many commercial and entertainment venues. We're able to be involved in so many projects because we have the versatility to supply what you want, and to do so in a cost-efficient and timely manner.

Custom architectural finishes and textures are always an option, so you won't have to be limited to just a few. We specialize in meeting your requirements.

For more information on custom architectural metals contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can also send an e-mail to architectural@crlaurence.com.

CRL Extrusions and Profiles

The Shapes, Materials, and Finishes You Need, When You Need Them

Selection

Service

Through years of working with the industries, C.R. Laurence Company has developed an extensive line of Extrusions and Profiles that enables professionals to create projects with no limitations of design. Whether you are working with glass, mirror, plastics or other materials, you will find the selection is made of the highest quality materials, in the most commonly used shapes, along with hundreds of special application configurations.

Our material choices of aluminum, stainless steel, brass, and plastic will allow you to use the most appropriate parts in assembling your jobs. Our large selection of finishes makes it easier than ever to accent the applications in either new or existing environments. And if you need something special, custom shapes and finishes can be quoted upon request.

Ordering online at crlaurence.com, by toll free phone, toll free fax, or visiting one of our 40 service center locations is easier than ever. We take a business-to-business approach to every transaction. We are always pleased to receive your orders, and promise to fill them as promptly as possible.

C.R. Laurence's Customer Services are offered in a variety of forms. The CRL Technical Sales Department offers Product Specialist Groups who are trained in the latest product systems and are ready to answer all of your product questions.

Most important is knowing that you can depend on CRL to have the inventory of products you need when you need them. We've invested in huge supplies of Extrusions and Profiles to be ready to serve you.

CRL Stainless Steel P-Series Post Railing Systems

A Selection of High Quality Stainless Steel Post Kits and Components

- Complete "Off-The-Shelf" Stock Kits Including Your Choice of Glass Fittings (P7 Series Posts Only)
- Customize Your Own Post Systems From a Choice of Glass Fittings and Components (All P-Series Posts)
- New Blank Posts Available for P1 and P7 Series (Our Most Popular Posts)

- Railing Posts Designed for Interior or Exterior Hand Rail and Guard **Rail Applications**
- Designed and Engineered to Meet or Exceed Building Codes
- For Use With 1/2" to 27/32" (12 to 21.52 mm) Thick Tempered Glass
- Two Standard Stainless Finishes. With Custom Powder Paint Finishes Also Available
- Standard 42" (1067 mm) Height, With Custom Heights and Styles Available on Special Order

C.R. Laurence manufactures a comprehensive selection of P-Series Railing Posts that combine the durability of stainless steel components with innovative designs and engineering. This ensures long-term structural integrity and enhances project aesthetics. Our P-Series Posts offer a choice of eight distinctive designs for both commercial and residential applications. All are designed and engineered to meet or exceed most local building codes. Posts are fabricated from stainless steel. The standard height is 42" (1067 mm), with custom heights available to meet your exact requirements. Standard finishes are brushed and polished stainless steel, with custom powder paint finishes available on special order. For the top rail you can select either 1-1/4" or 1-1/2" (32 or 38 mm) Schedule 40 Hand Rail Tubing. NOTE: The tempered or laminated tempered glass is sold separately, and must be fabricated with pre-drilled holes to be fastened to the Posts. Please contact CRL Railing Technical Sales for assistance in planning your Post Railing project.

CRL Hand Rails Online

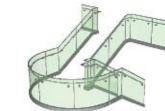

Web-Based Railing and Windscreen Design Program

- Innovative Web-Based Program That Generates Glass Sizes, Material Cut Sizes, Layouts With a Complete Hardware List
- Supports Fabricated and Stock Length Ordering Methods
- Generates Accurate Quotes in Minutes
- Six Easy Steps to Design a Railing System, See Them Online at **crlaurence.com/online-apps**

Hand Rails Online is part of our family of online services, Including 'All-Glass' Storefronts Online®, U.S. Aluminum Storefronts Online, Showers Online, and Office Partitions Online. For information about all of our Online Programs, please visit crlaurence.com/online-apps.

FREE 30 Day Trial Offer Upon Completion of Introductory Webinar Visit crlaurence.com/online-apps

Hand Rails Online is a web-based design program that allows you to enter your railing layout dimensions for a particular job, then calculates the stock lengths of material and all hardware required to complete your project. It also displays and prints detailed information such as post spacing, railing heights, and bottom rail clearances.

Hand Rails Online allows you to design and layout almost any configuration in minutes. Default settings and standard clearances can be customized within the program to suit the user's own needs. A quote sheet and layout drawings can be generated for a professional and personal presentation to a prospective customer.

Hansen Architectural Systems is Now Part of the CRL Family of **Brands**

Hansen has over 20 years of experience specializing in the design, fabrication, and installation of high-quality Aluminum Railing Systems. Their product offering includes cable railings, glass railings, picket railings, and sun control systems. Architects and contractors have been specifying Hansen's Railing Systems for decades on hundreds of notable commercial and residential projects across the nation. CRL is a leader in the railings industry, and Hansen's strong brand reputation was a logical fit for our ARS Aluminum Railing and AWS Aluminum Windscreen product lines. We look forward to leveraging our strengths to bring our customers Hansen's high-quality products and benefiting from Hansen's expertise in this industry.

Technical Assistance and Design Criteria

Modern shower and bath enclosures start with an idea, or vision, of an elegant and functional bathing environment that will add beauty and value to a home. Transforming the idea to reality requires not only quality hardware, but a design or plan to integrate the new enclosure into the existing surroundings.

We offer help in two critical areas of shower enclosure construction. First, the design must be evaluated. Will it fit the existing area, or will extensive modifications be required? We can review your plan design to evaluate its suitability for the intended installation. Second, the hardware must be compatible with the intended glazing and layout. Recommendations as to which hinges and accessories will be compatible to a functional design will be offered. We will help you choose the hardware that brings out the very best in your design plans. All of this is part of our effort to bring you not only the best products, but also top level service to match.

- Column or Arch Style Fittings Available in Wall-to-Glass or Glass-to-Glass Models
- Brushed Stainless Finish
- Swivel to Fit Different Angles
- Choose Surface or Flush Mount Glass Fasteners (Sold Separately)

USE MONOLITHIC TEMPERED GLASS Column Series Swivel Fittings Arch Series Swivel Fittings

This display unit was connected using our Column Series Swivel Fittings and our Round Standoffs

All the latest Swivel Fitting Systems and related accessories are shown in our SC18 Catalog. View online at crlaurence.com/catalogs.

CRL offers two styles of Swivel Fittings. Our Column Style and Arch Style Fittings are used for wall or floor-to-glass applications, and glass-to-glass applications. Surface or Flush Glass Attachments are sold separately. This gives you a choice, depending on your needs. See below for more information.

Typical Configurations: In today's market the 'all-glass' look is preferred and that makes our Swivel Fittings the perfect component solution. They are designed for a variety of applications, such as connecting glass panels for display, exhibit, and furniture projects. CRL's Column Style and Arch Style Swivel Fittings are available in various models for glass-to-glass and glass-to-wall attachment configurations. There are two forms of glass attachment: Surface Mounted Cap Assemblies require a hole in the glass; Flush Mounted Cap Assemblies need a hole and countersink for installation. The Swivel Fittings pictured on this page show just a few of the glass attachments that can be accomplished. The following pages display all of the different styles of Fittings with dimensions that will assist you in making the correct product choice for your project. If additional assistance is required, please call

CRL Technical Sales at (800) 421-6144 in the

CRL MAINTENANCE PRODUCTS

CRL Cleaning and Polishing Products Give Your Projects a Perfect Finishing Touch

Give your projects a perfect finishing touch with CRL's complete assortment of quality cleaning and polishing agents for glass, aluminum, and stainless steel. These easy to apply, hard-working products are formulated to give you bright, squeaky-clean surfaces.

Our glass cleaners have been the standard of the glass industry for decades. Hard water spots and stains can dull the finish of glass and metal surfaces, but with our water spot removers you can make them look like new again. We also offer cleaners and degreasers to polish and protect metal surfaces.

Doing a good cleaning job is always easier with the right tools. Our professional strength wipes clean surfaces without streaking, and absorb moisture faster than traditional paper towels. Our squeegees, scrapers, blades and other maintenance tools are online at crlaurence.com/cleaners.

CRL CUSTOMER SERVICES

FOUR WAYS TO ORDER

CRL Gives You Ordering Options to Suit Your Preference

Color the Phone

Online Ordering: Buy Direct From Our Online Catalog

crlaurence.com is the Store That Never Closes, Offering More of What You Want, When You Need It

Online shopping just got easier. CRL Express Ordering streamlines the entire process by automatically associating your preferred payment method with your most frequently used shipping address. Complete the simple activation process once, and start placing every order with only two clicks.

Start saving time and try CRL Express Ordering today by:

- 1. Click on Your Account
- 2. Click on CRL Express Ordering
- 3. Click on Turn Express Ordering On

Order it Quicker

Make re-ordering simple with CRL Personal Catalog. Visit crlaurence.com/personal-catalog

Can't Find What You're Looking For?

Click on the "Contact Us" button at the top of crlaurence.com. We have a dedicated online Customer Service Department ready to assist. Response time is short during regular business hours, and we will work to help you find what you're looking for. Visit crlaurence.com/support.

Call Us Toll Free: (800) 421-6144

There's a Knowledgeable Friendly Voice Ready to Help With Your Product Inquiries

For over 40 years CRL has provided toll free ordering at **(800) 421-6144**. Our products speak for themselves, but sometimes there's just no substitute for the effectiveness and courtesy of speaking directly to another person. When you call our Customer Service Order Desk you'll find CRL staff who are polite, personable, and trained to provide assistance with CRL products and services. Order Desk hours are 6 am to 5 pm (Pacific Time) Monday through Friday, and 7 am to 12 pm Saturdays. In Australia our number is **1800 424 275**. In Europe our freephone number is **00 800 0421 6144**.

Toll Free Fax: (800) 262-3299

Convenient, Familiar, and With Assured Delivery

Despite being well into the digital age with plenty of internet-based alternatives, sending and receiving documents via fax is still recognized as an essential business communication tool worldwide. Unlike e-mail, fax correspondences acknowledge that a document has been delivered, giving you the confidence that your order has been received. To send your orders or quote requests by toll free fax from anywhere in the U.S. or Canada, just dial (800) 262-3299. In Australia the number is 1800 813 013. In Europe the freefax number is 00 800 0262 3299.

Your Local Service Center Will Call Trade Counter

When You Need It Today, Our Will Call Trade Counter is Your Fastest Option

Every CRL Service Center has a Will Call Trade Counter where you can place and pick up your orders in person. Want to start your project sooner? Leverage our **Express Pickup Desk** by placing your order in advance via phone, fax, or online, and we'll have your order ready and waiting for you. Will Call hours are 8 am to 5 pm Monday through Friday, and 8 am to 12 pm Saturdays. Find your Service Center Will Call at **crlaurence.com/locations**.

Who May Buy

C.R. Laurence is a manufacturer and wholesale distributor. Possession of this catalog, or any other CRL sales literature, does not constitute an offer to sell. Orders from individuals (except professional tradesmen) may not be accepted.
