# CRL Längle OFFICE Partition System

Maximum Transparency

## Längle

(Photos: Jan Greune / Project: HP Ingenieure)

The CRL Längle OFFICE Partition System offers a creative and effective solution for modern interior designs with its minimal look and sound reducing properties. For use with glass thicknesses of 8 to 16,76 mm on fixed panels. All-glass doors allow light to filter between rooms and create a feeling of space. Tempered glass and laminated glass from thicknesses of 8mm to 12,76 mm can be used.

OFFICE is a dry glaze partition wall system with design flexibility. Various common hinges and lock types can be installed in the frame without drilling. The door can therefore be adjusted to compensate for any tolerances. Patented Hammer Head Nuts guarantee simple adjustment. Another advantage for quick installation is the use of EPDM plug-in seals for dry glazing compared to time-consuming wet-glazing with silicone.

- Complete service from planning to ready to assemble cutting
- Fast quotes and delivery
- Fast and reliable processing of both small and large projects
- Standard finishes, Satin Anodised (EVI), Matte Black, Brushed Nickel
- Special colours available
- Tested sound insulation
- Simple hinge assembly
- Silicone free
- Cable channels available
- Door 8 - 12 mm (also Laminated)
- Side Panel 8-28 mm (also laminated)
- Drop-down seals available
